

THE HERALD

WEDNESDAY, NOVEMBER 30, 1887.

Legal Newspaper Decisions.

1. Any person who takes a paper regularly from the Post Office...

2. If a person orders his paper discontinued he must pay all arrears...

3. The Courts have decided that refusing to take newspapers and periodicals from the Post Office...

ALL matter intended for publication in the HERALD, should be in our office by noon on Tuesday of each week.

THE SITUATION IN FRANCE.

The existence of a crisis is nothing unusual in the political history of France, particularly during the average life of the Republic...

On the 19th of the present month, the Party of the Extreme Left, in the Chamber of Deputies, led by M. Clemenceau, moved an interpellation of the Government on the question of its domestic policy.

It will thus be seen that a deadlock exists between the President and the leaders in the Chamber of Deputies. The reason, ostensible at least, for demanding the resignation of M. Grevy, is the implication of his son-in-law, M. Wilson, in the recent scandals connected with the sale of decorations of the Legion of Honor.

Later advice inform us that the President, yielding to the inevitable, has consented to resign, but not before he would issue an address to the country, repudiating responsibility for the present state of affairs, and declaring that his retirement had been forced upon him by an impossibility of governing the country, and that he would withdraw from the Presidency with the sincerest wish for the future of the Republic.

In the meantime the promoters of that spirit of unrest which seems to underlie the whole fabric of society in France, particularly in Paris, and which never loses an opportunity of attacking the President with honor and declaring his intention of remaining in office until these things were arranged that he could take his departure with dignity.

THE WAIL OF MONOPOLY.

Under the above heading the Montreal Gazette expresses the ridiculousness of the position of those Canadian and United States journals who are doing their best to prevent an amicable settlement of the Fishery question.

Under the above heading the Montreal Gazette expresses the ridiculousness of the position of those Canadian and United States journals who are doing their best to prevent an amicable settlement of the Fishery question.

From March, 1884, to this day Secretary Bayard has been a man of pitiful woe. He has been the British Minister and the Canadian Government have manipulated his Department as they please.

The Halifax Herald of the 26th inst., has the following relative to the Gloucester fisheries: "The record of losses in connection with the Gloucester fishing fleet during the past season is a record of disaster."

The Montreal Gazette has the following relative to the sugar industry in the United States: "The American Commissioner of Agriculture has just received from the United States the report of the sugar industry for the year 1886."

Mr. HECTOR LANGRISH was, a few evenings ago, banqueted by the Liberal-Conservative Association in the Hotel de Ville, Montreal, on the occasion of his recovery from a severe attack of illness.

It gave him great satisfaction not only to be present himself and read a congratulatory address, but also that he had sitting by his side the most distinguished and celebrated colleagues of the Hon. Mr. Chaplain. (Cheers.) A meeting like this was the best sign of the times.

SENATOR HATTING, although a strong Brit, is not in favor of Commercial Union. In the course of a speech on this subject before the Board of Trade he pointed out that Canada has always been ready to negotiate a fair reciprocity treaty with the United States, and that we should not sacrifice our national honor and commercial independence in order to meet the wishes of the advocates of this new-fangled doctrine.

EDITORIAL NOTES.

ALL who are entitled to the fishing bounty should send in their claims not later than the 31st December, as the Department will not consider any sent after that date.

The International Fishery Commissioners are now engaged in their labors, but until the work is concluded and the result thereof communicated to the respective Governments interested, the public must necessarily remain in ignorance regarding the conclusions arrived at, and even as to what the Commission may have agreed upon as a basis of settlement.

It is not probable that the Commission will rise before the meeting of Congress, early in December, and the temper of the Senate may also be tested regarding their conclusions before the Commissioners leave Washington. That body, it will be remembered, last year opposed the submitting of the question in dispute to a joint Commission, and they are still of the same political complexion. It is doubtful, however, if they would undertake to condemn the action of the President in calling the Commission together. Whatever may be the final result of the negotiations, we need have no fear that Canada's rights will be jeopardized so long as Sir Charles Tupper has a seat at the board.

The Hon. George Cottrill.

LEGISLATIVE COUNSELLOR OF THE DEPARTMENT OF LABOR; S. SECRETARY OF THE ORDER OF ST. RUFUS.

The town of Levis has just lost a great philanthropist—the most noted of its citizens—the Hon. George Cottrill. Sir was a personage that has disappeared. For forty-six years—nearly half a century—Hon. George Cottrill has been a prominent part in the intimate, active life of the chief town of the county of Gaspé, and his influence was felt over the whole country south of the River St. Lawrence.

In 1841 he founded, on the heights of Levis, the powerful commercial house which bears his name, the oldest and richest merchant of all that region which extends south of Quebec, from the St. Lawrence to the State of Maine. The small communities, the laboring classes, the noble trades of the general life of this public benefactor, his founder of churches and hospitals, have been abundantly recorded in a biography which I had the honor of publishing in 1884. It is useless to repeat what has already been written.

It is not probable that the Commission will rise before the meeting of Congress, early in December, and the temper of the Senate may also be tested regarding their conclusions before the Commissioners leave Washington. That body, it will be remembered, last year opposed the submitting of the question in dispute to a joint Commission, and they are still of the same political complexion. It is doubtful, however, if they would undertake to condemn the action of the President in calling the Commission together. Whatever may be the final result of the negotiations, we need have no fear that Canada's rights will be jeopardized so long as Sir Charles Tupper has a seat at the board.

General News.

ANOTHER STEAMER WRECKED.

The German steamer Leader from Quebec for Hamburg, struck the wreck of the schooner Strickland, and was towed to Dover in a sinking condition. The channel had been crowded with ice the previous few days, and the wreck of the schooner has directly in the path of traffic.

Telegraphic News.

TORONTO, Nov. 24.—The Commercial Union Club has instructed the President to communicate with Sir James Tupper and Mr. Chamberlain, and arrange, if possible, that they receive a delegation from the Club, who would be the best qualified to represent them in the proper light.

BERLIN, Nov. 23.—The Reichstag opened today. Minister von Kottwitz read the speech from the throne. The speech includes the following: "Germany, in its foreign policy, has successfully endeavored to strengthen the peace of Europe by cultivating friendly relations with all powers by treaties and alliances, aiming to avert the dangers of war, and to oppose unjust attacks. Germany has no aggressive tendency; no wants to be satisfied through victorious wars."

PARIS, Nov. 24.—M. Grevy has requested M. Ribot to form a Cabinet, and charged him to convey to the Chamber his message of resignation. M. Ribot's resignation was accepted as the message was of a political nature, which required the approval of the Chamber. M. Ribot's resignation was accepted as the message was of a political nature, which required the approval of the Chamber.
