ABOUT CHILDREN.

(Montreal Star.)
Of course, children have not even yet, in spite of all our modern progress, come to wear old heads on young shoulders, and it is our fervent wish that they never will. During this holiday season, this peculiarity of theirs will become deeply impressed upon most of us sedate older folk. They are enjoying their fullest liberty; and are therefore more truly that most enviable section of the human family—children—than ever. We will be able to beat them all hollow at keeping quiet during the hot weather, at keeping the neighborhood quiet at silent hour and at showing a wise restraint in the presence of pleasure. For we have old heads on old shoulders. But let us be glad that there are still young hearts in young bodies on top of the earth, and dimmies from our minds the fiction that childish

mischief is something deserving the epithet of "worst."

Constant success shows us but one side of the world, for it surrounds us with flatterers, who will tell us only our merits, and silence our enemies from whom alone we might learn our defects.

JUDGE WEDDERBURN AND THE INDEPENDENT FORESTERS

Hampton, July 3rd, 1907.
To the Editor of The Star:
In a report of an address delivered by my friend, the Supreme Vice Chief Ranger, at the meeting of the High Court I. O. F., of New Brunswick, it is said the distinguished speaker, among other observations "made a few remarks upon the judicial necessity of removing Judge Wedderburn from the Supreme Executive." I am quite sure that the speaker was misinterpreted, quite unintentionally, and I fear, also, the language used, as quoted above, and which perhaps is not absolutely incorrect, is calculated to convey a very ambiguous and to me unhappy interpretation. Parliament passed an Act providing that judges must not act as directors of corporations, insurance companies, etc., but must confine themselves "exclusively" to the performance of their respective judicial functions. Upon my return to New Brunswick from the session of the Supreme Court at Atlantic City—at which I had been again re-elected P. S. C. Ranger by acclamation, after many years of continuous service on "the bench"—and at the suggestion of many Foresters—I wrote to the Honorable Minister of Justice, for his opinion on the question, which many thought a doubtful one, whether the Act of Parliament included judges on the directorate of such "corporations" as the I. O. F. The minister, in a very kind reply gave as his opinion that the Act imperatively applied to all judges without exception or distinction. Immediately on receipt of that reply, I wrote my resignation to the late Hon. Dr. Oronhyatekha, S. C. R., and sent it to him, informing him, also, of the opinion of the Minister of Justice. After some delay, I received a fraternal and complimentary letter from the Hon. E. G. Stevenson, then Supreme Counselor of the Order, now the successor of the late lamented Chief, apologizing for the delay, and informing me that the Supreme Executive was not intended to apply to such a case as mine, and also sought some approved means of securing a continuance of my services on the Supreme Executive. And Mr. Stevenson added that they had fallen in their mission, and that, therefore, the Supreme Executive had very reluctantly accepted my resignation. None of these facts have I ever made public, and now have to apologize to you for asking the Star to make an explanation of so purely a personal matter.

Let me add at the same time that I do not wish to convey the slightest complaint of your reporter. But, the phrase "judicial necessity of removing Judge Wedderburn," is scarcely one he would have used had he known the facts.

Faithfully Yours,
WM. WEDDERBURN, P. S. C. R.

AMERICAN ARTISTS STUDY OLD MASTERS

Those in Madrid Pay Special Attention to Velasquez's Works in Prado Museum.

MADRID, July 6.—Senior Villgas, curator of the Prado Museum, remarked yesterday upon the great increase which has taken place during the last five years in the number of American art students who visit Madrid. "They pay some attention to Murillo," he said, "and copy Greco's portraits and Goya's work to some extent, but they are more attracted to Velasquez. All his works except his Christ have been copied over and over again by Americans. In this they follow the example of a celebrated countryman of theirs, C. Dana Gibson, who painted with such seal and vigor that he actually exhausted the stock of the dealer who supplied him with canvas."

Senior Villgas added that among American painters now in Madrid are H. Moore, who has married a Spanish woman; Mr. Williams, S. Stuart, William Palmer, Alfred Palmer, Murray Key, Mr. Darling, Miss Grace Edwards, Miss Stewart and Miss Nellie Harvey.

Japanese painters have also made their appearance in Madrid, for the first time. One of them has sold a Velasquez copy to an American for 6,000 pesetas. Another Japanese, M. Shintaro Tanashita, is engaged on a replica of Velasquez's historical painting, "The Surrender of Breda."

The Prado Museum has been recently enriched by a fine Velasquez, a "Portrait of a Judge," bequeathed by Duquesa Vistahermosa. During her lifetime she received several offers for the picture from American dealers, but refused them all, and to keep it in her own country after her death, she left directions in her will that it should go to the Prado Museum. The Spanish government has now placed restrictions on the sale of works of art from churches and other public buildings. America remains a favorite market for Spanish art.

Senior Villgas himself intends to send some pictures for exhibition at Pittsburg next year.

THE TOMB OF WALTER SCOTT.

In Dryburgh Abbey, standing among the ruins of the ancient church, with the afternoon sun shining upon it, we saw the tomb of Walter Scott in St. Mary's aisle. A noble block of Aberdeen granite marks the last resting place of Sir Walter and Lady Scott. The simple inscription records the dates of birth and death of the husband and wife. Here also are the mortal remains of the novelist and biographer, John Gibson Lockhart, of whom Scott wrote affectionately, "Lockhart is the man to whom I can most willingly confide the happiness of the daughter who chose him and whom he has chosen."

As we turned from the grave of Walter Scott and wandered across the new roofless and grass grown refectory we recalled his last connected words to Lockhart: "My dear, be a good man—be virtuous—be religious—be a good man; nothing else will give you any comfort when you come to us here."

THE ALTERNATIVE.

Suburban Host (to unexpected supper guest)—Now, then, Miss Holborn, will you have a little of this rabbit pie or—(or looking around and discovering there is no other dish)—or not?—London Teller.

M. R. A.'s carpet sale on Monday, as advertised in today's Star, was a most remarkable event of its kind the big house has yet proposed, and is sure to be a veritable carnival of bargains. The Brussels carpets—which comprise the whole lot—are to be sold at three bargain prices, even the finest fringed tapestries being included in the stock. Excellent patterns and rich colorings. No approval or reserve.

POOR BARONET DIES IN HOUSE OF SERVANT

Another Instance of Apopoplexy of Fable That Truth is Stranger Than Fiction.
LONDON, July 6.—A very favorite character in fiction is the old family servant who, when adversity overtakes his master, offers him a home where he can spend the evening of his life. An instance in which truth was at least as strange as fiction was brought to light by the death of Sir John Wilton Honeywood, formerly a wealthy Kentish landowner, whose death in the cottage of a former servant at Folkestone was reported yesterday.

The entailed family estates at Evington, near Ashford, cover about 5,700 acres. Sir John Honeywood succeeded to these as the eighth baronet when twenty-one years of age; but heavy charges on the estate and the great agricultural depression of recent years caused the revenue to be reduced almost to the vanishing point.

The last few years were particularly unfortunate ones for the baronet. Broken in health by his struggle with adversity and possessing only the most slender income, he was forced to leave his large estate and to take up his quarters with an old family servant, in a cottage in a small back street. This servant is Mrs. Bevis, who, with her husband, resides in Garden Road.

She stated, in an interview yesterday, that she was in the service of the Honeywood family for some years, and as a child lived in the neighborhood of Evington. She spoke with the greatest sympathy for Sir John Honeywood and his family.

"He came here thirteen months ago, with the intention of stopping for a month," she said. "We made him as comfortable as we could, but it was sad to see the old master brought so low. He had been in bad health for some time, and continued to live with us. He was only fifty-five years old."

Sir John Honeywood was a county alderman for Kent until recently, and was a county magistrate. He leaves three sons and two daughters.

CHILD SLAVES PLENTY WITHIN OLD ENGLAND

Tots of Six and Some of Four Employed in Lace Industry of Nottingham.

LONDON, July 6.—"It is said that children in Nottingham start lace work at the age of six, and I myself have seen 6-year-old children at work," said Miss Squire, an inspector of factories, in giving evidence yesterday before the House of Commons committee which is investigating the question of home work.

"It is quite a common thing at the dinner hour to see children busy at home with lace work," she continued. "The investigation went on in the past few years, and they still make boxes for tinctures and other small things."

Dealing with the very low prices paid for lace work, Miss Squire said one case which came under her notice was that of a widow with two children. The investigation went on in the past few years, and they still make boxes for tinctures and other small things."

ENGLISH MAGICIAN

(Continued from Page One.)
"Mr. X." said that it was a mysterious apple and that none like it had ever been seen in the neighborhood. The investigation went on in the past few years, and they still make boxes for tinctures and other small things."

THE CHANGE IN SURGEONS.

"The surgeon of the past was a huge, coarse, red-faced brute, a very terror," said a surgeon of the present. "And to wonder, what type of man but the brute type could cut off legs or saw through the skull while the patient, perfectly conscious, howled and wept? In the past surgery was barred to gentle and refined men. Whatever their interest in anatomy, in medicine, they shunned surgery. They could not endure to operate upon a conscious subject. The advent of anaesthetics caused the advent of new men into surgery. Men of delicacy, of sympathy, of imagination—a higher type—took the profession up. That is why surgery is continually advancing now, whereas in the past it stood dead still."—Cincinnati Enquirer.

WILL SEEK SOUTH POLE BY SPECIAL MOTOR CAR

Manchurian Ponies Will be Held in Reserve Should Locomotion be Impossible.

LONDON, July 6.—There is at present in the River Thames a vessel whose past is as adventurous as its future promises to be. She is the Nimrod, a Newfoundland sealer, which during the last forty years has captured nearly 40,000 seals.

She will sail this month under command of Captain England for the Arctic seas on a geographical expedition. Captain England said yesterday that the vessel, which is to be renamed the Endurance, was selected for this work on account of its stability. While an iron-plated ship would be crushed by the walls of ice which hemmed her in, the oak walls of the Nimrod will withstand the pressure.

"The party is to go ashore on King Edward VII. Land. The ship will return for them twelve months later. The motor car will be used for haulage, and should that break down, we shall have in reserve a number of Manchurian ponies, which are specially suited for traveling over the icefields."

MANY PERSONS KILLED IN WISCONSIN STORMS

BAKERSFIELD, Cal., July 4.—The flood in the railroad wheat land in the lower part of Kern County caused by the breaking of the Buena Vista Lake levee continued to spread today. Coincident with breaking of the levee yesterday were two large fires in the grain fields of Miller and Lux, nearly twenty miles from the lake.

Two sections of grain were destroyed aggregating between 15,000 and 20,000 sacks. Suspicion has been aroused from the fact that the fires and the levee break occurred simultaneously.

CEDAR RAPIDS, Iowa, July 4.—Two men were killed and five injured today by an explosion of giant powder. The seven men with others were riding to a picnic up the river and had four pounds of the explosive in the boat to be used in celebrating the fourth. The survivors say that one of those killed drew a cigarette on the top of the can containing the powder, the explosion following instantly.

ST. PAUL, Minn., July 4.—It is now believed at least 17 lives were lost in the storms which swept Western Wisconsin last night. Numerous other persons are believed to have been killed. The storm was a severe one, and the damage to farm property and to dwelling houses was reported. According to reports received here, Oakdale, on the Chicago, Milwaukee and St. Paul R. R., near Camp Douglas, was wiped out. Four persons are said to have been killed here.

CLINTON, Mass., July 4.—Gautimo Carline and Philip Gregorini, Italians, each about 25 years of age, were killed late today by a passenger train on the Boston and Maine R. R. at Shepley Crossing, about one and a half miles west of Clinton station. The men were driving in a carriage, and apparently drove into the train, the carriage striking the carriage and killing them instantly.
