

Municipal Council

WEEKLY MEETING.
The weekly meeting of the City Council was held yesterday afternoon at 7 o'clock. Mayor Cook presided and the following councillors were present: Messrs. Martin, Yimcombe, Collier, and Dowden.

The disposal of the preliminary estimates of the meeting, the following matters were given consideration: Application of the Imperial Oil Company for water supply for testing purposes in connection with tanks at the Southside premises, was referred to the City Engineer, who it was agreed to issue the necessary permit conditional upon the applicants paying an amount for the said supply.

John Leamon asked that compensation and gutter be placed in front of his residence, Monkstown, for which he stated he was prepared to pay proportionate share as to be defined by the Act. In connection it was thought better would be accomplished if the residents would undertake to do the work with the applicant. This was an advantage to pedestrians and at the same time improve the appearance of the property. It was therefore decided that they be asked to contribute proportionate share for this improvement.

A. Brown, Merrymeeting Road, asked of himself and adjoining owner, Mr. Diamond, also asked a concrete curb and gutter and improvements be made opposite the walling, and stated they were prepared to contribute share of cost. Other residents are to be interested in the matter and if they are to have same extended frontage dwellings, the work will be done.

Secretary of the Newfoundland Fire Underwriters called attention to the fact that a new dwelling recently erected on Bonaventure was not in accordance with City Regulations. In this connection it may be stated that services in other such inflammable materials are not permitted in the case of any buildings within the limits. For the information of the public generally, the following is set out:

SECTION 377.—It shall not be lawful to erect or build any building hereafter erected with walls other than metal, slate, asbestos, concrete, cement, or well coated with gravel, or any inflammable material, or to cover the roof of any building heretofore erected with any other such inflammable material.

It was also read the Secretary of the Board of Fire Underwriters with reference to application of Mr. Ernest Chabre, permission to erect garage and workshop, northwest of the City Hall, Port William Grounds, and that said erection was made in accordance with specification, he was of the opinion that there was no danger to the property, and that there was no warrant on increase insurance rates. A priest was called from the principal of the College against the building, and was ordered that a copy of the letter be forwarded him. The tenders were read for the lead pipe and pig lead. In the case of the tender of Messrs. P. Thompson, Ltd., was accepted.

Permitting Canning submitted and regulations with regard to management of Bowling Park for approval of the Council. Same endorsed.

Tenders for the supply of horses to the Sanitary Department were referred to the Sanitary Committee. Following plans were passed, to the Engineer's approval:—
J. B. Baird, Monkstown
J. G. Delaney Avenue; G. Gear Street, Dr. Knight, Bridge Road; Dwellings, W. West, Junction of King's Bridge Street Roads; S. Noseworthy.

Plans were passed provided material used conforms to Section of the Act, as referred to in the application of the Council for permission to build a stable, Plymouth Road, South Officer recommended that the same be used as a coach house. Permit was therefore given, subject to the approval of the Engineer.
