THE ENEMY'S TRIBUTE.

An exchange published in a North Dakota town adds its testimony to the energetic immigration work of the Edmonton Board of Trade, though of course unintentionally. The article n part follows :-

"The chamber of commerce of Edmonton, Alberta, is flooding this section with profusely illustrated advertising matter, showing up the resources and opportunities of that city. While Edmonton may be a very good place, we see nothing in heir circulars that equals the won derful resources, growth and development to be found right here in North Dakota. With all its wonderful 'boom' and inflated enterprises, Edonton does not compare with either 'Grand Forks or Fargo as a city, neither do the numerous landscape views of mountainous scenery compare with the broad and fertile fields of this state. But at the same time we cannot blame them for 'fishing for suckers' in North Da-'kota, where each one is worth from "\$2,500 to \$5,000. If it was merely settlers they wanted they would not work the North Dakota market so "hard, but the fact is apparent that "Dakota 'fish' is the best of all to "these westerners, who talk so much "about their 'hills,' and 'golden sun-

What better proof could be desired that the Board is doing effective work? The Dakota exchange would

YESTERDAY'S VOTE

Yesterday's voting terminated one two-thirds vote. The reason for this was probably the belief that an en not traceable to financial or economic beef producer quite as heavily as on terprise which received a bonus from the government did not require other

REASONS FOR PRESENT S

In Money Markets-B Works Have Gobb the Gold.

The Toronto Globe in ; published a special article cial stringency which deals No man needs to be told present time there exists thi money markets of the worl of stringency. Everywhere n to obtain, even when the se is of a gilt-edged characte money more difficult to sat Canada. It has been an stitutions of the country h and are not now willing to loans, not that the banks companies are in any way dition financially, but that termined to continue in a go condition. The calls made up so numerous that it is impos isty everybody.

With a view to ascertaini being thought of the positio cial circles a representative o has during the last few day Toronto who are closely ident financial organizations, and t somewhat obvious reasons, it i sible to disclose their identity terest, and on the whole garded as reassuring by those condition which affairs have Causes of Dear Mone

Generally speaking, the chief dear money throughout the y in the first instance, the hu ditures brought about by the rican war, costing the British round figures something like dred and fifty million pounds the great war between Russ Japan both of which turned mo its natural industrial channel, ally the great wave of prospers has literally swept over the wor cent years. The last mentione is by far the most important. ize that it is so needs only a thought on the great industrial ment that has taken place in co with the three great manufactutions of the world-Great Brit United States and Germany. In nese countries, particularly to the two last, the rate of and development in, comparative ing, the last few years has bee ishingly great. The expansion mercial and industrial er throughout the world has, as ratio than has the increase of th supply of gold, the basis of all cial enterprise, and it is money should result. Enorme prises like the Panama Canal, Transcontinental, Egyptian and projects of great magnitude has Such being the case, it is matter to realize why in Can stringency of the money market be greater than it is in some of communities. No country in th can point to such a remarkable development as can the D The record of progress during ten years, progress made in ever of commercial undertaking has r In every part of the country th story of prosperity and expansio be told. The great crowds of zens that have poured into the have had to have their needs s (Those of them that have taken u ing in the west as the means to gain a livelihood have had to piled with machinery, and t growing population so rapidly ing has demanded such an incr supply of manufactured good in every industry there has taken an enormous expansion Have Enlarged Establishmen

The manufacturer and the me in order to keep pace with the o of the people have had to enlarg establishments, and the deman money to carry out these works ha so great that at the present tim bsolutely impossible for the ban loan corporations to meet them, spite of the fact that the rates erest have been considerably in they are now only able to de such applications as will yield al the most advantageous res themselves. In other words, C own tremendous development ar perity, affords the reason why should be dearer here than in

It was frankly admitted to the reporter by more than one head Coronto institutions that it was i sible for them to afford that a dation to local industries as ha a point of great interest and co le importance to Toronto arises. the beginning of the year, buildi mits have been issued in the city able portion of this proposed tive work is house property, and tion in the city becoming more p is of the greatest importance these building operations should interfered with. It must also be in mind that to a large extent the tion of new house property is undert as a speculation purely and simpl those engaged in this business are dent on the banks and loan societie means of carrying on their The question is, therefore, whether not the stringency of the money n will prevent any large portion of undertakings for which permits been issued being carried out. Made Financial Arrangements

Asked whether he thought that would be the case one gentleman most emphatically, "No! because ple before obtaining their permit east in a great majority of cases,
