

CHAPTER IV.

	PAGE
Nomenclature and correlation.....	65
General statement.....	65
Objections to an inter-sub-provincial nomenclature.....	66
Our knowledge of the succession of formations in the sub-provinces incomplete.....	66
The principles of Pre-Cambrian correlation inapplicable or inadequate.....	67
Timiskaming region.....	71
Correlation of the Grenville and Timiskaming belts.....	73

CHAPTER V.

General geology.....	76
General statement.....	76
Table of formations.....	76
Basal complex.....	77
Grenville series.....	78
Crystalline limestone.....	78
Distribution.....	78
Lithological character.....	78
Structural relations.....	78
Pyroxenite.....	79
Distribution.....	79
Lithological character.....	79
Cyanite and garnet gneiss.....	79
General character and distribution.....	79
Lithological character.....	79
Age and correlation.....	80
Abitibi group.....	81
General statement.....	81
Distribution.....	81
Extrusive rocks (Abitibi volcanics).....	81
General character.....	81
Basalt, diabase, and gabbro.....	82
Distribution.....	82
Lithological character.....	82
Amphibolite, hornblende schist, and chlorite rocks.....	83
General character and distribution.....	83
Lithological character.....	84
Andesite and diorite.....	84
Distribution.....	84
Lithological character.....	84
Chlorite-sericite schist.....	85
Quartz porphyry and rhyolite.....	85
Distribution.....	85
Lithological character.....	86
Sericite schist.....	86
Origin.....	86
Relations to other formations.....	87
Intrusive rocks.....	87
General statement.....	87
Peridotite and serpentine.....	87
