organ's painful acrobatic predicament.

It is a bit odd that the extreme dis satisfaction expressed by the American papers with the Canadian government's Yukon regulations should have had no Yukon regulations should have had no appreciable effect on the government. It seems to be going right along as if nothing at all had happened.—Kaslo Koo-

Even if the government had expresses no intentions at all in the matter it is evident that the remarkable development which the province has under which the province has undersone dur-ing the past three years and the great increase of population which has taken place, especially in the southern portion, would render a redistribution bill a posi-tive necessity. In such a bill the claims of East Kootenay to an additional re esentative cannot be ignored.-Grand Forks Miner.

CLONDYKE COMPANIES

For the Development of the Yukon District-A Few Wildcats.

One of the features of the present citement over the gold discoveries in he Clondyke, says the Montreal Star, s the great number of syndicates which re being formed for the purpose of equiring and working claims in the olden north. These syndicates are dong a rushing business, too, for there are nany thousands of persons who have een smitten with the gold fever, but tho, for various reasons, do not care to nake the journey in person in quest of ortune. To these the organized syndiates appeal with especial force, as offerng a means of sharing in the benefits f possible great discoveries without the rdships and risks of personal expedi-

There are already organized in Mon real three of these syndicates, and the amer Islander, which sailed from Vic. ia for Dyea on August 15th, carried editions sent out by each of the ee. They are the Canadian Yukor npany, a private syndicate organized Dr. James Guerin, and now seeking rporation as a joint stock company; Montreal-London Gold and Silver ning Company, whose local agent is Ir. Clarence McCuaig, and a syndicate med by Mr. E. S. Scroggie. The au-orized capitalization of the Montrealadon company is \$1,200,000, of which out \$300,000 is understood to be no escribed. The capitalization of the ner companies is not yet fixed. In addition to these three syndicates ere are a number of others in Mon-

eal in a state of embryonic formation hey will materialize during the early nter, and be prepared to send out exditions in March or April. The general plan and purpose of the veral syndicates is very simple. A

aeral adaptability to the requirements placer mining in the icy north, and placed in charge of a foreman, who ddition to a certain stipulated salary in order to stimulate his zeal, allowed ertain interest in the profits of the dicate. The expedition is sent out the Yukon, and in addition to hunting new claims, is provided with capital the purpose of buying up desirable ms already staked out that may offer.

ares in the syndicate are offered public at a low price; and accordi the readiness with which the public ads will be the extent of the parular syndicate's operations. Reports from London tell of the or-

nization of large numbers of these idicates in England and on the conent. In the United States the fever assumed gigantic proportions, and following table, prepared by the Chi-Tribune, gives an idea of the num of companies being formed across ine. According to the Tribune, the pital stock of the companies all med foot up the total of \$164,512; 0, and an army of over 8,000 men is on its way to the northern Eldo
