

## The Kaiser.

Who was it when peace reigned supreme.  
And freedom shed her brightest beam.  
Till he of "world power" had a dream?  
The Kaiser.

When wars' drawn sword was dripping red  
With blood his humnial horde had shed.  
Who was it frowned on Belgium's dead?  
The Kaiser.

Belgium: thou wilt yet be free  
From that cruel rule which governs thee.  
And he shall die in misery—  
The Kaiser.

Who now is fit for Satan's chums.  
On England's babies dropped his bombs.  
Who grins while hymns of hate he hums?  
The Kaiser.

Who tries to starve our soldiers bold.  
Whose heart is hard and icy cold.  
And craves for fame and power and gold?  
The Kaiser.

Napoleon once was such as he.  
Who frowned on truth and liberty.  
Till conquered like this Hun will be—  
The Kaiser.

And when he's day of rule is o'er  
And peace shall reign on every shore.  
We'll all be glad that he's no more.  
The Kaiser.

## Gallipoli Dance Successful.

The dance in aid of the Red Cross Fund, which was promoted by the returned Gallipoli heroes, took place last night in the new C. C. C. Hall and was largely attended, the spacious building being filled to overflowing. His Excellency the Governor and Miss Davidson, who patronized the affair, were welcomed on entering the ballroom by Capt. G. T. Cart, Lieut. Gerald Harvey, Sergt.-Major Long, Ptes. James Tobin, Gordon Green, Max Shears and others. Several officers and men belonging to the Regiment were present and helped to make the affair a splendid success. The decorations, which included the flags of Britain's Allies, presented a very pretty appearance, and to the music of the excellent band of the C. C. C. the dance, which was thoroughly enjoyed, was kept up till an early hour this morning. During the evening several ladies interested in Red Cross work served refreshments. The proceeds, which we understand reached a handsome figure, will be devoted to the Order of the Lady of the Lamp.

## Narrow Escape.

A man named Peters accidentally fell over Geo. Neale's wharf last night. The cry of "man overboard" immediately went round and a man named Lewis and two others hastened to his rescue and succeeded in getting him to terra firma with the aid of a rope, though after considerable difficulty. Peters was all but gone when he was taken out of the water by his rescuers and another minute or so would have settled him. Stimulants were given him and after a while he revived and was conveyed to his home on Waldegrave Street.

## Fishery News.

The latest reports received by the Board of Trade are:—

June 24th. From A. J. Pearce (Twillingate to Trump Island)—The catch to date is 780 qtls., with 129 for last week. Forty traps and 30 skiffs are fishing. Caplin is plentiful but fishery prospects have not improved, the traps and hook and liners doing poorly. Some days a few fish only are taken and on other days not more than ¼ to ½ bbl. by each trap. Two traps had hauls of 7 and 10 bbls. each. Salmon was scarce the past week.

June 24th. From J. P. Devereux (Cape Race to St. Shott's)—Prospects are very good for jiggers and hook and liners but there has been no fish here for traps to date. Caplin is plentiful. There is a good sign for traps at St. Shott's. The catch is 150 qtls. with 40 for last week. Eleven traps, 49 dories and skiffs and 2 motor boats are fishing.

June 24th. From J. Tuck (Hant's Hr. to New Chelsea)—Traps are not doing very well, the highest catch for one being 20 qtls. The hook and liners had only one fairly good day's fishing. Prospects, however, are a little better than last year and caplin is plentiful. The catch to date is 150 qtls. for 15 traps and 25 boats.

June 24th. From T. McCarthy (Ferryland to Renews)—The fishery prospects have not been so good at this date for a number of years, though caplin has not struck in yet. Five traps, 16 dories, 26 skiffs and 7 boats are fishing. The total catch is 400 qtls.

## Gained 450 Pounds in Five Years.

(New York Herald.)  
A victim of elephantitis, for which there is said to be no cure, Mrs. Annie Frey, thirty-four years old, died last Tuesday night. At the time of her death she weighed 590 pounds.

Because of her weight, for eight months Mrs. Frey had been unable to leave her bedroom, the doors being too narrow. When she retired it required the efforts of nine persons to lift her into bed.

For the burial on Saturday an undertaker has constructed a special coffin and it will be necessary to reinforce a hearse to carry the body to the cemetery. In order to get the coffin from the apartment, which is in an upper floor, one of the windows has been torn out and a derrick will be erected upon the roof to swing the coffin to the ground.

Five years ago Mrs. Frey weighed 450 pounds. From some infection, believed to be the bite of an insect, she contracted elephantitis and began to increase in weight. She went to Bellevue Hospital for treatment several times but failed to be cured.

## Liquid Catarrh Remedies Useless Only Relieve—Never Cure.

They go direct to the stomach, have very little effect on the linings of the nose and throat, and entirely fail to cure. Only by cleansing the air passages, by relieving the inflammation and killing the germs is cure possible. No combination of antiseptics is so successful as Catarrhoxone. In breathing it you send the richest pine balsams right to the seat of the disease. Irritating phlegm is cleared out, hoarseness, coughing and hacking are cured. For a permanent cure for Catarrh, nothing equals Catarrhoxone, get it to-day, but beware of dangerous substitutes meant to deceive you for genuine Catarrhoxone. ## Pansy League.

Government House, St. John's, Nfld.

Dear Sir,—May I in your paper tell the good news. Well, I have had a real exciting week. First I must mention that I have now 227 members. Come along 365. A prize awaits that lucky number; who will be the one to complete the days of the year. Hurry up, please, 365. I thank all those kind friends who sent me such nice letters. Even dogs are confessing they love me, although I am only a cat. Thank you dear Cabot for your kind thought of the Pansy. I looked out for you wearing my pannies, yes, I am quite sure you would enjoy them for I too like Mr. Calver's shop. So do my little Mistresses especially, when pineapples are there. Do you know I found \$19.75 waiting for my league in that nice shop. Many thanks to you all. Do you know our pony Nellie was talking to Mr. Calver's nice little pony who is named Dandy. Nice name. Puts one in mind of smart ties, stiff cuffs, and collars, colored socks and silver swagger cane. But we have almost forgotten what they are like. The boys only wear khaki now, and navy blue. Ah! I feel I have joined the Army now for I had a letter "On His Majesty's Service," and it was just good news from the Nfd. Regiment. Here it is:—

"Hacoursee, Apr. 1st June, 1916.  
"Dear Pansy,—As I have not been anyone (not even my master) for a whole month, I am now permitted to join the Pansy League. My portrait and subscriptions are enclosed.—Boddies, R.P." (R.P. stands for Regimental Pet.)

Many thanks, dear Boddies. You would be very useful to keep the interned Germans inside their Camp. Well, we will forgive you biting your friends. But you seem to be in great haste to help your beloved Russia. Many thanks for your photograph; you do look handsome, but being a Borzoi (a Russian greyhound) that is only right.

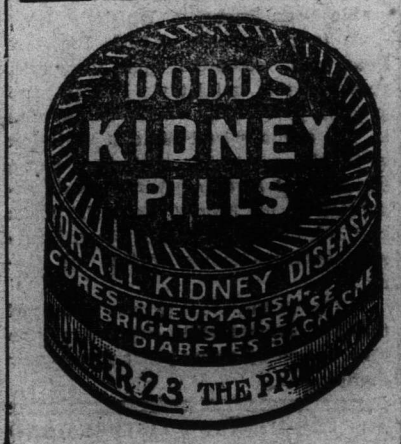

Well, as I have the Navy and Army in my league, I would like the dear little dog the pet of the Wandsworth Hospital to join. I had a nice letter from one little worker for the Red Cross. Its name is Waggle. It is a little Griffon. In her letter she tells me of a kind little girl who set to work to buy wool to make small Gollivog dolls to sell and with the money bought a nice cosy chair to put in the Newfoundland ward at Wandsworth Hospital and with money left over bought two large cakes which were very much enjoyed. Private M. Evans enjoyed the chair as well as others. He must be a nice boy, everyone likes him, I would like to

see him. Waggle also tells me some little friends have knitted socks for the boys at the hospital. First of all they have to save their pocket money. So did their little brothers, and I am sure some big ones did too. I hope Waggle will find some more members for me. I have also to thank Dear Fluff for her nice letter,—she is a useful little kitten. Also Tompkins, he lives near Tatters, but somehow they don't meet very often. No doubt Tompkins does find trees very useful, I do. Dear Jack, what a jolly letter. So you are an orphan and you found that nice home, lucky dog! And you are so thankful for it that you send such kind wishes for the success of the Pansy League. I thank you and so will the little orphans. Well, I must not write more or my kin' friend, Mr. Editor, might even grumble at me. Still, as I have never heard him do so, I am sure he does not know how to do it.

I am going to have a cake with one pink candle and some pannies on it. I shall be one year old June the 29th. I do hope some new members will join on that day, that would be a nice birthday present, and I should enjoy it. So, Khaki already sent me two deer tiny handkerchiefs trimmed with lace, very dainty. L do love them two little folks, have well used them on any nose. No, I did not have the measles; anyhow no spots could be seen. But I have seen some caplin, and those I did enjoy they are so good. I have now in hand \$30. I also have the only donkey in Newfoundland. Her name is Jenny, (I mean the dear useful animal with four legs, and two long ears), and she is really a dear, but she too has a nice home and kind friends, that of course would make her happy summer and winter. With love and many thanks, and many puffs to all,

I am,  
Your loving friend,  
PANSY.

The following have joined the Pansy League: Cats—Frits, Trifle, May, Nancy Black, Blue Bell (of Quidi Vi-

## "MEASLES."

Hundreds of children are suffering from "Measles" at the present time, and one has to be very careful in trying to avoid the complications that often follow them.

A heavy "Cough" is very prevalent during the present epidemic, and "Pneumonia" is the great danger. Avoid this by keeping a bottle of "Stafford's Phoratoxone Cough Cure" on hand.

Stafford's Drug Store (Theatre Hill) is open every night from 7.30 to 9.30.

The above preparation is manufactured only by

## Everyday Etiquette!

"Please tell me at a small wedding, as the minister lives out of town, should his fare be paid before or after the wedding?" asked John.

"It would be thoughtful to send the ticket to the minister, that he may receive it before starting on the journey. He must not be allowed to bear the travelling or hotel expenses," said his friend.

## Dust and Flies.

This is the time of the year when the dirty dust from the streets, and flies are in the air and watching their chance to alight on your bread and bring dirt and disease to your children. Guard against them by buying Lynch's Pan-Dandy Bread, white, and brown, wrapped and sealed by machinery in a dust and germ proof wrapper; it is the only bread in Newfoundland that is made, wrapped and sealed by machinery. Ask your grocer for it. Did you get any of Lynch's Beauty Cake, yet? Oh, what a beauty cake! the best in the land. Ask your grocer for it. June 22nd.

## Fire Alarm.

At 3.20 yesterday afternoon an alarm of fire was sent in from box 227, bringing the Central and West End Companies to Lime Street. A chimney in the house occupied by a family named Ivamy was on fire, but the blaze was put out without the services of the firemen. No damage was done.

## Great Allies Offensive Due in Macedonia

Serbian 130,000 Strong Ready to Strike for Their Native Land—Immense Allied Army at Saloniki—Force Available Placed at 650,000—Enemy Forces Dwindling.

Saloniki, May 23.—The allied offensive in Macedonia, originally scheduled for mid-May and postponed on account of the condition of the Serbian army on its arrival at Corfu, is now confidently anticipated towards the end of June or at the latest early in July.

The activities of the Bulgarians east of the Struma in the past week, and a gradually increasing extension of artillery operations, have led to the assumption, from time to time, that General Sarraill's plans might be hastened, and the allied attack begun at once. This is possible, but the general opinion is that the activities of the Bulgarians are merely in the nature of taking up the slack in their line, and that they will not precipitate an attack.

The outbreak of cholera among the Serbs on their arrival in Caru proved a mixed disadvantage. It made their transport to Saloniki in time to participate in an offensive in May impossible.

Moreover, it reduced their numbers very materially; a great many more Serbs died than will ever be known, not simply from cholera, but from gastritis, malnutrition and sheer exhaustion.

Reconstruction of Serbian Army.  
The Serbian army was in far worse shape than had been supposed. The entire force needed full re-equipment, and the recruits from Serbia and the volunteers from America required drilling.

Marshal Putnik was no longer physically able to command, and many of the leading officers were dead, or too worn out by their late hardships to continue active service and a new set of officers had to be chosen. All of this demanded time. The idea of any offensive from Saloniki in May was therefore given up, and the work of re-making the Serbian army was pushed as rapidly as possible.

This decision, however, entailed an alteration in the general plans of the allies. Instead of striking a first blow in the Balkans to draw off the German reserves from the west front, while a decisive action was being planned in France, it was decided to make the Macedonian offensive of the allies coincide with, instead of precede, the general allied offensive on all fronts, generally supposed to be scheduled for midsummer.

The Serbs are now safely in Macedonia. Already they have begun to take up their positions on the frontiers of their native land, from the Vardar west to Lake Prespa.

Allies Have Huge Army Ready.

There are now some 130,000 first-class Serbian troops in Macedonia. All the old and the unfit have been weeded out. What is left is an army tried and capable. Roughly, there are some 300,000 British and French in Saloniki to-day. The major portion are British. Now that the transportation of the Serbs has been completed, transports are beginning to arrive every day with new contingents of French troops—despite Verdun. General Mahon has gone to Egypt to superintend the selection and embarkment of the larger part of the British armies concentrated there when a German attack on Egypt was regarded as possible. According to experts estimate 200,000 men have been available from this quarter. Their transportation has already begun.

By mid-June there will be soon 650,000 men on the ground here ready for the Macedonian offensive. Experts estimate that that is 600,000 more than sufficient or every purpose of attack.

When the Macedonian offensive was first discussed it was assumed that a certain number of Turks would be available to assist the Bulgars. But since that time the Turks have accumulated troubles of their own at home, and have no stomach for widely extending their line. The Austrians need every possible man for the Russian and Italian fronts; there are no Austrians in front of Saloniki. The Germans, little by little, have withdrawn their forces from Macedonia to fill in the gaps in the home lines made by the losses before Verdun. Only four German divisions remain in the neighbourhood of Saloniki. Even the Bulgars cannot give up their entire attention to General Sarraill's armies, as they have to keep a watchful eye on Roumania. They have, therefore, according to belief here, only some 300,000 men at most to be counted on, to repel an attack from the south, launched by the 650,000 Allies.
