

THURSDAY, Aug. 31, 1899

ABRIDGED PROSPECTUS
OF THE

Boundary Homestake Mining Co.

Limited, Non-Personal Liability

INCORPORATED UNDER THE COMPANIES' ACT 1899, AND AMENDING ACTS OF BRITISH COLUMBIA

CAPITAL STOCK \$1,000,000.00, IN ONE MILLION SHARES OF \$1.00 EACH

OF THE ABOVE NAMED SHARES 300,000 ARE SET ASIDE AS TREASURY STOCK

DIRECTORS

DUNCAN MCINTOSH,
President Winnipeg Mining & Smelting
Co., Limited.
D. A. CAMERON,
Manager Canadian Bank of Commerce,
Greenwood, B. C.
RONALD HARRIS,
Mining Engineer, Greenwood, B. C.
GEO. E. TOWLE,
Cashier First National Bank, Park River,
N. D.
E. J. DYER,
President Exchange National Bank,
Spokane, Wash.
DAVID H. BEECHER,
President Union National Bank, Grand
Forks, N. D.

OFFICERS

DUNCAN MCINTOSH,
President and Managing Director.
J. K. RIORDAN, Vice-President.
ANSEL BATES, Secretary.
DAVID H. BEECHER, Treasurer.

BANKERS

CANADIAN BANK OF COMMERCE,
Greenwood, B. C.

CONSULTING ENGINEER

C. E. & M. E.

REGISTERED OFFICE

Winnipeg Mine, Wellington Camp, Green-
wood P. O., B. C.

TREASURY

The proceeds of the sale of the Treasury
Shares will be used for the development
of the property of the Company and will
be sold only from time to time as funds
may be required for development pur-
poses. A limited amount of these
Shares is now offered for sale, after
which the price will be advanced.

POOLED STOCK

The owners of all stock other than the
300,000 Treasury Stock have pooled their
stock for a period of one and one-half
years.

SHAREHOLDERS
PROTECTED

There is no preferred stock in this
Company. Purchasers of Treasury Stock
enjoy all the rights and privileges of the
original stockholders.
This Company was formed for the pur-
pose of acquiring, and has acquired "The
Homestake Mineral Claim," being one of
the best known properties in Summit
Camp, Yale District, British Columbia.
The title to this property is perfect, and

a "Crown Grant" of the same is about
to be procured.
The Homestake claim was discovered
and located in 1894 and has an area of
about forty acres.

Over \$1,000 has been expended in open-
ing up the property, and the results are
most gratifying. The development con-
sists of a shaft thirty-five feet deep, and
a fifty-foot tunnel, a shaft thirty-
five feet deep, and several crosscuts.
The mine is situated nine miles from
Greenwood, B. C., the principal point of
distribution of the famous Boundary
Creek Mining district, and is but
two miles from the new town of Elbe,
on the Canadian Pacific Railway. The
MAIN LINE OF THE CANADIAN PA-
CIFIC RAILWAY RUNS ACROSS THE
PROPERTY. Its shipping facilities,
therefore, cannot be surpassed.

ASSAYS OF ORE

By J. Edwards Leckie, C. V. and M. E.,
Greenwood, B. C., June 28, 1899.
An average sample of ore taken from a
small open cut, gave: Gold, 75c;
Silver, 0.8 ounce; value of silver at
85c per ounce, 6c; Copper, 2.78 per cent;
value in copper at 17c, 46.45c. Total, \$10.20.
Two general samples of the ore taken
from the thirty-foot shaft gave, respec-
tively: Gold, \$1.10; Silver, 1.4
ounces; value 80c; Copper, 3.37 per
cent; value, \$13.15. Total, \$14.95. And:
Gold, \$1.10; Silver, 1.6 ounces; value, 97c;
Copper, 5.32 per cent; Total, \$20.06.

ounces; value, 97c. Copper, 5.32 per cent;
\$17.99. Total, \$20.06.
A sample of sorted ore from the dump
gave: Gold, \$4.10; Silver, 4.9 ounces;
value, \$2.79. Copper, 11.06 per cent;
\$37.90. Total, \$44.59.

NOTES ON HOMESTAKE

By J. Edwards Leckie, B. of S. and C.
and M. E.

Greenwood, B. C., June 28, 1899.
There is a very well defined vein of
chalcopyrite with a garnetiferous gangue,
on this property.

The vein lies in a quartz-porphry and
is eight feet in width.
The dip is vertical and the strike ap-
proximately northeast and southwest.
A shaft has been sunk on the vein to a
depth of thirty feet and some fine ore
lies on the dump.

A SAMPLE TAKEN IN THE SHAFT
ACROSS FIVE FEET GAVE THE FOLLOWING RESULTS:

Gold \$2.10
Copper 15.30

Total \$17.40

The shipping facilities are excellent as
the spur of the C. P. R. now under con-
struction, runs through the claim.
The property is well timbered and there
is sufficient water for all steam and do-
mestic purposes.

Some of the best copper properties in
the district are being opened up in this
camp. The Emma, adjoining, has a large
body of ore and the Oro Denoro, adjoin-

ing the Emma, has an excellent showing
of chalcopyrite.

With development, there is a very fair
chance of the Homestake proving to be a
paying proposition, and the expenditure
of a considerable sum for this purpose
would be well warranted.

With regard to opening up the property
I would suggest that the shaft be con-
tinued to a depth of one hundred feet
and drifts driven on the vein at this
level.

J. Edwards Leckie,
B. of S. and C. of M. E.

SUMMIT CAMP

Is now recognized as standing foremost
(in the Boundary Creek country) in big
copper properties. The "B. C." mine
only two miles distant was sold recently
for \$300,000, while the Oro Denoro, having
large bodies of copper-gold ore, adjoining
the Homestake. The Emma, also the R.
Bell, are well known and high grade prop-
erties which have showings sufficient to
demonstrate their great value.

The first block of Treasury Stock (made
out in certificates of 1,000 shares each)
is now placed upon the market at 10 cents
to the public. Those who wish to get in
upon the ground floor should place their
orders promptly as only a limited number
of shares will be sold at 10 cents. Pros-
pectuses on application.

Use Clough's, or Bedford McNeill's
code.
Telegraphic and Cable Address: "Plew-
man," Rossland.

RICHARD PLEWMAN, Rossland, B. C.

GREAT FIND AT WHITE HORSE

A Copper Proposition That Should be Worth
Millions—Late News From the Yukon Via
Victoria—H. M. S. Amphion Sailed for Eng-
land.

Victoria, B. C., Aug. 26.—H. M. S. Am-
phion, Captain Frank Finnis, made by
her commander the favorite vessel of the
North Pacific squadron, so far as the
preferences of Victorians are concerned,
stood out to sea at 11 o'clock this morning
on her way home to England, after com-
pleting her three years on this station. It
is not known here yet what vessel will suc-
ceed the Amphion.

The body of J. M. Gilchrist, who dis-
to life." This time it is Judge L. T. Irwin,
ately after the death of his wife. Was
found today in the water off Macaulay
point. He had tied a bag of stones
around his neck, to make sure of drown-
ing. Gilchrist is blamed for causing his
wife's death by neglect to secure medical
assistance, and the police have been
searching for him.

News received from the Yukon today
is that another of the men reported
drowned in Five Finger rapids has "come
to life." This time it is Judge L. T. Irwin,
formerly of Snohomish, Wash.
At Dawson, on August 11, Maude Ro-
selle, a variety actress, well known in Vi-
toria, having appeared at the Trilby
and Delmonico music halls, was shot and
killed by Harry Davis, who immediately
turned the revolver upon himself and
sent a bullet through his brain. Maude
Roselle and Davis had been living together.
The woman tired of him and left him,
and her refusal to return caused the tragedy.

F. H. Hinde Bowker, manager of the
British America corporation, headquarters
at Klondike city, who arrived on the
Tees today, is well pleased over the out-
look of the late copper and gold discov-
ery, located within four miles of White
horse. The ledge, he says, has been
traced for a quarter of a mile, with con-
tinuous croppings, and it comes to the
surface at different points for 10 miles to
the westward. The assays show 15 per
cent in copper, from \$3.50 to \$20-in-gold,
and from two to ten ounces in silver per
ton. The company has taken up 25 claims
containing 160 acres each on the ledge,
and men are sinking shafts on the ledge,
while another force of men are cutting a
trail four miles long, to Whitehorse.
Three camps have been established, in-
cluding one at Whitehorse, for the pack
train and store.

Ore Exhibit For Paris.

The ore exhibit for the Paris exposition
is taking shape, and Mr. Dunn, the col-
lector, says it will be a good one. It will
be boxed up for shipment on Friday.

MR. MARTIN AND MR. COTTON.

Mr. Joseph Martin, ex-attorney-general,
has given the following statement to the
press for publication:

"The charge brought by me against Mr.
Cotton was of falsifying the records of an
executive council meeting, at which the
Deadman's Island matter was discussed.
We were nearly all afternoon considering
the question, but no conclusion was ar-
rived at, and the matter was agreed to be
laid over for further consideration.
Shortly afterwards Mr. Ludgate took
possession of the island, and Mayor Gar-
den wired Mr. Cotton, asking him what
the government intended to do. Mr. Cot-
ton replied that the government had de-
cided to have the question of title deter-
mined before they decided what to do
with the island.

"Upon seeing this statement in the
Vancouver papers, I immediately wired
to Mr. Cotton and Mr. Semlin, drawing
their attention to the fact that the gov-
ernment had decided on no such thing.
Afterwards I went to Victoria, and found
that Mr. Cotton, who kept the records of
the council meetings, had made an entry
in the minutes of what had been done on
May 4, to the same effect as he had tele-
graphed to Mayor Garden. I also found
that, during my absence, he had endeav-
ored to have this record slipped through
and approved by the council. At a full
meeting of the council held after I had
returned to Victoria, this question of
falsification of the records of the council
was brought up, and the entry made by
Mr. Cotton was scored out.

"If I am not telling the truth in regard
to this matter, Mr. Cotton can produce
the books in which those records were
made and show conclusively that my
story is correct. I am sure that every
effort has been made to induce him to
produce this book, but so far without suc-
cess. I intend to bring the matter up
next session, but no doubt by that time
the book will be lost, as Mr. Cotton has
it in his own possession.

"When Mr. Cotton found that his de-
liberate attempt to impose his own ideas
with regard to Deadman's Island upon
the council was a failure, and having to
meet the charge of telegraphing to Mayor
Garden his own ideas with regard to
the government, he attempted to meet
this charge by explaining that he and
Mr. Semlin had taken up the matter and
decided it upon behalf of the government.
He claimed that they had the right to do
this, owing to the extreme urgency of
the case. As a matter of fact, there is
no emergency in the matter. Mayor Gar-
den had no right whatever to demand
from the government a statement of their
policy.

"To show further how absolutely with-
out foundation the excuse is, at the time
that Mr. Cotton claims that he and Mr.
Semlin decided this, there is an entry in
the minutes of the council, stating that
the matter had already been decided by
the full council. If the council had de-
cided the question on the 4th of May in
the way Mr. Cotton had entered it on the
minutes, why was it necessary for him
and Mr. Semlin to take the matter up
again and decide it.

"I quite sympathize with the Colonist
in thinking that it is about time that Mr.
Cotton should make some public state-
ment with regard to this serious charge.
When he does so, I suppose his answer

will be one that the public can take some
stock in and not such a statement as he
made with regard to the late change in the
government. As to that he affirms
that Mr. Semlin's action in asking for my
resignation came as a complete surprise to
him. I have not yet met a man, whether
friendly or unfriendly to Mr. Cotton, who
would say that he believed this state-
ment."

A PUBLIC INQUIRY.

Charges Against Police to Be Heard on
Wednesday Evening.

The police investigation was formally
opened at the city hall Monday morning,
although no evidence was taken. Ald.
Clute's objection to sitting was overruled,
and he took his seat along with the mayor
and Mr. W. F. McNeill, the other members
of the board of police commissioners.
There was a private conference between
the commissioners and Messrs. J. A. Mac-
donald and A. H. MacNeill, representing
respectively the police officials and the
Trades and Labor council, which body is
calling the police to account for the in-
bringing the charges that are to be in-
quired into. Having settled the method of
procedure to be followed in the investiga-
tion, the council chamber, and the mayor
entered the inquiry with a brief statement
of the reasons for holding an investiga-
tion. Up to this stage of the proceedings
the doors had been kept closed. In ac-
cordance with the usual custom in such
cases, but this did not meet the views of
some of the Trades and Labor men, who,
calling their counsel out of the room, in-
structed him to object to the proceed-
ings being carried on in private. The
commissioners agreed to open the doors,
and the public was admitted.

The two attorneys addressing the board
each expressing the desire of his clients
for a thorough investigation of the charges.
The inquiry was adjourned to Wednes-
day evening, when evidence for the com-
plainants will be heard.

Growing Tobacco in High Altitudes.

A very striking evidence of the adapt-
ability of the soil and climate of South-
ern Yale to the cultivation of the to-
bacco plant may be noted near Camp Mc-
Cuddy's, as in this ranching
garden at the present time are growing
several fine plants, the product of seed
sown rather late in the spring and with-
out being put in a hotbed. As these plants
are really very fine specimens, little room
is left for doubt that had the seed been
properly attended to, they would have
reached maturity well within the season.
This allotted to cultivation in that the
elevation at McCuddy's is some 3,400 feet
above sea level, near 2,000 feet above the
garden spot of British Columbia for to-
bacco, the Okanagan Mission valley.—Ex.

A Promising Section.

Mr. J. E. Saucier has returned from a
visit to East Kootenay, and says that he
thinks very highly of that country. He
is especially pleased with the St. Mary's
section on a few properties for his English
and French clients. In East Kootenay
there is an immense scope of country
which has many valuable ledges and he
anticipates that the output from that
section before long will be large.

NEW WATER WORKS POLICY

THE CITY COUNCIL INTENDS TO
LOSE NO MORE TIME.

New Pipe Lines to Be Laid—Storage Res-
ervoir Enlargement—170,000-Gallon Res-
ervoir to Be Built.

A comprehensive waterworks policy,
looking to the immediate extension of the
water supply system, to afford ample
water for domestic, manufacturing and
fire purposes for some years to come, was
considered at Tuesday's meeting of the
city council, and adopted after final dis-
cussion. The matter was introduced by
Waterworks Superintendent Fellows in a
special report, in which he recommended
the immediate acceptance of his system as
outlined before the fire, water and light
committee. The work to be undertaken
may be summarized as follows:

First, the raising of the present dam on
Stoney creek at least five feet, providing
a storage reservoir with a capacity of at
least 500,000 gallons. This work will cost
\$800.
Second, the construction of a new res-
ervoir, capacity 170,000 gallons, on the
Peters grant, and the purchase of addi-
tional ground on which a series of res-
ervoirs, which may be cleaned and repaired
in succession as necessary, may be erected.
This tank will be the same size as the res-
ervoir on Virginia ground, and will be
situated at the middle of the stone pipe
line, reducing the pressure on the main.
It will cost \$2,000, exclusive of values and
fittings.

Third, the covering of the stone pipe
line with 18 inches of soil, at a cost of
\$2,000. This work will obviate all danger
of the water supply being cut off during
the winter frosts.

Fourth, the construction of a new ten-
inch pipe line from the reservoir to Col-
umbia avenue via Spokane street.

Fifth, the laying of an eight-inch main
from the main line on Spokane street
along Second avenue, St. Paul street and
Columbia avenue.

Sixth, the connection, by means of a
six-inch pipe of the reservoir with the
Sheep creek flume, at the point of dis-
charge on Le Roi ground.

According to Mr. Fellows' estimate, the
pipe and fittings required for the new
system will cost approximately \$20,000. No
estimate of the cost of laying and con-
necting has as yet been made. Some bet-
ter understanding of the nature of the
ground to be worked will be necessary be-
fore the cost of the entire system can
be arrived at even approximately.
It was decided to adopt the Kalamien
pipe for the system in future. This is a
wrought iron pipe, specially treated, and
said to have excellent non-corrosive qual-
ities. Its minimum life is estimated at 25
years.

The superintendent was instructed to
secure tenders for the pipe, and promised
to have the figures ready for the fire,
water and light committee tomorrow
night. The committee was empowered to
proceed at once with work on the res-
ervoirs and stone pipe line, and to purchase

to John Kraft, one-third interest in Vi-
ctoria mineral claim.

Steve Barbara to S. J. Brailo, one-half
interest in Bonanza No. 2 mineral claim.
James C. Cox to Conrad Wolfe, one-
half interest in the Schuyler Oregon No.
1 and one-quarter interest in Lovell Red
Bird mineral claims.

John Radanovich to S. J. Brailo, two-
thirds interest in California mineral
claim.

G. H. Green to Redmond Hand, inter-
est in Tin Dipper mineral claim.

French Mining Men Visit Rossland.

M. Pierre Mais, civil engineer and pro-
fessor of the School of Mines in Paris,
and M. L. Fleuriot, mining engineer of
Paris, were in the city Monday on a
visit. Under the guidance of Mr. Henry
Roy they visited the Black Bear, Centre
Star and Le Roi mines. They were much
impressed with the ore bodies in these
properties and think the section in such
this city is very rich in minerals. They
left for Kalo where M. Mais has already
made some investments on account of
French clients. They intend to return at
a later date and make some further in-
vestigation of the resources of this camp.

re in Moyle.
