GUARD AGAINST
CHOLERA INFANTUM

Cholera infantum is one of the
fast ailments of childhood and
during the hot summer months thou-
sands of little lives are lost by its rav-
age. The best way to guard against
it is to give the baby an occasional
dose of Baby's Own Tablets. The
diets never fail to regulate the bow-
els and sweeten the stomach, thus
preventing cholera, infantum, diar-
rhea, dysentery and all other stomach
and bowel complaints. They are sold
by medicine dealers or by mail at 25
cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.
