

Men's Fine Garments To Measure and Ready-to-Wear.

WINTER Overcoats have been moving out merrily lately. None but good coats here. Our stock has been so carefully selected and priced so favorably that it wins the approval of judicious buyers.

Long Box Overcoats and Chesterfields, or medium long overcoats, meet with equal favor. We have coats of reliable cloths at \$10 and \$12—well tailored, too. Our best coats, at \$15 to \$22, are good coats—no extravagant terms need be used to describe them, a glance at them reveals their quality.

Trade is brisk in our Custom Department. We make an excellent Cheviot Overcoat for \$20—imported cloth. Our assortment of fine Trousers is very complete.

TO COST MILLIONS.

(Montreal Witness.) As stated in Saturday's Witness the C. P. R. is desirous of extending their business into St. John, N. B. The company has its own boats now, and can offer, during the winter, both freight and passenger business of a character which is constantly increasing in extent and value.

Mr. McNicoll has been down to St. John to see about enlarged accommodation for the boats of the company. The situation is rather nebulous. There is a doubt as to where the authority lies in regard to the extension of the harbor. There was a charter granted in regard to the control of the harbor away back in the time of the Georges—somehow round there.

Well, the city has spent some money on the harbor, but is not willing to spend any more. Mr. McNicoll says he does not care who spends it, what he wants is accommodation for the C. P. R. boats. You cannot place three boats in the space which is reserved for one. He had no thought of turning any other line away, or hurting any interest. He went down to see if a plan—an adequate plan—for harbor extension could not be agreed upon.

There had been a small pier made some time ago, but it was not used for the carrying out of such a plan would only be a temporary expedient. The port must be regarded as a national port, and if improvements were to be carried out they should be on a scale which would meet the needs of the present, but the future. Such a plan would involve the expenditure of from one to two million dollars. They had a piece of property along the harbor front, but they did not see the use of spending money upon it, for what would be a mere temporary convenience. A large plan was a necessity (alike for the convenience of the business and the benefit of the city).

Mr. McNicoll says that as far as St. John is concerned it is not a question of an extended service, but a question of better facilities. Some years ago a plan of harbor improvements was presented for St. John harbor, but the business has grown so rapidly that even if this plan were followed out in its entirety it would not be sufficiently comprehensive to meet the future requirements of the city. To provide adequate facilities for carrying on the business would, Mr. McNicoll avers, require the investment of millions of dollars, and this could hardly be provided by the city unless assistance was given from outside.

As to the prospects for business there this year, he said that while the C. P. R. did not receive the accommodation for St. John harbor, which would be adjusted satisfactorily by the C. P. R. securing the use of an extra berth.

Asked if there was any truth in the report that if the agreement was given the necessary berthage facilities it would withdraw from St. John Mr. McNicoll said he did not think the matter had reached that stage yet, and he felt certain that the amicable arrangement would be reached.

THREE MEN KILLED. NIAGARA FALLS, Ont., Oct. 27.—Three men were killed in the wheel pit of the Canadian Niagara Power Company this morning. They were being lowered into the pit in a bucket when it caught on a cross beam and was overturned, the men falling fifty feet. Two other men who were in the bucket were seriously injured, and another escaped with a broken leg. The men except one were Hungarians.

BLEW OPEN A SAFE. HALIFAX, Oct. 27.—Chief of Police O'Sullivan received a telegram from Collingwood Corner, near Oxford Junction, stating that a safe had been blown open during the night in Chas. Bragg's premises and that \$1,700 had been stolen. Dynamite was used in blowing open the door. The telegram asked for the assistance of Detective Power to investigate the crime.

THE LORD DUNDONALD. The hull of a tug boat which will be a credit to the harbor, to St. John's towing fleet, was brought here yesterday from Spencer's Island by the str. Westport. The builders were the Spencer's Island Shipbuilding Co., and the craft had been on their hands for some time. John Moore is the owner of the steamer, which is of the following dimensions: 88-1/2 foot keel; 19-1/2 foot beam and 9-1/2 foot hold. The boat is built of spruce with stem and stern post of oak. It is a substantially constructed vessel and will be fitted up here at once. The St. John Iron Works will supply the machinery. The steamer is at the I. C. R. pier.

SCHOONER FOUNDERED. Sch. Swanhilda, bound from New York for Yarmouth with a cargo of coal, foundered off Boston, and her captain and crew reached Boston yesterday. The vessel, which was owned at Farnboro, registered 120 tons, and was built at Annapolis in 1893 by S. Groves. The vessel had some insurance on her.

CAPTAIN'S BODY FOUND. HALIFAX, Oct. 27.—The body of Captain Charles Bond of the schooner Landing Star was found floating in the second deck, where the vessel was lying this afternoon. He had been missing since last night and is supposed to have slipped between the vessel and the wharf in going aboard, or stepped off the wharf in the darkness. He was one of the best known coasting captains in the trading service here.

ANNUAL THANKOFFERING

Hold Last Evening by Woman's Foreign Missionary Society of St. Stephen's Church.

Last evening the St. Stephen's church auxiliary of the Woman's Foreign Missionary Society held their annual thank-offering to the Royal Trust Co. of Montreal.

A BIG LEASE SETTLED. The Maritime Sulphite Fibre Company, which has been in the courts for the last few days, was finally disposed of in this city yesterday.

The Maritime Sulphite Fibre Company suspended operations about two years ago. The affairs of the company were then taken over by the Royal Trust Co. to liquidate its existing liabilities.

The settlement arrived at yesterday resulted in the purchase of the property for the consideration of \$15,000, have handed over all their interests in the sulphite company's property, and have consented to the foreclosure and sale of the mortgaged premises.

The liquidators were Hon. L. J. Tweedie and A. H. Hanington, and the counsel were Attorney General Pugh and Messrs. K. C. and A. A. Davidson, K. C., for the lumbermen, and H. H. McLean, K. C., and A. O. Earle, K. C., for the bank of Montreal and the Royal Trust Co.

THE NEPTUNE CLUB PRESENTATION. The Neptune Rowing Club smother last night was one of the most enjoyable affairs that St. John has had for years. The spacious rooms were crowded with members and their friends.

The programme included several lectures by the York Theatre Co. of Toronto; songs by R. S. Ritchie, F. H. Hapt, Dewitt Cairns, Mr. Fox, E. Bowman and Mr. Kingswell; whistling solo by W. Nixon; tumbling by Howard and Malcolm; boxing, McLeod and Curran; recitation by E. E. Walker; flute solo by R. Crawford; fencing by Green and Breen; clarinet solo by W. G. Stratton; banjo duet by Davidson and Holder.

The banquet was presented by Robt. Thomson to Messrs. Murray and O'Donoghue. A speech was made by F. B. Hanington.

CHAMBERLAIN'S SPEECH. Addressed a Monster Meeting in Liverpool Last Night.

LIVERPOOL, Oct. 27.—Joseph Chamberlain addressed another monster meeting in the hippodrome here tonight. The meeting was held under the auspices of the Workingmen's Conservative Association and the five thousand persons present gave the former orator a tremendous reception.

Mr. Chamberlain devoted the first portion of his speech to the "dumping" of the manufacturing industry of the United States and Germany into this country, which he said must result in depression after the present prosperity.

He pledged himself that his proposals would not add anything to the cost of living, on the contrary, they would decrease the cost of living to the poorest families in the country.

The speaker devoted the greater part of his speech to a powerful argument in favor of the working classes of the United Kingdom. He pointed out the fact, hitherto overlooked by his opponents, that when the movement for free trade was carried out, the working classes were not represented or consulted, but it was a movement of the manufacturers and the middleclass people.

Emphasizing the statement that it was impossible to reconcile free trade with the interests of the working classes, Chamberlain pointed out the inconsistency of supporting a policy which admitted the product of the cheapest kind of labor without taxation.

He said he believed that the working classes of the United Kingdom were more advanced than many of their leaders and if this were true he was confident his proposals would win.

ALCOHOL AND DRUG ADDICTIONS.

This treatment has been publicly endorsed before the Congress of Bishops, and at Father Matthews' anniversary; also by Clergymen from their pulpits, influential public journals, and by officials of the Temperance Society of all denominations in nearly every quarter of the globe.

Among the distinguished persons who have investigated the Hutton-Dixon treatment, and who have allowed their names to be used as patrons, are THE DOWAGER DUCHESS OF NEWCASTLE, THE COUNTESS OF DENHIG, THE LADY EDWARD TALBOT, THE LADY DUCHESS OF DUCHORA, THE MARQUIS OF BUTE and OTHER PROMINENT PEOPLE.

The Hutton-Dixon Antidote quickly and permanently removes all desire or need for alcoholic drink or drugs of any kind, even in the most advanced cases. It is warranted to be agreeable, safe from narcotics and absolutely harmless. Can be carried in the pocket and taken privately, thus dispensing with the publicity, loss of time and expense of an Institute treatment.

On the contrary, the system, debilitated from the excessive use of intoxicants or drugs, is thoroughly built up and the patient restored to the same condition, mentally and physically as before, as health was acquired. No hypodermic injections used. The treatment has been thoroughly tested and the results vouched for by the following well known clergymen:

- Rev. J. A. Porcher, Rev. M. Martineau, Rev. M. Gaughan, Rev. Father Gallwey, Rev. Father Strubbe, Rev. Father McCallen, Rev. M. Taylor, Rev. Joseph Sager, Rev. A. M. Coventry, Rev. Father Quilvan, Rev. Father Quirk, Rev. B. L. Fitzgerald, Rev. Father Kiely, Rev. Jaa H. Hixon.

HISTORICAL SOCIETY.

Interesting Notes On Old Hazen and Chipman Houses.

At the October meeting of the New Brunswick Historical Society, held last evening in the society's rooms, Marsh Building, Rev. Dr. Raymond read some interesting notes on the oldest house in St. John, the Hazen house, at the corner of Simonds and Brooks streets, which was built in 1773.

Dr. Raymond also showed to the meeting the leather covered volume of manuscript owned by Philip Kehoe, an early resident of St. John. Philip Kehoe was a native of Ireland, who sailed in an immigrant ship in the early part of the last century. In 1820 he taught school on Germain street.

It was decided last night to issue, during the coming winter, another number of the society's historical work. The society also discussed the historical works recently given to the public by Dr. G. U. Hay and Prof. Bourgeois. The former is a History of New Brunswick and the latter a school history of Canada published in French. Both works were highly commended. A committee was appointed to examine Prof. Bourgeois's history to see whether it might not be prescribed for public schools.

RECENT DEATHS.

John Steele, sr. The death occurred quite suddenly yesterday of John Steele, sr., who has been a faithful employe of the city water works department for the last thirty years. He has only been ill a short time. He leaves three sons and three daughters. The sons are James, junior of the Y. M. C. A.; John on the I. C. R., and Robert, at home. The daughters are Mrs. Albert H. Nugent, of 17 Brunswick street, and Misses Jane and Margaret Steele.

After an illness extending over a period of six months, Miss Margaret Wood died last night at her home, 41 Germain street, where she and her sister, Miss Agnes Wood, resided. Deceased was the daughter of the late Robert Wood, of Lanarkshire, Scotland, and was born in this city, where she resided all her life. She was a member of St. Stephen's church congregation. Miss Wood is survived by two sisters—Mrs. C. J. Fowler, and Miss Agnes Wood, of St. John—and one brother, James, of Boston. There will be service at the house at eight o'clock Thursday night, and the body will be taken to Jubilee on Friday for burial.

Mrs. Henry Vaughan died yesterday morning, aged eighty-three years. For some time past she lived with her daughter-in-law, Mrs. LeB. Vaughan, and notwithstanding her advanced age, was fairly active. Three sons—Lorenzo H., Robert and Aubrey, and one daughter, Mrs. Samuel J. Golding, survive her. L. H. Vaughan is the only resident of St. John, the others having homes in the United States. Her husband died nineteen years ago.

SPORTING NEWS.

MEMPHIS, Tenn., Oct. 27.—Dan Patch (1.56 1-4) within forty-five minutes elapsed time this afternoon smashed two world's records in succession on the track of the Memphis Trotting Association.

First he went against the world's half mile pacing record of 57 1/2 seconds, held by Prince Alert, and clipped a second and a half from the record, negotiating the distance in 56 seconds flat. Next he hung out a new world's record for mile pacing to wagon, making the mile in 1.57 1-4, which he made at the recent meeting of the Lexington, Ky., track, which stood as the world's record until this afternoon.

Major Delmar, E. E. Smather's two-minute trotter, was sent to lower his own record, and he accomplished the feat. He cut a quarter of a second from the two-minute mark, making the mile in 1.59 3-4.

In making the half mile pace against time, Driver Myron McHenry started from the wire and breezed Dan Patch around to within a short distance of the half mile pole, where two runners to sulkies were picked up, the forward sulky carrying the customary canvas dist. strip. The three horses swept by the pole and McHenry gave the signal that the trial was a go. Starter Newton dropped the flag, and the timers made ready to catch the new record for a half mile. The quarter was made in 28 1-2 seconds, and the pacer went under the wire with the hands of the timers watching sharp on the mark of 56 seconds.

Dan Patch came on the track to set a new wagon mark for the mile. The start was made with two runners as pacers. The quarter was made in 29 1-2, the half in 58 1-2, and the three quarters in 1.38. Under the wire the champion pacer dashed in 1.57 1-4, showing little effect from having smashed two records in a single afternoon. He was driven by McHenry in the wagon trial.

The afternoon's programme was the longest of the meeting. Besides two events for amateur drivers, five races were disposed of, and the favorites were generally successful in fast time. The exception was the free-for-all pace, in which Dandel opened a prohibitive favorite. After winning the first heat the mare was beaten easily by Dan R.

THE RING. Young Corbett won in Eleventh Round Over Hughie Murphy.

BOSTON, Oct. 27.—It took ten rounds and about a minute and a half of the eleventh round for Young Corbett of Denver, Colo., the feather-weight champion, to get the decision over Hughie Murphy of New York, before 1,500 people at the Criterion Club tonight.

Corbett forced the boxing from start to finish. Murphy put up a clever defense and landed many clever blows, but none of them were effective. At the same time he evaded many of Corbett's most dangerous blows.

Through the first five or six rounds there was practically no difference in the skill displayed by the competitors. In the tenth round Murphy had the better of it. He showed good judgment in evading Corbett's punches and he also avoided in-lighting, which is Corbett's favorite method.

In the eleventh round Corbett started in to get the decision and he cut a minute and a

he landed a solid vicious blow on Murphy, following it up with a left on the chin and sending the New Yorker to the floor, where he took the count. Murphy arose groggy and Corbett landed another left on the chin. Murphy fell across the ropes and lay there nine seconds. He got up before being counted out, but Corbett, noticing his condition, refused to continue the fighting, and the decision was given to the champion. Murphy then fell his length on the floor and Corbett picked him up and carried him to his corner.

WRESTLING. PITTSBURGH, Pa., Oct. 27.—The wrestling match for the championship of the world, which took place at the old City Hall, this city, tonight, between Tom Jenkins, of Cleveland, Ohio, and Dan McLeod, of Canada, was won by Jenkins, he taking first and third falls.

A CHRISTIAN SCIENTIST'S REPLY. St. John, N. B., Oct. 27. To the Editor of the Star:

Sir,—In your paper of October 26th, "Faith Cure," and refer to a child in Quebec dying of diphtheria, whose parents were followers of Dowie. Because of their failure to heal the child, you also tried to turn on Christian Science as a mode of healing.

To inform you that Christian Science does not try to bring itself up by running some one else down, and as far as he knows it has nothing at all to do with what you term Dowitism. In mode of healing, I have found that Christian Science to heal in my own case where Materia Medica had completely failed. Before knowing of Christian Science, I had a child taken sick, and called in a physician, in fact two of them, who said the child should have nothing to eat, and expecting they understood their business, I followed exactly as they outlined. The child died, and I did not turn and ridicule them, as I realized they did the best they knew. Might I ask if the above had been the advice of a Christian Scientist, and the child had died, what would have been your comments?

You also say, that whatever excludes human remedies in the treatment of disease, a strong action should be taken to prevent such "cutts." Will you kindly tell us what the Master meant when he said, "In vain do you worship me, teaching for doctrines the commandments of men." Christian Science has no fight with Materia Medica or Christian denominations, but simply asks to be
