### PAINT LENGTHENS LIFE OF BUILDINGS AND MACHINES

Many an old ship has stood the racket of ocean travel for years mainly on the strength of the tar or paint applied to her sides, but sailors do not wait for the ship's hull to become weather beaten before applying the first coat of paint. Farmers, on the other hand, seem much inclined to let their buildings reach a state of partial decay before making any special effort to safeguard them against the play of wind and water. As a matter of fact, nothing pays better than paint applied immediately after the building is constructed, in lengthening the life of the structure. The same applies to farm machinery parts

especially the wooden parts and it will always pay to paint such repairs to machinery wagons, etc., as have to be made before the work season for these articles commences.

Good paint applied to farm buildings and machinery, not only protects the good management employed in serving them, but calls attention to running the farm, a fact that helps greatly in case the owner wishes to sell either the farm or some of its products. Many farmers have paid so much attention to the economic value of the farm that they have neglected an important side of farm life. There is no reason why the farmer and his family should not have as attractive a home as attractive as the city dweller has. The farmer's neighbors

as well as the passing observer, will judge him largely by the care he takes of his stock, his machinery, and his buildings.

Painting is the easiest and least expensive way of making sure of neat clean surroundings, and is the best way of preserving the lumber in buildings, implements or machinery. With spring approaching, the time has arrived for going the rounds of the machine shed to look out these articles that can be moved to a warm

building for retouching with paint in addition to their annual overhaul and repair.

### A LOVELY REGION

One hundred and forty five miles north of Toronto lies the "Lake of Bays Region" one of the most attractive of the summer play grounds in the Highlands of Ontario. It is 1,000 feet above sea level, is immune from Hay Fever, has good boating and fishing, golf, and is supplied with some of the best summer hotels in Canada among which is Bigwin Inn accommodating 500 guests. For description literature with list of hotels, rates, maps, etc., apply to any Agent of Grand Trunk or write to C. E. Hornung, D.P.A., Toronto, Ont.

### Taking Music From The Devil

"WHAT'S the matter down there at the door?" "It's the drum, General, and the crowd pushing past." "Let the drum come in, too."

THIS was the first entrance of the drum into their meetings.

THEY have given many hymns to the world and taken many songs from the devil. They have well said, "He has no right to music."

THEY play their music for God, to bring the people to Him.

MANY a man has been led by Salvation Army bands and songsters to realize that true harmony in this life can only come from the knowledge of God's power to save.

### PECULIAR LEGAL TANGLE SOLVED IN NOISE SUIT

County Judge L. B. C. Livingstone has just handed down his decision in a peculiar case; that of the Hydro Electric Commission at Welland, vs. R. Hill. The hydro entered suit against Hill on charges that the noises made in his pool room, located over the Hydro offices in Welland, caused loss of business.

The case was heard last week, and County Judge Livingstone has just given out a ruling, finding that the nuisance complained of actually existed, and the defendant was responsible for it. He has ordered the issuance of an injunction to be issued immediately, and to come into force for three months to allow any change the which the defendant wishes to make to abate the nuisance.

In addition, County Judge Livingstone in his finding assesses all the costs of the case against the defendant Hill.

Hill contends that the owner of the building is responsible, as he rented his quarters to him for poolroom purposes, and that a pool room cannot be conducted without a certain amount of noise. He will likely remove from his present quarters in order to escape further suits.

### WELL STOCKED CELLAR DRAWS BOOZE THIEVES

BRIDGEBURG, April 22.—That robbers have been active along the lake shore is revealed by complaints made to Chief Edwards of the Ontario police at Fort Erie.

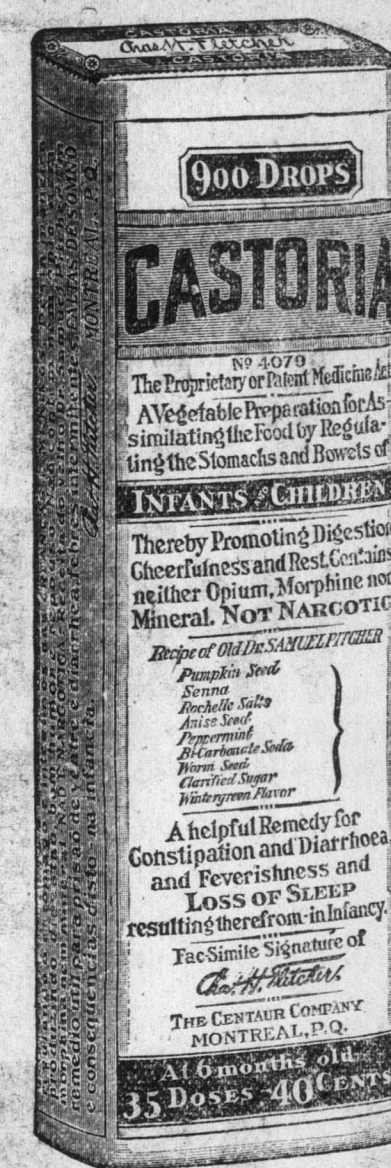

Buffalonians owning summer cottages along the lake shore have entered complaint to the effect that their cellars, in many cases filled with Canadian whiskies and ales, have been entered by an organized gang and much of the contents taken. In one case complaint is made that thirty quart bottles were stolen.

Three men have been arrested in connection with the charges and a general investigation is being conducted into the affair.

Owing to the fact that the summer season has not yet opened along the lake shore, and the owners of homes are absent as yet, looting cellars in this section has apparently proven to be an easy task with the opportunity available at all times.

In the only game played in the National League yesterday Pittsburgh defeated Cincinnati by 5 to 3.

Canadian exchange was weaker, selling being especially evident at Montreal.
