

The Union Advocate,
ESTABLISHED 1867.

NEWCASTLE, JANUARY 3, 1906.

TARIFF REVISION.

The Commission appointed by the Government to visit the various commercial centres of the Dominion and hear the testimony or expressions of opinion of citizens interested in tariff reform will meet here to-day. The first meeting is called for at the Town Hall at 10 o'clock, and it is hoped that citizens will attend and appear before the commissioners and suggest some of the needed reforms to the present tariff.

If you do not think the present tariff is favorable to the business interests of Miramichi then express your views before the tariff commission which meets here to-day.

What tariff changes do we need? That is what the Tariff Commissioners want to know.

Do we want an export duty on pulp wood? Now is the time to impress it on the government through the Tariff Commission.

IS MR. LABILLOIS AN ACADIAN?

It is reported that a delegation of Acadians waited upon Mr. Emmerson two days ago and gave him advice about the appointment of a senator. They are said to have told him that one of the two senators to be appointed from the province must be an Acadian, and that he must not be Mr. Labilloy. The chief commissioner seems to be ruled out on the ground that he was born in Quebec and is not an Acadian.

Herein is a mystery. For Mr. Labilloy persists in saying and writing that he was born in the town of Dalhousie, which is in this province. So it is recorded in the Parliamentary Companion, Parliamentary Guides, and other books of reference. One would suppose that Mr. Labilloy would know where he was born. Moreover it would appear that his father was born in this province, as his grandfather was a resident of Tracadie. It seems that Mr. Labilloy is descended from one of Napoleon's officers, but his ancestors have resided in this province for nearly a century. It is a peculiar feature of the argument against Mr. Labilloy that it is supposed to have been presented by Mr. Turgeon, M. P. for Gloucester, who was born, brought up and educated in Quebec, and does not appear to be quite so much of an Acadian as Mr. Labilloy. We have this further anomaly that Mr. Labilloy claims to be the representative of the Acadians in the provincial cabinet, while his political supporters, if we may so describe Mr. Turgeon and Mr. LeBlanc, are repudiating his Acadian origin. It would appear to be time to refer the fine question of race to a competent commission. —Sun.

Pop!
Yes my son.
What is an excavation?
Why, an excavation, my boy, is a place from which dirt has been taken.
Well, I suppose my face is an excavation, then?

Young Slippy was courting the daughter of his former tailor.
Darling, he said, I hope you will learn to love and trust me.
Well, replied the fair object of his affections, 'I'm sure I can learn to love you all right, but papa says you are not to be trusted.

Sorrowful Child (to pastor)—Mr B. mother sent me to tell you that father is dead.
Pastor—Is he? Did you call a doctor?
Child—No, sir; he just died of himself.

What are you writing, little boy?
asked the old gentlemen.
Christmas letters, responded the youngster. One is to Santa Claus. But you have two.
Oh, the other is to the fat lady in the museum, asking if she would loan me one of her stockings to hang up.

The Drummer—Is Sikkerr still cashier of the local bank?
Village Merchant—No; he left the country some months ago.
The Drummer—Indeed! Was he short?
Village Merchant—Oh, no; he was several thousands ahead.
The world in general gives its admiration not to the man who does what nobody else attempts to do, but to the man who does best what multitudes have done.

HOUSEHOLD HINTS.

A weak solution of alum or soda will revive the colors in a dusty carpet. Equal parts of skimmed milk and water warmed will remove fly specks from varnished woodwork or furniture. The doors, casings and subbase of rooms when in natural finished wood should have an occasional rub with an oiled rag. Oilcloth may be brightened by an occasional coat of varnish or by rubbing with kerosene oil a month. Both treatments add to the durability of the oilcloth. A room used for dancing should be well ventilated and well lighted—the ventilation for health's sake and the lighting to enhance the effect of the jewels and dresses. It is well to remember when papering a small room that blue in all light shades makes a room look longer. Dark colors or papers with large patterns have the opposite effect.

Physical Culture.
Real beauty means that you must take care of your health, which is the foundation and structure of good looks, says the Chicago Record-Herald. It means that you must chafe away from the habit of "saying things" when you feel out of sorts. It means that you must take the straps and buckles of prejudice and petty opinions off your heart and your brain, and that you must be great and big of soul, loving humanity, appreciating life, enjoying, studying, working, achieving, dreaming and making each day better. The word beauty covers a multitude of goodnesses, fine qualities, sympathies, affections and honesty. It is not merely a matter of bombarding complexion with wearing a dip belt and growing a pompadour as big as a Hubbard squash. It is by creating a definite goal of perfection toward which every good impulse will help you.

The Sewing Machine.
The sewing machine still bothered me by running hard even after I had thoroughly oiled and cleaned it, says one woman. But at last I found one place that I had neglected—the throat plate. All that was necessary was to remove the screw and lift that little cover where the needle runs in and out. There was such an accumulation of dust and dirt that the trouble was easily accounted for.

Anemic Girls.
Paleness of the complexion is often one of the signs of anaemia, a complaint from which young girls very often suffer nowadays. For these an indoor life is exceedingly undesirable, and they should be out in the fresh air as much as possible. A course of cod liver oil and iron is beneficial, and the diet should consist of milk, farinaceous foods, etc., and a cold or tepid morning bath is excellent as causing better circulation of the blood.

The Indians of Canada.
The Indian population in Canada last year, according to figures from the Indian Department report, numbered 107,978, a net decrease of 255 as compared with the year 1905. The report points out that it is a fallacy to suppose that the Indians are a dying race, doomed to extinction before the advance of civilization. Facts and statistics fail to support this view. In every province except British Columbia the birth rate exceeds the death rate.

Impoverished Soil

Impoverished soil, like impoverished blood, needs a proper fertilizer. A chemist by analyzing the soil can tell you what fertilizer to use for different products.

If your blood is impoverished your doctor will tell you what you need to fertilize it and give it the rich, red corpuscles that are lacking in it. It may be you need a tonic, but more likely you need a concentrated fat food, and fat is the element lacking in your system.

There is no fat food that is so easily digested and assimilated as

Scott's Emulsion of Cod Liver Oil

It will nourish and strengthen the body when milk and cream fail to do it. Scott's Emulsion is always the same; always palatable and always beneficial where the body is wasting from any cause, either in children or adults.

We will send you a sample free. Be sure that this picture is the form of a fisherman carrying a large cod on his back. Buy only the Emulsion of Scott's Emulsion of Cod Liver Oil. **SCOTT'S EMULSION OF PURE FRESH COD LIVER OIL.** Price, 50c. and \$1.00. Registered.

Ayer's Hair Vigor
Losing your hair? Coming out by the comb? And doing nothing? No sense in that! Why don't you use Ayer's Hair Vigor and promptly stop the falling? Your hair will begin to grow, too, and all dandruff will disappear. Could you reasonably expect anything better?
"Ayer's Hair Vigor is a great success with me. My hair was falling out very badly, but the Hair Vigor stopped it and now my hair is all right."—W. C. Lonsdale, Lindsay, Ont.
All druggists. **J. C. AYER & CO., Lowell, Mass.**
