MAY IT PLEASE YOUR EXCLUENCY; We, the Clergy, Magistrates, and other Is habitants of the South Lake Settlement and neighbourhood, heg to express our high grati-fication at your Excellency's visit to this place. We all rejoice in the establishment of Responsible Government, and apart from all party politics, we assure your Excellency of our devoted loyalty to our most Gracious Queen—of our high esteem for your Excellency, as her Repress. tative, and of our usshaken attachment to the Bitish Constitution; and though your Excellen-y's Government is to us new and untried, we shull sustain it to the uttermost in every measure that can contribute to the houror of the Crown, and to the advancement of the prosperity of the people. It gives us much pleasure to see Lady Binnerman with your Ex-cellency on this occasion; and while we wish your present journey to be as pleasant to yourself and her Ladyship as it is graitifying to us, it is our carneat desire that in the greater journey of life, your excellency and your animible Lady may enjoy tha thappiness which springs from a consciousness of the Divine approbation—that bless-ing which maketh rich without sorrow. (Signed)

(REPLY.)

Rev. Sir and Gentlemen;

Rev. Sir and Genllemen; The Addreas of the Clergy, Magistrates and other Inhabitants of the South Lake Settlement and neighbourhood, which you have presented to me, is a very acceptable one, breathing the same spirit of loyalty and attachment to our most Gracious Quecen, which I have everywhere found among the inhabitants of Prince Edward Island, from West to East, from North to South. I observe, that you re-joice in the establishment of Responsible Government, and although the system is " new and untried to you," you offer it that generous suppart, which thous who compose the Government must feel grate-ful for, and encourage them to promote " every measure that can contribute to the honor of the Crown, and to the advancement of the part of the people". Lady Bancerman's and my visit to this part of the Island has been a very pleasant one, and we mest sin-cerely thank you for your very kind and good wishes towards us.

Mr. Flynn and Gentlemen-

Mr. Flynn and Genilemen-I was very desirous to visit this part of the Island, and I have now reached one of the oldest settlements in King's County-a cousty where the I habitants were lately represented to me, to be in no very enviable position, 'an object of submission to their Land-ords, with so free will of their own.' I have some among you to inde for myself, and I am surprised that three individuals could so misrepresent the inhabitants of this County; I have been surrounded which they sought for, to promote as far as in our power, the suf-far and prosperity of the Inhabitants of Prince Edward Island. The Queen's Representative has heard no sentiment utered in Krig's County that might not have been spoken in the presence of where the the State of the State of the County of the constitutional So-vereign who wears the Stinish Crown, to visit Her North American and Throue than in Island, which bears the name of her illus-to any, that she feels very sensible of the trouble yon have taken on he saccess which they will deserve, and Lady Banemernan desires me to say, that she feels very sensible of the trouble yon have taken on hard and for your kind expressions towards ber. At Souris, I allude to the subject in which I am glad to find you take an in-terest, and Lope that at no distant period, we shall see an Island the success which they will deserve, and w. ich I sincerely wish them.

THE CROPS IN EUROPE.—The ravages of the fly or worm in the turnip erop have elicited complaints from England, Scolland and Ireland. In France, and on the continent generally, although the harvest will not be so abundant as it was last year, there will be, if we may judge from the reports, a fair average yield of grain. The storm and insudations which have recently visited France, Switzer-ind, Belgium, Itely and Germany have inflicted a good deal of da-inage; but local losses will, so far as the general market is con-cerned, be editionated, by more than ordinary productiveness in other quarters. So far as can be seen at present, there is every prospect that the prices of food during the next twelve months will continue to be moderate.
