Boers are receiving support from an sides.

In the early part of August a correspondent of the Morning Post had a long talk with Lord Kitchener, from which he gathered that "it is not Lord Kitchener, but the government that is to blame for many of the present evils." Lord Kitchener, it seems, complained that the Home Government continually worried him about trivial details, "merely to reply to parliamentary heckling," and this compelled him to enforce a strict censorship over telegrams, although personally he objected to the present system. He said he thought correspondents ought to be given great liberty and to be made responsible for their statements. heir statements.

#### BEET SUGAR

Vel Posted Chatham Township Farmer Earnestly Advocates the Industry.

Several of our citizens are working quietly and zealously in promoting the beet sugar industry for this city and locality. Mr. Commode, of Chat-ham Township, is also very much in-terested in it. His experience in Mich-igan in some of the large factories there, and his knowledge of the bene-fits to be derived from such an imporfits to be derived from such an impor-tant industry, make him an ardent enthusiast in assisting to get a beet sugar factory for this section of the country. He claims our soil is un-equalled for the beet production, and our opportunities unsurpassed for successful operations. His surprise is why more of Chatham's prominent why more of Chatham's prominent citizens do not bestir themselves more in the interests of their city and feels assured if some en our agement in the way of obtaining sufficient leases were guaranteed, little trouble would be experienced in getting a factory. If arrangements can be made a cheap excursion will be run from here this fall to some point in Michigan where the sugar beets are grown, and manufactured into sugar, for the benefit of those interested in the pro-duction of beets and others wishing to inform themselves concerning the business generally. Announcement of this will be made later on.

Salisbury Resignation Story Believed to Be a Fake-Will Remain Premier.

London, Aug. 30,-An official, who or over 30 years has been more closeassociated than any one else with Lord Salisbury, said to-day:—"I have not heard a single word from Lord Salisbury or his friends to justify this latest resurrection of the retirement rumor. It is true Lord Salis-bury is gettting very old, but he is now relieved of the bulk of the dull foreign affairs, which were formerly so trying. They do not think he is vary eager to retire, but what is more to the point, I feel certain the party would not allow it, unless age made far greater inroads on his health than it has at present. I think you will see Lord Salisbury Premier so long as his health lasts and a Unionists Gov-Wilson, of Wallaceburg, arrive to-day ernment is in power. Personally, he has no pursuits to which he desires to more leisure. Indeed, I lieve he would feel quite lost without a certain amount of statesmanship to occupy his energy.

"Have by some surgeon, Shylock, on thy charge to stop his wounds lest he do bleed to death." People can bleed to death. The loss of blood weakens to death. the body. It must follow that gain of blood gives the body strength. The strengthening effect of Dr. Pierce's Golden Medical Discovery is in large part due to its action on the blood-making glands and the increased supply of pure, rich blood it produces. It is only when the blood is impover-ished and impure that disease finds a soil in which to root. The "Discovery" purifies the blood and makes it antagonistic to disease. When the body is emaciated, the lungs are weak body is emaciated, the lungs are weak, and there is obstinate lingering cough, "Golden Medical Discovery" puts the body on a fighting footing against disease, and so increases the vitality that disease is thrown off, and physical health perfectly and permanently restored. It has cured thousands who were hopeless and helpless, and who had tried all other means of cure without avail.

#### The Boy and His Clothes

We can none of us afford to forget him. Big things are ahead of him. Work and honors and money and fun and fame-the best of life is waiting for the vigorous youngster that has worn out the knees of all his school pants during the holidays.

At present what he wants is a new suit for school. It ought to be strong everywhere and extra strong in the pockets—and next to being strong it wants to be smart looking, because neat clothes react on a boy's habits and help to make a gentleman of him.

These 3-piece suits mostly range up to 16 years size, and we've been careful to get them proportioned just right. Good serviceable colors, natty finish, black Italian or farmer's satin linings-plenty of pockets.

\$3.00 Dressy suit of dark blue serge, single breasted coat, plain vest, short pantaloons, nine stout pockets. A gem. \$3.25 Suit of mixed tweed in a lasting shade of bronze, single breasted coat, plain vest, most careful making all through.

SHAMROCK'S INTERESTING SPIN. New York, Aug. 30 .- The Shamrock had a most interesting trial spin for four hours to-day in a light breeze from the south-east. After making a couple of tacks to fetch out the rough Gedney channel she stood out to sea on the starboard tack under main sail,

the yacht stood off shore six miles. Sir Thomas Lipton and Geo L. Watson. after making a short tack, kept off at 1.15 for home. The spinnaker boom was dropped to port and at 1.33 the sail was hoisted and sec in one minute. At 1.45 a balloon foresail was substiwind over the port quarter the Shamrock for the next hour travelled nine knots easily without making more than a ripple on the water. Coming in through Gedney's channel at 2.45 the wind increased and with a magnificent burst of speed the yacht elled from there to the point off the Hook at a 12 knot clip. There she luffed and took in all her sails, except

the jib. Then she sailed to her mooring and made fast for the day.

PDUCKY BOY. Detroit, Aug. 31 .- While on his way to work at the factory of the Wolverine Manufacturing Co., William Kraft's left foot caught in a frog of the railroad tracks near the Grand River avenue crossing, just as the boy noticed a train coming down the track. He struggled sto free his foot, but as the wheels approached nearer and nearer, Kraft displayed wonderful presence of mind by bending his body far back over the outer track and waited for the worst. The foot and ankle were badly crushed by the train, but the authorities at Harper Hospital, where the leg was amputated, say that the plucky boy will recover. He is 14 years of age and lives at 363 Williams avenue.
