Summer Spray

NIAGARA BRAND LIME-SULPHUR ARSENATE OF LEAD.

NIAGARA is the only absolutely reliable Lime-Sulphur Spray, because it is made right. It is a permanent solution of highest insecticidal and fungicidal power. Analysis is stamped on every package, and it is guaranteed by a strong CANADIAN COMPANY.

ARSENATE OF LEAD is the one poison that kills all kinds of chewing insects. It is endorsed by all leading Entomologists and Horticulturists. It will not burn fruit or foliage. It sticks to the leaves. It mixes easily and stays mixed.

FARMERS AND FRUIT-GROWERS, with these sprays you can grow Apples and Pears free of scab and worm; Potatoes free of blight and bugs; Cherries and Plums free of rot and curculio.

COMBINE these TWO SPRAYS in ONE. This saves time and money. SPRAYING is investment, not expense.

Order now. Be ready when blossoms fall.

Save Time, Money and Labor With These DAIN Implements

The DAIN ALL-STEEL SIDE DELIVERY RAKE

Won't whip or toss hay. Won't break, roll, or bend. Won't leave. The three keys to covering both mowings and handling hay. Stakes of wider rather than narrow leaves with plenty of air space, so it is cured evenly. Works around field like the Dain Mower. Leaves 2 swaths of hay inside down in loose condition, without plowing and its hay all in front of the next mowing. Rakes only because the rake is on an angle from main frame when raking with the swath. The rake to be staid straight and point toward ground. Pray straight out of hay, which prevents a wrapping around reel. The Dain All-Steel Side Delivery Rake goes over stumps, stones, and other obstructions, operates easily, built to last of best material. Does more than any other rake on earth.

The EASY-RUNNING DAIN HAY LOADER

is built of best material, guaranteed to last as long. Construction simplest in the world, and has the lightest draft on earth. Loads from swath or windrow, works without friction, because principal parts are hammock mounted and swing like a pendulum without binding or strain. Rake's operation is exactly the right speed to require least power when working. Rake's hay from swath regardless of width of mower's swath at cut will. Rakes are made with spring trip. Pass over all obstructions, spring back and fly into place. Operates close up to fence or ditch. Goes through ordinary farm gate. Elevator adjusts itself readily to field or heavy hay. Only loader made that is *built to last*. *See the Dain Co. Catalogue*, a complete book of prices, which gives full details of all Dain implements and hay-making machinery. Write for free catalogue. Facts long 4-2

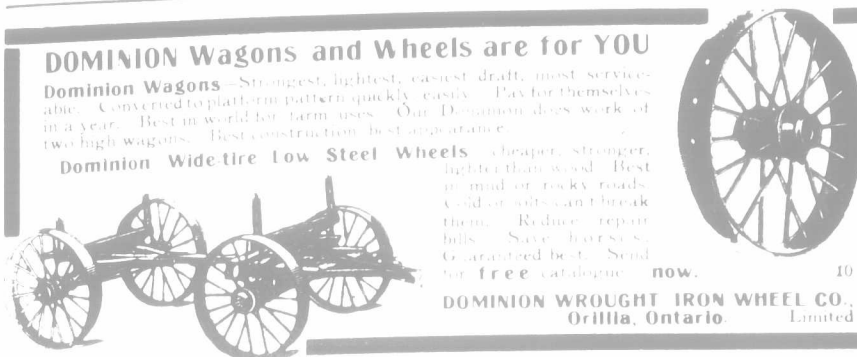

Don't spend a dollar for any hay-making implement until you get the Dain free catalog. Get this information. It will pay you. Write now.
