al form. 4th.  
lly distinguished  
e. 5th. There is  
ubstantial form and  
e soul which is  
ple of sensitive  
life. 6th. The  
e only substantial  
s in itself, is im-

material, incorruptible and immortal.  
7th. The human soul is not a sensi-  
tive soul produced by the human  
generation, and transformed into an  
intellective soul, by the God-idea, or  
the ideal being, presenting or mani-  
festing itself to it; but it is created,  
that is to say, produced, from nothing.  
8th. The natural intellective cogni-  
tion of the soul is performed, not  
by the immediate intuition of the  
God-idea, but in virtue of the acting  
intellect, which is a power inherent  
to the soul itself, the soul's imma-  
terial light, similar to, but not identi-  
cal with the infinite light of uncre-  
ated truth. 9th. All the intelligible  
species are generated by the abstrac-  
tion from the phantasms performed  
by the intellect. 10th. Both reason  
and faith come from the same God,  
therefore, there neither is nor can be  
any contradiction between a principle  
of reason and a principle of faith.  
11th. There is no unity, or oneness  
of being, neither in the ideal nor in  
the real order, and therefore there  
is not only the created and the un-  
created being, but each thing has its  
own individual being, which dis-  
tinguishes it from the being of other  
things. Hence, as God drew forth  
from nothing the being of things, so  
He could reduce it back to nothing.

Such are some of the fundamental  
principles of St. Thomas, and all  
books of philosophy which teach  
principles contrary to these are  
termed by our Holy Father currents  
of strange and unwholesome waters,  
which the bishops and teachers of  
philosophy must keep away from the  
minds of youth.

And let it not be said that learned  
and pious men interpret these funda-  
mental principles in a different sense  
from that adopted by ancient and  
modern scholastics. We know that  
not only the enemies of religion, but  
even some Catholics, who have the  
reputation of being pious and learned,  
have powerfully contributed towards  
causing these lamentable divisions  
amongst us in the field of philosophy.  
And we know also that the teachings  
of infidels and unbelievers would do  
us very little harm if some of ourselves  
were not found to give them counte-  
nance and either openly or secretly  
sustain and defend, in toto, or even  
only partially, their worse than dan-  
gerous systems.

This could not have escaped the  
acute mind of Leo XIII.; and he  
refers to it most explicitly in an  
apostolic letter of the 11th Sept.,  
1879, to the Bishop of Vigevano,  
in answer to an address from the  
priests of that diocese formally de-  
claring their adherence to the  
"Philosophic Rule" laid down in  
the encyclical "Aeterni Patris."  
"Nothing," says he, "has given him  
so much pleasure as the alacrity with  
which his recent encyclical letters,  
in reference to the restoration of  
Christian philosophy according to  
the doctrines of St. Thomas, have  
been received. For as there were  
among Catholics men noted for their  
extensive learning and philosophical  
labors, he confidently hoped that,  
adhering to these his letters, they  
would bravely defend the golden  
wisdom of the angelic doctor against  
subsequent systems introduced even  
by good and pious men, which have  
so long divided the Catholic schools,  
to the great detriment of both truth  
and science. It would be of little  
use for our present purpose to tell you  
these pious philosophers are. The re-  
proof administered to them by Pope  
Leo is sufficient to indicate that they  
are not among the faithful followers of  
St. Thomas, and that their systems  
are opposed to the system constant-  
ly and unanimously attributed by  
scholastics to the angelic doctor.

The residence of Mr. Carr, a farmer of  
West Oxford, was entered by burglars on  
Monday night, who chloroformed that  
gentleman, after which they carried off a  
quantity of jewellery, \$425 in money and  
valuable papers.

A freight conductor named Her, of St.  
Thomas, was killed at the Air Line station  
on the 13th while attempting to get on  
the rear car while the train was backing.  
His foot caught between the rails and the  
train passed over his body, completely  
mangling and crushing him and causing  
instant death. He leaves a wife and one  
child.

A man named Simon Snider, seventy  
years of age, was arrested at Napanee on  
Saturday afternoon for drunkenness, but  
was released on promising he would leave  
the town. During the night he found  
lodging in a barn a mile out of town, and  
in wandering about he received a kick  
from a horse, from the effects of which he  
died in the Police Station in that town on  
Tuesday afternoon.

## EDITORIAL NOTES.

The Irish Executive has resolved  
to start the Shannon improvement  
works, with the object of giving  
work to the unemployed. They will  
spend £50,000 during the coming  
winter.

The *Advertiser* says it pays more  
postage than all the other news-  
paper in London combined. This  
was true about a year ago. The  
RECORD must be taken into account  
now. Always say, "except the  
RECORD," gentlemen.

LARGE numbers of clergymen and  
laymen of the Church of England  
are joining the Catholic church.  
Some few are trying to find rest for  
their weary souls in Methodism. The  
Lord Bishop of Huron, Right Rev.  
Dr. Hellmuth, is announced to de-  
liver a lecture. Subject:—"What is  
Man?"

The Bishop of Detroit has issued a  
circular to the clergy and laity of  
his Diocese, calling for a collection  
in all the churches on the last Sun-  
day of November, to aid the people  
of Ireland in the prevailing distress.  
We have no doubt the people of this  
Diocese will respond liberally to the  
call of their good Bishop.

A DESPATCH from Dublin says at a  
meeting of the Irish National Con-  
vention Committee yesterday, they  
resolved to reconstruct the Irish  
House of Commons on O'Connell's  
plan, viz., to consist of 300 members  
elected by manhood suffrage, and to  
meet in 1882 at the latest.

ST. FRANCIS DE SALES is patron of  
the Catholic press. We wonder  
what the good saint would think of  
a man who would take a Catholic  
paper from the post office for six  
months, without paying for it, and  
then tell the postmaster to write the  
word "refused" on a copy and send  
it back to the publisher. There are  
such men, but, thank God, they are  
very few.

A telegram from Liverpool dated  
the 14th, says that the Government  
has received information from New  
York, through the British Consul,  
that American Fenians are offering  
money and arms to the Irish tenant  
farmers to enable them to resist  
evictions. The correspondent adds:  
The Irish Executive fully credit the  
statement, but does not believe any-  
thing will result therefrom.

LORD PENZANCE, in the Court of  
Archbishops, on Saturday, ordered the en-  
forcement of the writ of prohibition  
against Rev. Alexander Mackenzie  
for Ritualistic practices. Macken-  
zie will be suspended from Eccle-  
siastical functions for three years.  
Lord Penzance said he would be  
willing to hear any application for a  
relaxation of the sentence, on pro-  
mise to obey the law. We hope Mr.  
Mackenzie will now make a visit  
to Rome, and embrace Catholicity in  
all its fullness and beauty.

STATISTICS of crime in Italy show  
a fearful state of affairs. The report  
Minister shows that during the past  
year more than 2,000 murders were  
committed, an average per million of  
the population unequalled by any  
other country on the face of the  
globe. During the same time the  
number of ordinary robberies, bur-  
glaries, etc., is estimated at 40,000,  
while there were 50,000 robberies ac-  
companied with violence. In her  
long catalogue of crime Italy stands  
without a peer. And yet there are  
men who will tell us that Italy has  
been regenerated.

IT HAS been announced that the  
British government intend spending  
a considerable sum of money in pub-  
lic works in order to relieve distress  
in certain portions of Ireland, and  
meets with general approval. Repre-  
sentation has been made to the Vice-  
roy respecting the advisability of im-  
mediately undertaking extensive  
public works. It has been pointed  
out to him that the great extent of  
the wet land now unproductive  
might be reclaimed and made fertile  
and valuable, and that the general  
health of the populace would be  
greatly improved by a system of  
scientific and hygienic drainage.  
Plans have also been laid before His  
Excellency for the construction of

improved harbors, extension of  
branch railways at towns on the  
coast and along the principal rivers;  
and also a number of other works  
which were held to come within the  
provisions of the Public Health Act  
and Artisan's Dwelling Act.

REV. FATHER "MACNARD," we are  
told by a telegram from New York,  
has been installed a Bishop of the  
"Independent Catholic Church."  
"Macnamara" is really the un-  
fortunate man's name, unless, indeed,  
he has chosen to change it along  
with his religion. We have not been  
told who his followers are, or, in-  
deed, if he has any at all, and we  
are also left in darkness as to who  
performed the "Installation." Doubtless a number of people who  
have no settled religious opinions—  
and there are hosts of such in the  
United States—will embrace this  
movement for a time, until the  
novelty dies away.

Catholic Columbian:—"As another  
evidence of the rapid growth of the  
Catholic Church in America may be  
mentioned the fact that ignorance of  
her teaching is being dispelled and  
those who once looked upon her as  
an institution inimical to the State  
are beginning to understand their  
mistake. This true, however, that in  
many sections of the country there  
are individuals so filled with bitter  
enmity to the Catholic Church, that  
they are blind in their hatred and  
absolutely refuse to be enlightened.  
These are always adherents of a  
system of religion whose only creed  
is to oppose the Catholic religion and  
if they can by misrepresentation, by  
trickery or by other means excite a  
feeling against Catholics they are  
certain to do so. But the Americans  
are rapidly losing the narrow mind-  
edness imported into the country by  
the Puritans, and are coming rapidly  
to the realization of the fact that  
truth must prevail and that Catho-  
lics are a very important element in  
the country and must exercise a  
goodly influence.

WE PUBLISH elsewhere an article  
from the *Advertiser* showing the  
effects of dime novel literature on  
our London boys. This state of  
things is deplorable, and we are  
surprised that some steps are not  
taken to remedy the evil. Almost  
every day we have evidence of the  
harm done our young people by this  
class of matter, and yet nothing is  
done to prevent its sale. Druggists  
are not permitted to deal out poison  
without exercising the greatest  
amount of discretion, or upon the  
certificate of a medical man. Some  
of our bookstores dispose of heaps of  
moral poison to our boys and girls  
day after day, and no one seems to  
recognize the necessity of putting a  
stop to it. We regret that a sense  
of decency has no deterrent effect on  
these men. They are making lots  
of money, and glory in the shame of  
the thing. We hope ere long the  
heavy hand of the law will bring  
them to a sense of their duty to  
their fellow-beings. Parents should  
be more guarded than ever in this  
matter. We would recommend them  
not to allow their children to  
purchase school requisites in stores  
where this abominable, sensational  
trash is spread out before the gaze  
of the children.

THE testimonial which has been  
determined on by the Catholics of  
New South Wales to celebrate the  
elevation of Dr. Newman to the  
Cardinalate is to consist of a golden  
salver, and is to be presented by his  
Grace the Duke of Norfolk, to whom  
it is to be forwarded when com-  
pleted. The salver will bear a Latin  
inscription, which will set forth that  
the subscribers believe that all the  
gifts received from God by the  
eminent Oratorian have him in  
order that he might attain a know-  
ledge of the truth and for the sal-  
vation of his fellow-men. They also  
express their opinion that, act-  
ing according to the light of divine  
love, he has, as a "leader and  
teacher," entered so deeply in the  
hearts of his fellows that many were  
led by him into the illumination and  
peace of the City of God, they add  
that desiring that their city (Syd-  
ney) may possess a share in the  
common joy at the princely dignity  
of the Cardinalate conferred upon

him by the Sovereign Pontiff, "with  
the universal approval of men," they  
desire by the presentation to express  
their thanks to Pope Leo XIII. and  
their congratulations to Cardinal  
Newman.

## LOCAL NEWS.

DISASTROUS FIRE.—George Pritchard's  
outdoor mill, on Adelaide street, was de-  
stroyed by fire on Thursday morning.  
Loss about \$10,000.

SARINIA.—The new Catholic church will  
not be completed in time to admit of its  
being opened on the 23rd inst., as intended.  
The opening with probably take place a  
week later.—*Observer*.

FIRE.—On Sunday a fire broke out in  
the Turkish Baths, corner King and  
Waterloo street. Damage to the extent  
of \$3,000 was done. Insured for \$2,000. On  
Saturday night the premises of Mr.  
Lawrence Powers were damaged to the  
extent of \$150.

SUICIDE.—A melancholy suicide was  
committed on Friday on the 4th concession,  
London Township. It appears that John  
Kennedy, a farmer, was sitting at the  
table in his own house when he sud-  
denly jumped up out of his chair, and  
placing a pistol in his mouth, drew the  
trigger before any one could interfere.  
The bullet entered the roof of his mouth  
and passed out of the back of his head. He  
immediately fell dead.

MR. H. A. WILKINS' DISPLAY AT THE  
HAMILTON FAIR.—The Hamilton papers  
say that the display of Portrait Busts,  
Marble Statues and Modelling of this  
gentleman, formerly a resident of London,  
excelled anything of the kind ever shown  
there before. Miss Carrie Wilkins, his  
eldest daughter, came off quite successfully,  
taking first and second prizes for coloring  
and landscapes. The pictures showed a  
vast amount of skill and perseverance.

THE CATHOLIC FAMILY ANNUAL FOR  
1880.—This very useful and neatly printed  
volume from the Catholic Publication  
Society Company's house, New York, has  
come to hand. A vast amount of infor-  
mation instructive to Catholics is here  
given, embracing the lives accompanied by  
portraits, of some of the most distinguished  
churchmen of the present and past, as  
well as other matter which will be found  
entertaining and instructive. This house  
deserves the gratitude of the Catholics of  
America for the manner in which they  
present us with choice Catholic literature  
in a cheap and readable form.

A CASE OF SWINDLING.—A short time  
ago, Mr. George Gray, of this city, received  
a telegram from his brother, Mr. John  
Gray, of East Williams, requesting him  
to send the sum of twenty dollars which he  
required a short time, and which he would  
return as soon as possible. Mr. Gray for-  
warded the money at once, never suspect-  
ing anything wrong. Great was his surprise,  
however, on learning in a few days that  
his brother in East Williams had never  
sent any such telegram, and knew nothing  
whatever of the transaction. The rogue,  
whoever he was, must have been well  
acquainted with both parties. The affair  
has been placed in the hands of the police.

NARROW ESCAPE.—A lady and two  
gentlemen experienced a narrow escape  
from death at the Ontario Bank new  
building Friday afternoon. The work-  
men were engaged raising one of the  
heavy stones to the upper portion of the  
building when it struck heavily against  
the top of the newly built wall, knocking  
about fifty bricks off. Just at that  
moment a lady and two gentlemen were  
passing on the sidewalk and the heavy  
mass of brickwork fell immediately in  
front and about a foot from them. It is  
very dangerous raising heavy stones to  
so great a height, and in order to  
prevent accidents a boarding should be  
erected around the derrick.

ENTERTAINMENT BY THE ST. PATRICK'S  
BENEVOLENT SOCIETY.—The above society  
will give an entertainment in St. Peter's  
School House on next Friday evening,  
28th inst. As this is the first of a series of  
entertainments which the society propose  
to give during the coming winter it is ex-  
pected that it will be liberally patronized  
by those desirous of passing a pleasant  
evening, and we guarantee they will not  
be disappointed if we may judge by the  
programme which the committee have  
prepared. They will be assisted by a host  
of talent, and the entertainment through-  
out will be of a first-class character, and  
will be under the able management of  
Mrs. Cruickshanks. As the admission is  
only ten cents we hope to see the school  
crowded on this occasion.

DOWN THE WELL.—While an adopted  
daughter of Mr. Edward Larn, of the  
6th con. of South Dorchester, was work-  
ing in a shed adjoining the house, a day  
or two since, she broke through the cover-  
ing of a well, and fell into four or five  
feet of water thirty-five feet below. The  
fall was broken by the water, and not  
having struck against anything in the  
descent, she was able to call out lustily  
for help. Mr. Larn and a hand were  
engaged in the barn near by, and on hear-  
ing the cries ran quickly to the spot.  
The farmer took in the situation at a  
glance, and slipped down the pump logs  
to the little girl struggling in the water  
below. Ropes were subsequently procured,  
and the pair were safely lifted from the  
well, considerably exhausted and  
excited, but little the worse for their  
perilous adventure.

DARING BURGLARY.—Some time during  
Monday night the bar store of A.  
Westman & Co., on Dundas street, was  
entered by burglars and from \$500 to  
\$600 worth of hardware stolen. The  
burglars were evidently no novices in the  
hardware business, as only the superior  
lines of the different articles were taken,  
the inferior lines having been taken down  
and looked at, and then thrown on one  
side. Another cute proceeding is the  
fact that all of the articles were taken out  
of the boxes in which they were contained  
and which bore the private mark of the  
firm, the empty ones being left in a pile  
on the counter. A wax candle stuck on  
the counter afforded the burglars the nec-  
essary light by which to pursue their  
operations. The whole of the articles  
stolen, though valuable, were of small bulk,  
and easily packed in small compass for re-  
moval. No clue has been obtained to the  
thieves.

C. M. B. A.  
BRANCH NO. 5 ORGANIZED IN BRANTFORD.

Last week a new branch of the Catholic  
Mutual Benefit Association was instituted  
in Brantford by Thos. A. Bourke, Esq.,  
District Deputy. The following officers  
were installed: President, John H. Barry;  
1st Vice, Wm. Fleming; 2nd Vice,  
Andrew Mayo; Recording Secretary,  
Daniel O'Connor; Assistant Secretary,  
John L. Byrne; Financial Secretary,  
Simon Schrey; Treasurer, Michael Finney;  
Marshall, John Daley; Guard, Andrew  
O'Donovan; Trustees, John Cary, Patrick  
Donovan, Rodrick Neimey, Martin  
Shanahan and Andrew O'Donovan. The  
Branch started with eighteen charter  
members, and the promise of as many  
more, who were not prepared to come in  
then.

## NOTICES.

Those having a horse and desirous of  
a good business should notice the U. S.  
Map Winger Company's advertisement  
in another column.

THE LIFE OF CHRIST.—Parts 19 and 20  
of this magnificent work is just out. The  
reputation of the first part of the work  
is fully sustained in the present numbers.  
No Catholic family should be without  
this beautiful and edifying book. Write  
BENZER BROS., New York.

HARDWARE.—Farmers in want of any-  
thing in this line, will get whatever they  
want, cheap and good, of James Reid &  
Co., Dundas Street, next B. A. Mitchell's  
Drug Store, a few doors from Talbot street.  
This is one of the best houses in Ontario for  
anything in the hardware trade. Call and  
see.

J. J. GIBBONS.—New goods opened  
this week at J. J. Gibbons, Ladies' re-  
suits and jacket materials, in latest  
styles and shades; knitted wool goods,  
and a cheap lot of wincoys.

CANCER CURE.—That Ailsa Craig salve,  
which is said to be a certain cure for  
cancer, and all other sores, has been ex-  
perimented on in other ailments, and is  
reported to be a specific for rheumatism,  
lumbago, dyspepsia, etc. Outward ap-  
plication opposite the disease, it is re-  
ported, remedies the evil. No pain or  
breaking of skin. Send your address  
and sufficient postage stamps to Mr.  
Atkinson, Ailsa Craig P. O., Ont.

MONEY AT EIGHT PER CENT.—The  
Ontario Loan and Debenture Co., London,  
lends money at eight per cent. on im-  
proved farms. This is one of the most reliable  
institutions of the kind in the Dominion.  
Their dealings are straightforward in every  
respect. Those who want money on easy  
terms could not do better than call on the  
energetic manager, Mr. Ball, to whom  
may be attributed in a large degree the  
present popularity of the Company among  
borrowers.

TESTIMONIAL TO PROF. SUTHERLAND.—  
Dear Sir,—I have been troubled with a  
very bad impediment in the speech for  
many years. A few days ago I placed  
myself under treatment, in the London  
Stammering Institute, and I am highly  
pleased with the result. By the use of  
Prof. Sutherland's method I can now talk  
with perfect ease and without fear of  
stammering. I unhesitatingly recommend  
Prof. Sutherland's treatment to all Speech  
sufferers; for myself I must say that I  
have found him up to his promises in  
every respect. JAMES MCKAY.
