Hon. Mr. Blake's Visit. An article which we copy this week from the St. John Telegraph indicates that somebody is impressed unfavorably with the proposed visit of Hon. Mr. Blake to Northumberland during the oming season. It is a settled fact that the visit is to be made, and equally certain that it is looked forward to by the people of the County with interest and leasure. Indeed, it would be surprising if Mr. Blake should leave Mirmichi out of the list of places to be honored by him in his proposed tour of the Maritime Provinces, and equally surprising if the announcement of his ming were received otherwise than with general satisfaction. The readers of the Telegraph hereabouts, wondered, therefore, when they saw the statement of that paper that it had read and heard by "screaming reports" that Mr. Blake's visit would be disagreeable to the Conservatives. In this County we kuow nothing of the "screaming reports" referred to, nor has there been anything said save in the way of approval concerning the proposed visit in any influential quarter. It may be that a dozen or so of gentlemen, who are the Liberal — Conservative — Protectionist remnant of what was once a strong party in Northumberland, are opposed to the coming here of Mr. Blake or anyone else who differs from them in their peculiar politics, but these persons charge his opponents can bring agains make no impression on the public him, it is significant as showing how mind. County are concerned—and Mr. Blake of them-they will vie with any other to the distinguished visitor. Even the ears of the Telegraph as Conservatives, against the visit, will probably scream just as loudly in welcoming Mr. Blake when he comes, and if they do not they will have the prudence to remain silent.

It is not necessary to say much in taken in bringing Mr. Blake here. Maritime Provinces was proposed by County and, in their name, express the general desire that exists to see and ear him. Mr. Blake is the head of the great party to which the people of Northumberland look as the exponent of their political aspirations, and if he passed them by he would fall short of a proper personal recognition of that loyalty to the principles of his party which they have always shown. They have had leaders with whom party names have become by-words - men who preached the public good, and yet sought and secured their own profit and political advancement, while they deserted principle and party alike. Our people have treated with courtesy and respect these men who, within a decade of years, preached both free trade and protection and were Liberals and Conservatives in turn, until party names became meaningless. It is therefore, not to be wondered at if the few remaining followers of such leaders prefer not to have our people afforded an opportunity of displaying their admiration for the principles and record

of Mr. Blake, both as the head of party and personally. If it please certain "screamers" to say Mr. Snowball has induced Mr. Blake to come here for the personal or political advantage of the ormer gentleman, we ought not to denv them the privilege they thus exercise. Mr. Snowball's political friends, however, know that their circle is expanding every day. He is popular, personally, and they feel a satisfaction in having so creditable a representative supporting the party in which they have an abiding confidence. If Mr. Blake holds to-day as the undoubted choice and favorite of Northumberland. Mr. Blake's visit will, no doubt, help to confirm our people in their good opinion of their representative, but as this will also tend in the direction of the popular the visit should be a source of pleasure

In connection with the proposed visit nent "Conservative" will meet Mr. a fair arrangement, but Mr. Blake's friends have but one feeling in the County will not be honored with so many distinguished gentlemen at the
