into this country by the proprietors and manufacturers of the Great South American Nervine Tonic, and yet its great value as a curative agent has long been known by a few of the most learned physicians,

who have not brought its merits and value to the knowledge of the

This medicine has completely solved the problem of the cure of indigestion, dyspepsia, and diseases of the general nervous system. It is also of the greatest value in the cure of all forms of failing health from

whatever cause. It performs this by the great nervine tonic qualities

which it possesses, and by its great curative powers upon the digestive organs, the stomach, the liver and the bowels. No remedy compares

with this wonderfully valuable Nervine Tonic as a builder and strength-

ener of the life forces of the human body, and as a great renewer of a

broken-down constitution. It is also of more real permanent value in the treatment and cure of diseases of the lungs than any consumption

remedy ever used on this continent. It is a marvelous cure for nervousness of females of all ages. Ladies who are approaching the critical period known as change in life, should not fail to use this great Nervine

Tonic, almost constantly, for the space of two or three years. It will carry them safely over the danger. This great strengthener and curative is of inestimable value to the aged and infirm, because its great

energizing properties will give them a new hold on life. It will add ten or fifteen years to the lives of many of those who will use a half dozen

able to compare with the Nervine Tonic, which is very pleasant and harmless in all its effects upon the youngest child or the oldest and most

delicate individual. Nine-tenths of all the ailments to which the human family is heir are dependent on nervous exhaustion and impaired diges-tion. When there is an insufficient supply of nerve food in the blood, a

general state of debility of the brain, spinal marrow, and nerves is the result. Starved nerves, like starved muscles, become strong when the right kind of food is supplied; and a thousand weaknesses and ailments disappear as the nerves recover. As the nervous system must supply all

the power by which the vital forces of the body are carried on, it is the

first to suffer for want of perfect nutrition. Ordinary food does not con-

tain a sufficient quantity of the kind of nutriment necessary to repair the wear our present mode of living and labor imposes upon the nerves.

For this reason it becomes necessary that a nerve food be supplied. This South American Nervine has been found by analysis to contain the

essential elements out of which nerve tissue is formed. This accounts for its universal adaptability to the cure of all forms of nervous de-

To the Great South American Medicine Co.

DEAR GENTS:—I desire to say to you that I have suffered for many years with a very serious disease of the stomach and nerves. I tried every medicine I could hear of, but nothing done me any appreciable good until I was advised to try your Great South American Nervine Tonic and Stomach and Liver Cure, and since using several bottles of it I must say that I am surprised at its wonderful powers to cure the stomach and general nervous system. If everyone knew the value of this remedy as I do you would not be able to supply the demand.

CRAWFORDSVILLE, IND., June 22, 1887.

My daughter, eleven years old, was severely a dicted with St. Vitus' Dance or Chorea. We gave her three and one-half bottles of South American Nervine and she is completely restored. I believe it will cure every case of St. Vitus' Dance. I have kept it in my family for two years, and am sure it is the greatest remedy in the world for Indigentian and Dyspepsia, and for all forms of Nervous Disorders and Failing Health, from whatever cause.
