regional economic expansion. Although he agrees regional economic expansion is the best cure for the situation, Dr. Tyndall said the policy has been poorly planned and not followed up.

He said he does not fault the government for high inflation, "It is impossible for any nation to insulate themselves when inflation is worldwide".

He cited the OPEC embargo and the simultaneous shortage and high price of wheat as the primary causes of inflation.

Dean Tyndall said he expects Canada's economy to improve as the international trade continues to increase.

## The Trader

*The Trader*, a feature film based on the sell out of an Argentine Labour union leader, will be shown in TB 87 on Fri., Sept. 16 at 8 pm. The film has been shown only once before in Western Canada.

The sequence of events roughly parallels the career of Augusto Vandor head of the once powerful metal workers union during the late 60's.

His film counterpart, Roberto Barrera, starts out as a very effective shop floor organizer who is soon elected to union leadership. But as his power increases, so does his stake in maintaining his position, and he begins to make major compromises.
