## Trade Review and Insurance Chronicle of Canada

VOLUME 58  
No. 16

TORONTO, APRIL 20, 1917

ESTABLISHED  
1867

### National Problems

The establishment of a National Problems Club with branches throughout Canada is proposed. While the war has created many problems for the present, more difficult ones may follow when peace comes. The new organization will be formed for investigation of these, **Page 7**

### Bond Market

Register of municipal financing, Page 34. Postponement of \$200,000 Canadian Pacific Railway dollar bond issue, Page 6. Germans seize Canada Cement bonds, Page 26. No need for mobilization of Canadian securities here, is the opinion of bond brokers, **Page 26**

### The Week's Topics

The arrangement of tariffs after the war, Page 10. The study of national problems, Page 9. Uniform farm loan rates suggested in the United States, Page 10. Canada and the United States war loan to Allies, **Page 9**

### Corporation Finance

Dividend declarations of five companies, Pages 16 and 18. Winnipeg Electric writes letter to civic authorities regarding "jitneys." Annual returns of Robert Simpson Company and Crow's Nest Pass Coal Company, **Page 18**

### Fire Insurance

Fire insurance business transacted in Canada last year. Preliminary returns, Page 23. Fire insurance written in Ontario last year, Page 30. *The Monetary Times'* weekly register of fire losses and insurance, Page 14. First monthly report of the Ontario fire marshal, **Page 32**

### Trade and Commerce

Trade statement for February, Page 42. Industrial conditions in Canada, Page 7. Lead pencils now made in Canada, Page 26. National Abrasive Company will establish plant at Hamilton, Page 22. Canadian customs receipts, Page 26. Industrial census to be taken, **Page 28**

### Control Raw Materials

Control of its raw materials by the British Empire is vital, says final report of the Dominions Royal Commission. Control of minerals and petroleum. Better ports and improved shipping and cable service are suggested, **Page 5**

### Timber Resources

Canada's timber resources are the third largest in the world. The present supply of commercial timber in this country is at least 500 billion feet, board measure. Valuable work done by the Forest Products Laboratories, **Page 22**
