News Summary.

Operations will commence on the new jail at Dorchester as soon as the frost will permit. The electors of Moncton have empowered the council to expend \$2,000 in asphalt and other sidewalks. Mount Allison was presented with an oil portrait of the late Dr. Pickard, by his daughter, Mrs. A. A. Stockton.

David Burt, Centreville, from 22 bushels sowing of Russia oats the past season, threshed out 630 bushels, weighing 34 lbs. to the bushel. The Quebec government is ready to guarantee \$1,000,000 for a new bridge if Quebec and the federal government will guarantee a similar sum.

Thomas Gough is suing Charles Anderson, editor of the Halifax Chronicle, for one-tenth interest in and on account of the Dewolf-Alison gold mine. The amount at stake is said to be \$30,000. Mr. Dwyer informs us, says the Picou Standard, that the Worcester has been sold and reseller run between New York and the West Indies. A new boat will be put on the Boston-Picou Island route.

C. R. Casey & Sons' tannery and larrigan factory at Amherst, was completely destroyed by fire Thursday night. The loss is about \$12,000; insurance \$7,000. Arthur Leahy's grist mill adjoining was also burned. Despatches received state that the House of Representatives' tariff committee recommend that the duty on lime be increased to six cents per cwt, equivalent to about twelve cents per bbl. The duty at present is about three cents per bbl.

Since the turnip shipments to Boston began this year, St. Andrews has exported to that place 554 car loads. Exporters are being paid as high as \$1.13 a barrel, double what the product brought last year, and a great advance on all previous prices. News comes from a party of land surveyors at Gros Vieux, Lake St. Johns that one of their number, named Louis Gagnon, was savagely attacked by a huge owl. It flew at his head, tore off his hat, pulled his hair, and scratched his face in a horrible manner.

The ratepayers of Antigonish have voted in favor of waterworks. The resolution empowers the town council to get authority from the legislature to borrow and expend a sum not exceeding \$25,000. The vote on the resolution was 93 for, 10 against. It is gratifying to note that the export of Canadian butter was more than twice as great in 1889 as in 1888—\$475,835 against \$230,385. But the amount is yet far below what it should be. The increase is due to the adoption of the creamery system, which is capable of a great development in the future.

During the past few days the Messrs. Kilkup & White have been prospecting on the Blair property on Black River N. S., and have discovered what promises to be a rich find of graphite or plumbago. The vein on which they are now operating, so far as uncovered, shows a width of from 15 to 20 feet between two walls of rock. St. John Gazette.

The work at Tidnish dock has been somewhat retarded chiefly owing to the bad weather. Blasting goes on successfully higher up in the cut, and piers have been ballasted. It is reported that the entire work will go on at full blast next month, and that a large number of men will be employed. In that event there will be a boom on the ship railway.

On Wednesday, 5th inst., a young man named Roderick F. Melasse discovered in the woods at Book Barrs, a bear with two cubs. Shortly after the mother bear was shot by Mr. James Donovan and Capt. Barnaby Melasse, of Bayfield. The cubs were captured by Messrs. Joseph and Ronald Melasse, and sold alive to parties at Souris.—Charlotte Journal.

A friend writes to the Hants Co. Journal from Lockhartville respecting an ancient silver gun now in the possession of Mr. Wm. Rogers, carpenter. On one side is the head of a Roman monarch, and on the reverse the representation of a gladiator. The coin is circular in form, slightly concave on one side. This is a good chance for coin collectors; the coin is supposed to be 1,400 years old, and if in the hands of an expert might prove to be of great value.

E. N. Douglas, of New York, representing a large wholesale shipping house, was in the city inquiring into the facilities offered for the weighing and handling of sugar, should it be sent here for transshipment to Montreal. When he returns to New York he will report to his employers, and refiners will then be communicated with; and if everything is satisfactory cargoes will be sent this way. The inquiries Mr. Douglas is making are with reference to next winter's shipments.—St. John Sun.

The rich man can afford to pay for life insurance; the poor man can't afford to do without it. To the former it is a luxury; to the latter a necessity. This goes without saying to a family a rich legacy; the other can't be happy unless he knows his family's bread is not to be buried in the coffin of his provider. The rich man can get the most insurance for the same money, and the poor man the same insurance for the least money, in the Dominion Safety Fund Life Association.—St. John, N. B.
