Presented to Beverley R. Armstrong by the St. John Law Society.

St. John Barristers Ronor Their Speeches by Chief Justice Tuck, Hon. J. D. Hazen, Attorney General Pugsley and Hen. C. N.

anything but forensic and pol contests, upon a purpose in which all were unanimous, that of doing honor to a fellow citizen and the youngest member of the St. John bar. He spoke followed. He told of Mr. Armstrong's part; of his resigning his commission to go as a private; of his fine record brave man and a soldier. The city was proud of such a son, and as a partial expression of the gratification and pride of his associates in the Law society on their behalf he tendered him with a handsomely engrossed address, congratulating him upon his safe return and referring with pride to his heroic and consistent conduct. Accompanying the address was the loving cup, a magnificent piece of silver, standing ten inches in height. On one side was the inscription:

"Presented to Beverly Robinson Armstrong, B. A. B. C. L. who re-

The only remarks he made resembling the words quoted were observations concerning his position on prohibition and purity in elections. It had been charged that his leaders were not prohibitionists, and that some of them did not adopt his views of election methods. Dr. McLeod in that connection had said that he must in these things follow his own convictions, of right and he guided by his own judgment. He hoped that it was not altogether a new doctrine that a member of parliament must follow his own canscience on moral questions.

Asked as to the attitude of the Gleaner newspaper, Dr. McLeod said that in his last campaign the Gleaner save him able and effective support. It was capable of giving great assistance to the conservative party in the coming contest. He thought that the coming contest is the fight in the same yigorous way that it had done last year,

The other before him. His father had done reactions the commerced with the militia, and head always longed for a chance at active service, which never came until after his retirement. His loy-alist ancestors had done far more than the must in these things for their love of England, and retirement. His loy-alist ancestors had done far more for the cause of institute of the dight had been proud to fight for the cause of institute of the institute of the cause of institute loss that had come to him. (Ap-plause). His greatest regret was that if another such occasion should arise

them that if ever our country should be invaded, in which event all men would be wanted, he would be glad to do something that would merk the honor he had received. (Cheers).

Chief Justice Tuck said that in the presentation just made, the members of the St. John bar had done them selves great honor. The recipient had given up associations near and dear to him to offer his life to his country in far away South Africa, together with many others from all over the world. He had fought bravely and endured hardships and suffering with cheerfulness. To atone for this he had also received much kindness and as a crowning honor, had seen and been personally greeted by our late beloved. Queen. In addition to these honors the chief justice expressed in closing it the hope and confident belief that Mr. Armstrong would receive even greater rewards for his future service at the bar, where his perseverance, industry and integrity were bound to win him success.

Attorney General Pugsley, as the of-

importance of the occasion not only in its present significance, but on ac-count of its promise for the future. He spoke of the deep wave of mental emotion that swept over Britain's col-onies last year, in a movement spon-faneous and unparalleled in history. Statesmen until lately had not realized the significance and value of colonies, but now they recognized that the perpetuity of the British Em-pire depended upon them. The call pire depended upon them. The call might come again, he said, and it would never fall upon dull ears, for Canada with the other colonies would Canada with the other colonies would give the last of its blood and treasure for the preservation of the Empire. This meeting showed to all people that St. John recognized what had been done, and pointed to increased readiness for like contingencies in the

were read from Messrs. Alward and Tilley, and the meeting closed with cheers for the King and Ber ognition of his erly R. Armstrong.

ADMIRALTY COURT.

The Case of the Str. Riplingham and

he Admiralty Court at Chatham on Saturday, the case of the owners of the schooner Winona against the owners of the steamer Riplingham was opened up. The schooner people claim damages by collision for the value of the vessel with her outfit and cargo of fish, which they estimate to have een worth \$12,700, and also the personal effects of the crew, the value of which is placed at \$986. H. H. Mc-Lean, K. C., appeared for the schoon-er's owners, and R. A. Lawler, K. C., represented the steamship people. The deck officers outside of the captain, the engineers, the look-out man, the witnessed the collision, were examin-ed. Their evidence supported in its entirety the entry on the ship's log, which was substantially as follows and which was signed by those in charge. It showed that at noon on the 30th ult, the weather was hazy, with occasional patches of fog. The ship's been ill for over a week.

Whistle was sounded at intervals as required. At 12.40 the steamer ran E. I., are the guests of Mrs. (Dr.) Seslowing the engines and altering the course one quarter of a point to the southward to give Cape Race a further distance, a fore and aft schooner, to be sailing at a high rate of speed. her helm hard up, thus changing her course. At that time only the man at the wheel and the man on look-out on the Winona were visible from the steamer. Suddenly as if awakened or startled by the noise, the captain and crew of the schooner came on deck. The Winone's course was again changed and an attempt was made to cross the bow of the steamer. The result was a collision, the steamer stock is divided into 9,000 ahares and the professor. striking the schooner arout ten feet from her stern. The captain and crew, their dories and were picked up by the steamer. They were taken to Chatham by the steamer. One man was reported lost. The schooner was bound from Cape Bryone to Virgin Rooks, and the steamer from Hull to Chatham. It is contended on the part of the schooner that it was thick and that the Winona was only salling at the rate of four or five knots. The

the rate of four or five knots. The schooner people allege that when they first saw the steamer she was only 80 yards off. The captain of the schooner charges the steamer with the disaster, alleging that the Riplingham was going at an excessive rate of speed, and that the fog whistle was not blown or other signals given, as required by the regulations. Capt. Johnston of the steamer will be examined before Judge McLeod in St. John this morning, after which Captain Nelson, and the crew of the Winona will take the stand. Capt. Johnston will probably go to Chatham this evening, as his steamer is about ready for sea.

HARD TO BREAK, But the Coffee Habit can be Put Off.

Sir-Why is it that so many of our as if he were the only or even the worst offender, among British pre-miers who have at one time or another expressed a wish to get rid of the trouble of looking after the colonies? Was Mr. Gladstone a British imperisupporters of Lord Beaconsfield or sticklers for the integrity of the em-pire? Was Lord B. ever willing and eager to buy off England's enemies in North America or South Africa at the expense of English colonists' rights in these countries?

sabit of taking their views about Eng-ish politics from the liberal and radicult with them to praise Mr. Gladtone and all his works, and to disparage Lord B. in the same fashion without very clearly knowing why. But every one knows, or should know by this time, that the cause of imperial unity never had a worse set of enemies that Mr. Gladstone and his radical and "Little Englander." followers. He showed himself willing not only to sacrifice the foreign and colonial interests of the empire but even to break up the home kingdom for the sake of maintaining himself in office. But by a curious turn of events his last attempt, a disintegration, not only ruined his own party but gave the cause of imperial unity a greater impulse than it ever received from all the efforts of its friends. The present comitant evils, is only a part of the price that Great Britain is now paying or will have to pay on account of Mr. Gladstone's foreign and colonial pol-

having a British premier's memory to throw stones at it is certainly high time that they took down Lord Bea-consfield's and put up that of Mr. Gladstone, T.
