# A CRIPPLE FOR THREE YEARS

Helpless in Bed With Rheumatism Until He Took "FRUIT-A-TIVES"

MR. ALEXANDER MUNRO

R.R. No. 1, Lorne, Ont.  
"For over three years, I was confined to bed with Rheumatism. During that time, I had treatment from a number of doctors, and tried nearly everything I saw advertised to cure Rheumatism, without receiving any benefit.

Finally, I decided to try 'Fruit-a-tives'. Before I had used half a box, I noticed an improvement; the pain was not so severe, and the swelling started to go down.

I continued taking this fruit medicine, improving all the time, and now I can walk about two miles and do light chores about the place".

ALEXANDER MUNRO.  
50c. a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

Owing to the exceptionally large number of French-Canadians enlisting in the aviation corps, steps are to be taken to have an aviation camp established somewhere in the Province of Quebec.

### TENDERS FOR COAL

Scaled Tenders addressed to the undersigned, and endorsed "Tender for Coal for the Dominion Buildings", will be received at this office until 12 O'clock noon, on Thursday, June 27, 1918, for the supply of coal for the Public Buildings throughout the Dominion.

Combined specification and form of tender can be obtained at this office and from the caretakers of the different Dominion Buildings.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Minister of Public Works, equal to 10 p.c. of the amount of the tender.

By order  
R.C. DESROCHERS  
Secretary  
Department of Public Works,  
Ottawa, June 6, 1918 2ins

We are asked to make the published report of Halifax Relief Fund:—  
Collected by A. A. Thomson ..... \$75.00  
Mr Frank Bowman ... \$50.00  
not 5.00 as published.  
F. B. Newcombe & Co, account should be \$438.06.

### METEOROLOGICAL RECORD AT KENTVILLE FOR MAY 1918

The temperature during the month of May has been higher than usual. The mean temperature was 53.975 degrees as compared with 46.2, 49.07, 50.72, 46.14 and 43.63 during the same month in 1913, 1914, 1915, 1916 and 1917 respectively.

The precipitation was very light, aggregating only 1.21 inches, of which .50 inches fell on the 1st, .16 on the 23rd and .36 on the 28th, as compared with the same month in 1914, 1915, 1916 and 1917 when the precipitation was 3.17, 1.78, 1.46 2.5 and 2.92 inches respectively.

The amount of bright sun was greater than usual amounting to 224.6 hours, as compared with the sunshine record for 1913, 1914, 1915, 1916 and 1917, which was 178.2, 186.8, 189.6, 160.9 and 101.72.

From the above it will be seen that May has been a warm, bright, dry month, which has greatly favoured the putting in of crops, and as a result much more land has been plowed and put into crop than had been intended. The month has been too dry for grass and prospects for even a fair hay crop are not good unless there are abundant rains early in June.

There was one frost on May 5th of 6 degrees and another of one degree on the 27th, these being the only two during the month. It is reported that damage was done by the frost on the 27th to apple blossoms which were out, but it is thought that the injury was not great. The blossoming period started on the 18th of May, whereas in 1917 it started on the 7th June, three weeks later. The period of bloom has been prolonged and trees were still in bloom at the end of the month. The weather on the whole has been satisfactory for a good distribution of pollen and a good set of fruit should result. The amount of bloom is about one half a normal one.

Some 90 acres of turnips planted for seed purposes have made a fair start, particularly those planted early. The later planted ones were dried out some owing to the unusually warm weather, and this also forces growth in the pits or in storage. The dry weather with unusually drying winds, also has hindered the growth and checked development. The stand as a result been cut down about 25 p. c.

Clovers killed badly during the past winter and the plants on the alfalfa plots were almost entirely winter killed.

### HORSE GOODS

If every description can be found here. There is not a thing missing what ought to be in it. Everything needed in stable, barn and harness room included. Every article has been gathered with great care, and you will not have a chance to complain about the quality.

WM. REGAN, WOLFVILLE

### OUR LADY FARMERS.

Of the many enterprising farmers of Canaan, we think the Sisters Eleanor and Margaret MacDonnell are away in the lead. They with their mother are running their 90 acre farm with only a young boy helping through the Summer months. Eleanor devotes her attention chiefly to the cattle. The herd, while small is always in good condition and the cows much above the average in milk production. The milk of each cow is weighed and records left, so the "boarders" are soon detected and disposed of. Not being satisfied with the production of the grade cows, they began investigating the records of pure breeds. After considerable correspondence with various breeders, they purchased a fine pure-bred Holstein heifer "Homestead Hazel Vale," from Logan Bros, Amherst. She is sired by "Hugewild Mingo" whose dam has an A. R. O. record of 18.5 lbs. butter in seven days as a two yr old. Next dam, a 30 lb cow. On her dam side she is equally well bred, being a granddaughter of Sadie Vale Concordia's Grand Son," of the voted Sadie Vale family. The records of her six nearest tested dams average over 26 lbs in seven days.

On Jan 14th she dropped a beautiful bull calf by "Sir Natoye Gladi" whose dam has a record of 30.50 lbs. Also an eight months after calving record of over 20 lbs. Eleanor has had a very attractive offer for the calf from parties in Hants Co., but we understand has refused to sell.

Several months after calving "Hazel" is giving 30 lbs. of 4 per cent milk daily. This is really good work as grain has been very hard to get. We prophesy before many years there will be many of the "Black and White" in Canaan.

**FOR SERVICE.**  
Registered Durham Bull from fine milking strain. Terms \$1. at time of service \$1.25 if booked with return privilege.

**BIG COUNTER ATTACK**  
Launched This Morning Against the Enemy in Flanders.  
Its Success Would Make Hun Assault a Complete Failure.

With The British Army In France.  
May 28—British and French troops this morning launched a counter-attack in Flanders, east of Dikedusch lake. The attack began well. Success would make the enemy's assault of yesterday a complete and costly failure.

**S.A. WAR FUND DOUBLE WHAT WAS EXPECTED**  
New York, May 28—The Salvation Army's campaign for a war fund of \$1,000,000 has gone "over the top" with a total of \$2,257,334, according to a statement made here by Commander Evan Seline Booth.

A practical joker called up the telephone operator and said:—"Hello, Central. Give me Heaven," but that isn't what she gave him.

**A Discovery.**  
A merchant in a Canadian city once made a discovery. He had purchased some goods that did not turn out as he thought they would. Instead of advertising "Enormous Bargains" he simply said, "I bought them to sell at \$10.00, but they are not worth it; in fact I cannot recommend them at all, but you will find them worth \$4.00." He sold them all and made some new customers, who were convinced of his sincerity.  
Nothing new about it. Truth is as old as the hills and he simply told the truth. He discovered that honesty is the best policy, and fortunately very many advertisers are making the same discovery.
