Dear Mr. Meighen.

My speculation has been
both in Ottawa this week but circumstances
have prevented this besides there was
ni but with a cold or perhaps "Flu"
making its unwise for me to travel.

I take it that the elevator will be
built - the British ships being there
an Engineer connected therewith is looking
for a furnished house for himself
and five Dogs !!!

The S/s proposals are not well received
here, but you will have a large
delegation in Ottawa soon urging that
the suggestion in the Speech of concerning
Atlantic, Pacific ports for Canadian business in
put in force - New Brunswick is anxious
