THURSDAY, Nov. 21, 1912.  
**A Discredited Government.**

The public at large are hugely disgusted with the Government. They have had enough of contract seekers, fee hunters, land grabbers, and political picnicers, who constitute mainly the ranks of the People's Party.

The events of the past four years have thrown a lurid light on the actual doings of the party, which made such a brave show some four and a half years ago.

"Under the banner of the People's Party the whole of the industrial classes of the Colony—the Fishermen, the Farmers, the Mechanics, the Laborers, the Clerks, and all who work for a living—will find a rallying point, where all who wish to see their country advanced and their interests protected will work for the common good."

Under such a promise did the party organized by Sir Edward Morris offer itself to the country. To-day the party is a discredited and hopeless organization, whose day is done, and whose hopes for the future are shattered.

The Fishermen have looked in vain for a furtherance of their interest. They find that their sheet anchor, the Bait Policy, made the play of doubtful deals with Americans. They asked for bait storage, standard culls, new markets, and a general uplift of their interests, and they are given futile deals with American Fish Companies, with apparently more attention to Americans than their interests.

The Farmers have found the Morris Agricultural Policy a delusion and a snare. The attempt to put Agriculture on a safe and scientific basis made by a practical farmer and a sound statesman, Sir Robert Bond, has been frustrated by the present Government, and the policy of the latter has been proved to be as infertile as dead-eye potatoes.

Mechanics, Laborers, Clerks, and all who work for a living, have waited in vain to see where they come in. They find extravagance rampant, railway building financed wildly, grabs confronting them, picnics galore, fat livings provided for politicians, while they are crabbed and cribbed daily in their own living.

Coal, which Morris promised should be cheaper, is dearer than ever. Houses are as hard to get as ever. Taxes which were declared implicitly to be inequitable on the working class-

es have not been reduced as Morris promised, but to-day they are in fact higher than ever, rising with the rising prices, and while people are outraged at the extravagance of the Government, they find it harder to live than ever they did before.

The Government party is therefore a discredited body. People are determined on a change. They are insistent that Morris and his men must be turned out as they are summing up the situation as one intolerable to them. From the north, the south, and the west the clarion cry is rising and the universal shout is "The Grabbers Must Go," and go they will when the Electors have a chance of turning them out.

**Wake Up, Fishermen!**

Would you succeed in making a million if you had the chance? What per centage of your opportunities are you using—are you content to remain in the rut? or will you seize the passing opportunity of turning work into play and doubling your earning capacity by buying a Fraser Engine which is certainly the best fisherman's engine made. It is economical, speedy, strong and reliable, and yet so simple that any 10-year-old boy can operate it. Price and terms attractive.

**Here and There.**

The FAIRBANKS is the "fool proof" engine.—nov21,t

**HERRING CARGO.**—The schr. Colonia left Sandy Point yesterday with 1,300 barrels of herring for Halifax.

The Fraser Engine is strong and simple.—nov16,t

**FOR HOSPITAL.**—A half-breed Eskimo came up on the Solway yesterday from Long Tickle, Labrador. He is suffering from a tumour on the left arm and will have it removed.

Look at a FAIRBANKS engine of a certain Horse Power and then look at any other engine of the same Horse Power.—nov21,t

**TO OUTPOST FRIENDS.**—Please notice that we have no soliciting agent in St. John's—our prices, therefore, are so much lower having no commission to pay. Come direct to us yourselves for Organs, Sewing Machines and Planos. **CHESELEY WOODS & CO.,** 140 Water Street. nov19,t

**MR. RICHARD ANSTEE, Little Bay Islands.**

"I knew nothing about Engines before I bought my 7 1/2 H. P. FERRO, but I found it so simple to operate, and so reliable at all times, that I cannot recommend it too highly for fishing purposes."—nov19,tu,th,s.

The Fraser Engine is a good Engine. nov16,t

**POLICEMAN ILL.**—Const. Pitcher, of the eastern station, became very ill this morning, is laid off and is being attended by a doctor.

The Fraser Engine 's strong and reliable.—nov16,t

**SECURED SIX DEER.**—Messrs. T. Brennan, M. LeMessurier and John Neville, now on the Gaff Topsails, secured up to yesterday six fine deer between them.

The best Testimonial that the Fairbanks Engine has, is the fact that there are over a 100,000 engines in successful use to-day.—nov21,t

**BADLY SPRAINED ANKLE.**—While C. Nurse was wrestling on Tuesday night with James Tuff, in the White Rose Club Rooms, Belvedere Street, he fell and so badly sprained his left ankle that he had to be carried home where a doctor attended him.

The Fraser Engine is speedy. nov16,t

The man who has no salaries to pay generally is in favor of raising them.

**Cable News.**

Special to Evening Telegram. MONTREAL, To-day. When the Allan Liner Hesperian arrived there was a squad of police awaiting her. Seven sailors were arrested and taken to police headquarters. This was the last trip of the liner and the men were charged by Capt. Main with having broken into the hold and stealing gin, brandy, Scotch and Irish whiskey. They were remanded for trial.

Special to Evening Telegram. HAMILTON, Bermuda, To-day. All statements about selections for Cabinet may be disregarded until I make announcement myself, declared President-elect Wilson when told of the reports published in the United States. Wilson said he had not offered nor intimated an offer of any position in the Cabinet to anyone. It is learned Bryan has not been expected to Bermuda; it is said he is not expected here during Wilson's stay.

Special to Evening Telegram. LONDON, To-day. The Post discussing the Canadian Naval Programme says: Premier Borden ought to ensure a policy that is not liable to be reversed by future Governments. He should also enforce the view that Canadian contributions is in addition not in substitution. The question of preserving Dominion Naval unity should be left open.

M. P. J. BRYAN, of Tilting, writes: "My 7 1/2 H. P. FERRO proved a success, and paid for himself well this summer. The FERRO is as good as can be made. Our boat is 33 feet on top, and her speed is eight miles an hour."—nov19,tu,th,s.

**Circuit Court.**

The Supreme Court will start on the Northern Circuit to Brigus, Harbour Grace and Carbonear by the evening train. The presiding judge will be Mr. Justice Johnson, he will be accompanied by Sub-Sheriff Carroll, Orier Alsop and Mr. Simon Butler as Clerk of the Court. The following members of the bar will also go on Circuit, Mr. McNelly, Howley, K.C., Warren, K. C., Mr. Higgins and Mr. Squires.

**CAPT. DANIEL BRAGG.** "I want nothing better than a FERRO Engine. My 5 1/2 H. P. FERRO drives my trap skiff 8 miles an hour, and can tow my 30 ton schooner easily. I had no trouble of any kind with my FERRO all summer."—nov19,tu,th,s.

**VERY DISORDERLY.**—Yesterday afternoon a man who had taken too much drink tried to assault several people passing along Water Street. In passing Mr. T. Wall's saloon he fell through the window and broke a pane of glass worth \$2. Consts. Cahill and Chisholm arrested the man who fought fiercely and had to be handcuffed.

**The Also Rans.**

The country's full of a 18.0 rans, who tell why they got left; the Peepul queered the r little plans, and now they stand b e r e f t

The e little snaps for which t h e y yearned don't come

their way at all; the sacred Peepul rose and turned their pictures to the wall. The holy Peepul, standing pat, a halo o'er each brow, said to their aspirations, "Scat!" and so they're frequent now. They're well supplied with lids and cans, and they have soup to burn; but will the Irish also rans a useful lesson learn? Will they emerge from mire and murk, the debris of defeat and bravely say: We'll go to work, and ram our bread and meat?" Will they forsake the idle course of all the statesmen crew, who rant and howl till they are hoarse, and nothing useful do? Will they upon the farm abide and labor as they should, and let the sacred Peepul slide while they are sawing wood? You little know the also rans if you are dreaming thus; already they are forming plans for stirring up a fuss. Again they'll soon be waving flags and toiling with their jaws, distributing the same old gags about the Peepul's cause. The drunkard who for years with glib his played out tank has warmed, may by the docs be gathered in and by their skill reformed; the dope fiend, when the doctors try, becomes a useful man; but all the docs beneath the sky can't cure an also ran.

We can publish thousands of Testimonial letters from Fairbanks users, but prefer giving a few facts, and leaving it to intending purchasers to judge for themselves.—nov21,t

**LIGHT BADLY WANTED.**—Boncloddy Street is one of the darkest thoroughfares in the city at night, and a light is badly needed at the head of the street. Often suspicious loiterers are seen about there, and women folk passing that way fear insult as a result. The residents there hope that the Council may soon be able to afford them this much needed improvement.

**Paper Chase.**

The finish of the paper chase, which is an annual event, between the pupils and boarders of the Bishop Field College, took place yesterday and resulted in a victory for the pupils by one point. The course taken for the first division was via Rennie's Mill Road and return home by way of Freshwater, a distance altogether of seven miles. Pike, a boarder, won in 48 minutes, but two day boys came second and third respectively. In the second division the route was via Long Pond, Mt. Selo and Freshwater Road, a distance of five miles. The winners were Steele and LeMessurier. A two mile course was outlined for the third division and Webber was declared the winner in eleven minutes and a half.

**CAPT. NOAH BISHOP.** "I say from my heart with all sincerity that I would not sell my 7 1/2 H. P. FERRO for ten times what it cost. I knew nothing about a gasoline engine when I bought it, but with the aid of the instruction book I got with the Engine, I could do anything with it in a few days. I can confidently recommend FERRO Engines for fishing purposes. My FERRO was a great benefit to me this summer."—nov19,tu,th,s.

**Marine Notes.**
