

## NOTICE.

*In writing to advertisers, please mention the Farmer's Advocate.*

We call attention to the advertisement of the London Mutual Fire Insurance Company, of Canada in this issue. The able and influential directorate, the extensive agricultural patronage, which is annually growing, and the promptness with which claims are settled, make it one of the most desirable companies for a farmer to insure in. Read their advertisement carefully, and write the Secretary, D. C. Macdonald, 476 Richmond St., London, for terms, etc.

## OF INTEREST TO BREEDERS.

In a few weeks horses and cattle will be put on grass, and the greatest care is necessary to prevent the sudden change of diet having very serious effects. Dick's Blood Purifier tones up the whole system, and the animal goes on thriving instead of being set back by a change.

## SHORT JOURNEYS ON A LONG ROAD

Is the characteristic title of a profusely illustrated book containing over one hundred pages of charmingly written descriptions of summer resorts in the country north and west of Chicago. The reading matter is new, the illustrations are new, and the information therein will be new to almost every one. A copy of "Short Journeys on a Long Road" will be sent free to anyone who will enclose ten cents (to pay postage) to Geo. H. HEAFORD, General Passenger Agent Chicago, Milwaukee and St. Paul Railway, Chicago, Ill.

## A MODEL PAINT FACTORY.

We recently had the pleasure of visiting the manufacturing establishment on Frontenac St., of Messrs. A. Ramsay & Son, Paint, Color, and Varnish manufacturers, of Montreal, and were surprised at its extent and completeness, equipped, as it is, with all the most perfect modern appliances for the production of their various manufactures. This firm has been in existence for over fifty years, and the high reputation which their goods have achieved throughout the Dominion is a strong testimony to the care which they manifest in producing first-class articles in the various lines which they put upon the market. One of their leading productions is the "Unicorn" brand of prepared or ready-mixed paints, of which they are how turning out and selling over a ton a day, in great variety of shades or tints, and which are so easy of application that almost any member of the household can beautify their homes at little expense. This is a great desideratum in country districts, and farmers need have no excuse for unsightly premises, when a coat or two of Ramsay's Unicorn mixed paint can be so easily applied, and so beautify and preserve their property. They also manufacture a cheaper grade of mixed paints suitable for barns and fences, which are conveniently put up in five-gallon buckets. Another of their productions is printing and lithographic inks, which they are now manufacturing and supplying to most of the leading establishments in the Dominion. The quality of their inks is up to the high standard of all their goods, and it is a satisfaction to be enabled to procure supplies in this line in the home market instead of importing them. We may remark that the "Advocate" is printed with ink supplied by A. Ramsay & Son. The office and warehouse of the firm is at 37 to 41 Recluse St., the paint color, and printing ink factory, at 141 to 151 Frontenac St., and the varnish factory at 106 William street, Montreal.

## STOCK GOSSIP.

## AYRSHIRES AT ST. ANNE DE BELLEVUE.

The herd of Robert Reford's Ayrshires, on Tredonrock Stock Farm, is headed by Glencairn 3rd, No. 2802, imported. His weight at the present time (four years old) is 1,600 lbs. He has a smooth, clean head, shoulder and neck, a perfect wedge-shaped shoulder, level back and loins; well-sprung, deep ribs; broad, deep flank; great, wide chest, showing strong constitution. He has all essential dairy points, and is covered with a heavy coat of long, silky hair. Color, white with red marking on head and neck.

The cows, Derby of Bogside, imported by the late Tom Brown, and Annie Bercheskie, imported, are both very fine specimens of the breed. Annie Bercheskie is due to calve in September. We hope to see her out this season at the show. She dropped her last calf April last, and at the present is milking over three gallons per day. She carries a well-shaped bag, high up behind and well under the belly. Fly, a very large, fine cow, newly calved, has a beautiful skin, legs and udder. Tillie and White Lass are strong, young cows, showing good points, are due to calve in April. White Floss, the 1st prize two-year-old in Chicago, has gone the right way and will be seen in the showing this fall; due to calve the early part of September.

Jessie Osborne, imp., is one of the sweet ones of the herd and a right good one. Maggie is also a typical Ayrshire and a wonderfully heavy milker, with milk veins extending well forward. Space will not admit of full mention of the balance. We noticed three very fine September bull calves in one box-stall, and also a large number of very fine young heifer calves, all from Glencairn 3rd.

## BOOK TABLE.

The Western New York Horticultural Society have recently issued their fortieth annual report. Ever since this Society's inception it has made a steady advance in number of members and beneficial influence. The report just issued will deservedly engage the serious attention of experienced fruit growers and gardeners. It also contains much that is helpful to beginners in horticultural operations. The efficient Secretary, John Hall, Trust Buildings, Rochester, N. Y., is the man to address for a copy of the report.

Volume XVII. of the Clydesdale Stud Book of Great Britain has been recently received from the Secretary, Arch. McNeillage, Glasgow. It contains pedigrees of mares having produce previous to 30th September, 1894; and stallions foaled before 1st January, 1894, with four appendices, and a list of the present members of the Clydesdale Horse Society. The mares registered number from 12,033 to 12,379; stallions, Nos. 9,871 to 10,021. This volume, like all previous ones, is well bound and conveniently compiled.
