

# DAILY GAINS BY BRITISH IN DARDANELLES

## GEN. SIR IAN HAMILTON DESCRIBES OPERATIONS ON GALLIPOLI PENINSULA

London, July 22.—The latest report received from Gen Sir Ian Hamilton, commander-in-chief of the British expeditionary forces at the Dardanelles, recounting the operations up to yesterday, was given out tonight by the official press bureau. It follows:

"Gen Sir Ian Hamilton reports that in the northern section of operations a raiding party rushed a trench on the front of our line during the night of July 18. All the enemy fed except one who was killed.

"On July 19, an anti-aircraft gun was located and hit with the second round from one of our guns. The first round blew it into the air. The second round blew it into the air.

"In the southern area the Turks on July 18 made an attack on some newly captured trenches in the French section but were repulsed with ease.

"In the British section there has been steady progress daily consolidating and in some cases extending the trenches won on the 12th and 13th.

"Yesterday, the 21st, a small redoubt was captured with insignificant loss and a successful attack was made on part of a communication trench held by the enemy. A Turkish machine gun opposite our left was knocked out by the French artillery.

"In both sections the enemy's artillery has been active."

**A Via Berlin Report.**

At the Gallipoli Front, July 11, via Berlin, July 22. (By wireless to Tuckerton, N. J.)—The operations of the last week in the Avburn region have been confined on the part of the Allies to several offensive movements of no great strength against the Turkish trenches. Attempts by the Allies' artillery to support their infantry resulted on July 7, in the shelling of one of their own trenches.

The Turkish artillery continues to be active. New batteries have been

brought up on the Asiatic shore, and in the rear of Seddul Bahr and since July 6, have caused heavy losses in men and material to the Allies, whose camps and bases are now constantly under fire. Seven ammunition depots of the Allies were exploded during the period from July 6 to July 10. This was due principally to the fire of the Turkish batteries on the Asiatic shore. Against these batteries the artillery of the Allies is powerless, and an attack on them from sea is prevented by German submarines.

According to wounded German soldiers who have been interviewed, it is now a favorite device of the Turks to abandon part of a trench to the rushing Allies and then cut them down with deadly fire.

The situation today is the same as it was prior to June 21, when the Allies launched an offensive movement which collapsed.

**RUSSIANS ON THE DEFENSIVE ON LINE THOUSAND MILES LONG.**

FROM the Baltic to Bessarabia the Russian armies are now fighting defensive actions on a line more than a thousand miles long. The Germans have crossed the Windau River at Autz and are moving in the direction of Riga. In Northern Poland they are forcing the retirement of the Russians on the Narew River, and in Southern Poland are moving toward the Lublin-Chelm Railway, both the movements evidently part of a new drive against Warsaw. The Russians are still holding their own on the upper Bug, Zlota Lip and Danester rivers.

**RUSSIANS DRIVEN INTO IVANGOROD FORTRESS, BERLIN REPORT SAYS**

War Office claims Czar's Army retreating along entire front from Lake Rawiewo to the Neimen.

Berlin, via London, July 22.—The War Office announced today that the Austro-German forces which are driving at Warsaw from the south had compelled the Russians to retreat into the fortress of Ivangorod, about fifty-six miles southeast of the Polish capital. The fortress is now closely invested.

The text of the statement follows:

"To the west of the Argonne our troops are further progressing. Vigorous artillery combats took place between the Meuse and the Moselle. South of Leigny French attacks collapsed before the obstacles in front of our advanced positions.

"In the Vosges yesterday the enemy attacked six times southwest of Reich-Ackerkopf, but was repulsed with sanguinary losses by the Bavarian troops. Counter-attacking, we recaptured a portion of our trench which was in the hands of the enemy, taking 137 Alpine troops prisoners, and among them three officers. In the evening we repulsed an enemy attack near Sondernach.

"An enemy biplane fell down under our fire in the forest of Parroy.

"In an aerial fight over the Muenster Valley three German airmen gained a victory over three adversaries, of whom two were forced to descend into the valley of the Thann.

"Eastern theatre of war:

"North of Szevl (in Courland) our troops, advancing concentrically and victoriously, captured 4,150 prisoners, five machine guns and a great quantity of baggage. A movement on the Lower Dvubysa led the advancing troops into the Gdyniecki-Gudslinsky district and resulted in the storming of several enemy positions. The Russians are retreating on the entire front from Lake Rawiewo to the Neimen.

"South of the road from Mariampol to Kovno we enlarged the break, and gained further ground to the eastward, capturing four officers, 1,120 men and four machine guns.

"On the Narew the enemy discontinued useless counter-attacks.

"South of the Vistula the Russians were pressed back toward Warsaw on the line running through Blonie, Nadarzyn and Goretalwarja.

"Yesterday by bold attacks the troops of General Woytych's army frus-

## STRIKE OF LONGSHORE MEN AT NEW YORK

Five hundred more Dock Workers quit yesterday — Most of their places have been filled.

New York, July 22.—The ranks of the striking longshoremen on the piers of the Clyde and Mallory lines were increased today by about 500 men, making about 1,400 men idle on the North River waterfront. The strike began yesterday as a protest against the wages the men were receiving and their leaders said today that efforts would be made to call out longshoremen employed by other lines. In that event there might be a serious delay in the shipment from this port of foodstuffs and war supplies to Europe.

Officials of the two lines at present involved said today that they had succeeded in filling the places of about 1,000 of the strikers and that business at their piers was going practically as usual.

Up to late this afternoon there had been no disorder.

## DANISH STEAMERS ARE RELEASED

London, July 22. (6 p. m.)—The Danish steamers Virginia and Curra, which have been under detention at Kirkwall, have been released.

The Virginia sailed from Baltimore on June 30 for Copenhagen and was taken into Kirkwall on July 18.

The Curra sailed from Baltimore on July 1 for Denmark, and on July 20 was reported under detention at Kirkwall.

## TYPHUS EPIDEMIC IN MONTENEGRO AND SERBIA UNDER CONTROL

Washington, July 22.—The American vice-consul at Belgrade reported today that the typhus epidemic in Serbia and Montenegro is under control. Red Cross officials here notified the Rockefeller Foundation authorities in New York, and the latter indicated their readiness to provide any necessary funds, in cooperation with the Red Cross, for completing the work of putting that part of the European zone under the jurisdiction of the American sanitary commission into a clean condition.

The tea and Bungalow sale this afternoon should be well patronized, as the idea of sending comforts to our soldiers is good indeed and all should try to send comforts to the men at the front.

London, July 22. (7 p. m.)—The Swedish bark Capella and the Norwegian bark Nordlyset, both timber laden and bound for England, have been set free in the North Sea by German submarines. The crew of the Capella was landed at Hull and that of the Nordlyset at FredericksHAVEN.

## SOME SIDELIGHTS ON TRENCH WARFARE

Colin McKay Writing from France Gives an Officer's Novel Description of Fighting in the Trenches and Some Phases of Warfare Peculiar to the Present Struggle.

(Special Staff Correspondence of The Standard)

France, July 2.—The officer who was a week or so from the trenches wrenched his wounded leg into a comfortable position and unfolded the London paper. "What's the bally lies today?" he said. He glanced through the paper, and added: "Extraordinary thing, you know. Nothing in the bally papers but the war. What do you think of that chap Smith or Smith, fellow who had a habit of killing his brides in a bally?"

"I would think you would be more interested in the war news?"

"A damned lot of war news we get in the papers. Bless my soul, the soul, the newspaper Johnnies are cracker-jacks. When we happen to give the Germans fits, the papers make a grand how'd do, but when the beggars come and give us the merry dickens, it's quite sub-versa, you know. Extraordinary lot of war news in the papers. Quite extraordinary things happen in this war, but the papers beat them all hollow. According to the papers we must have whipped the Germans out of their boots, but, extraordinary thing you know, the beggars are still doing business at pretty much the same old stand. Very stubborn lot of beggars, the Germans—bad manners, but they are licked by our blessed papers. Curious beggars too. When we turn them out of a trench they usually come back to see how we are getting on, and quite often you know they move us along. Ungrateful beggars? Some of their trenches are in such a mess they ought to be glad to be driven out of them. Amazing sort of people, these Germans. Absolutely reckless, the way they use ammunition. Waste more ammunition in a night to keep themselves awake than we use in a week. When they want to take a trench they shell it till you'd need a search-warrant to find the trenches. Then they come forward and take the ruins. Quite extraordinary. Our artillery has its fine points, but you couldn't call them reckless in the use of shells. When we want to take an enemy trench our artillery fires one or three rounds and calls it a bombardment. Then we go forward and the Germans turn their machine guns on us, and a lot of women buy crepe. When we get close the handful of Germans in the first line of trenches, you'll insultingly remarks at us and race for the communication trenches. We get in to the trench and begin looking for souvenirs. Next thing there is a noise which is a cross between a steam whistle and an express train and a Jack Johnson smashes through the parapet, explodes with a stunning report, and buries half a company. Then comes another and another, mixed with Black Marins and Weary Willies till we are glad to return from whence we came. This is a funny war beyond a doubt. Goes on all sorts of hours; no trade union hours at all.

## SOUNDS LIKE REAL MADE-IN-GERMANY YARN

Berlin report describes Germany as a Land of Plenty with Materials for a Long War.

Berlin, July 22 (By wireless to Sayville)—The Overseas News Agency today gave out the following:

"Official investigations have established the fact that Germany is amply provided with all war materials necessary to continue the war for a long time to come. Good crops are furnished and sufficient quantities of breadstuffs, vegetables and potatoes, even permitting a considerable increase in cattle and swine, the number of which had been artificially decreased to guard against a scarcity of potatoes and fodder. The production of meat is thus increased. There are plenty of vegetable substances to produce all necessary oils and fats.

"Of greater importance is the certainty that Germany is producing enough lead to satisfy all demands. Besides the large reserve stocks, there are immense quantities of lead pipes which are easily replaced with iron. The stores of copper are large enough to manufacture all shells and shrapnel for the probable duration of the war. Even if the production of Germany's enemies that the war will be of long duration should prove true, the copper now in private use could be repaid easily with other materials. Statistics show that the amount of copper used in roofs, household utensils, pots, plates and boilers is sufficient to continue the war for many years.

According to a newspaper despatch from Russian headquarters which was passed by the censor, the Russian armies have lost fifteen thousand machine guns, the great part captured by the Germans and Austrians and other ruins by the technical incapacity of the men. The Russian government has prohibited the mailing of official casualty lists of officers to foreign countries."

**WET MAJORITY IN LETHBRIDGE WAS 425**

Lethbridge, Alb., July 22.—The wet majority here is 425. The total vote was 1,424 wet and 999 dry.

The miners vote, the bulk of which was conceded wet, was a factor in the result. Two thousand votes less were cast yesterday than in the provincial election of 1913.

**FIRE ON STEAMER IS UNDER CONTROL**

Durban, Africa, July 22, via London, (8.25 p. m.)—The crew of the Peninsula and Oriental line steamer Benalla, which recently was reported afire in the Indian Ocean, has succeeded in getting the flames under control, according to a message received here today.

The Benalla, which is bound from London to Australia with 800 emigrants aboard, is being escorted to Durban by the steamer Otaki.

**HAD DIARRHOEA.**

Was So Bad Passed Blood.

Little Boy Was Cured By Using DR. FOWLER'S Extract of Wild Strawberry.

Diarrhoea arises from many causes such as, change of water, change of climate, change of diet, catching cold, the eating of unripe fruits, etc.

Never neglect what, at first sight, appears to be a slight attack of diarrhoea, for if you do some serious bowel trouble may ensue.

Mrs. Wm. Bartlett, Stanley, N.B., writes: "Last summer our little boy, age 1 1/2 years, took diarrhoea. He got so bad as to pass blood. We procured a bottle of Dr. Fowler's Extract of Wild Strawberry, and after I had given him the third dose he was all right. I would not be without it, as I consider it a household remedy. It is a Godsend to my family."

There is nothing that can take the place of "Dr. Fowler's."

There is nothing "Just as Good."

"Dr. Fowler's" has been on the market for the past 70 years.

"Dr. Fowler's" is manufactured only by The T. Milburn Co., Limited, Toronto, Ont. Price, 35c.

## MESSAGE OF GRAND DUKE TO HIS MEN

Petrograd, via London, July 22.—In an order of the day, issued in connection with the services of prayer which are being held throughout Russia today, Grand Duke Nicholas, the commander-in-chief calls upon the troops to accomplish fresh deeds to achieve a victorious end of the great battle now raging.

"By desire of the Emperor and the Holy Synod, the whole of Russia is today praying for the victory of the Russian arms. I firmly believe the joint prayers of the Emperor and his people will be fulfilled."

"The whole of Russia has united in its efforts to supply the army with all that is necessary to wage a victorious war against the enemy. You men of the heroic army and navy, who have been confided to me, do not forget that the Emperor and all Russia are aiding you by their prayers and their labors. Imbued with this thought and strong in our courage, let us show them our gratitude by fresh deeds. God and his powerful help are with us and we carry in ourselves that faith which is the earnest of victory."

## TYPHUS EPIDEMIC IN MONTENEGRO AND SERBIA UNDER CONTROL

Washington, July 22.—The American vice-consul at Belgrade reported today that the typhus epidemic in Serbia and Montenegro is under control. Red Cross officials here notified the Rockefeller Foundation authorities in New York, and the latter indicated their readiness to provide any necessary funds, in cooperation with the Red Cross, for completing the work of putting that part of the European zone under the jurisdiction of the American sanitary commission into a clean condition.
