GOSSIP.

The Toronto Industrial Exhibition dates have been fixed for August 25th to September 9th.

Messrs. H. Cargill & Son, Cargill, Ont., write: "We have been kept so busy answering inquiries for Shorthorns since advising you of the sale of an imported bull and two imported heifers to the Messrs. Smith, of Maple Lodge, that we have not had an opportunity of writing you an account of subsequent sales. Since then we have made the following sales: Elythessome Girl Ind, a good strong, even one; Ury Girl Ind, a beautiful heifer; Belle of Plainville and a grade heifer; to James Hawkins, Shelburne, Ont. Baron's Heir Imported, a massive, thick-fleshed, good imported bull to William Dickinson, of Mildmay, Idlewild and bull calf to J. M. Fisher, of Mildmay, Ont. This is a fine big Strathallan cow who was bred at Toronto Industrial in her palmy days. Christopher (Imp.), to Jas. Douglas, of Caledonia, Ont., a very even calf of fine character, good handler, and should make an impressive sire. Red Rose (Imp.) and heifer calf, to Cookson Bros. of Downey, Iowa, a big massive heifer, thick-fleshed and a good doer, with a beautiful calf by illustrious, a pure Cruickshank bull. Rosa Lee (Imp. in dam), with her bull calf, to McGregor Bros., Mimosa, Ont., a good cow, very compact, even, and close to the ground. Myrtle 5th and heifer calf, to Mr. Hoffarth, of Carlsruhe, Ont., a very sweet heifer and half-sister to Capt. Robson's show heifer, Myrtle.

Our other cattle are doing splendidly, especially the five imported bulls which we still have. Orange Duke (Imp.), who was winner in his class and sweepstakes bull at Banbury show in Scotland this year, continues to look like a show bull. Diamond Jubilee (Imp.), although never shown, is a show bull sure, big, long, even, and thick fleshed all over. The three imported bull calves, Red Ribbon, Governor General, and Baron's Pride, are growing immensely, and please us better every day. They are strong, healthy fellows, with grand backs, deep, level in the lines, good bone, and will develop into good sires or we are much mistaken in our estimate. The imported females are doing very nicely, are healthy and growing.
