

The Foo, Tuesday, June 26.—Rear-Admiral Kempff reports by a Japanese torpedo boat that the combined forces entered Tien Tsin on Saturday, June 23, sustaining small loss. They started on Sunday to relieve the force which left Tien Tsin on June 10, and which is believed to be surrounded near Pekin.

According to Japanese reports, Admiral Seymour has been captured, and the Ministers have left Pekin, guarded by Chinese soldiers. Their whereabouts are unknown.

No News From Pekin.—The Foo, June 25, via Shanghai.—United States Consul John Fowler has received from Rear-Admiral Kempff the following: "Only one communication from Pekin has reached me since communications were interrupted on June 10. It was dated June 12. No direct or indirect news from the Ministers since. The latest news from the expedition was dated June 12, when the expedition was at Lang Fang. The railroad has been destroyed behind it."

NO RELIEF TO SEYMOUR.—Despatch to the British Admiralty From Taku.

London, June 26.—The Admiralty has received the following despatch from Rear-Admiral Bruce dated Taku, via the Foo, June 24: "The total force which left Tien Tsin with the commander-in-chief, for Pekin, was about 2000, composed of detachments from the allied fleets. No action could possibly be taken to relieve the command."

### A Gloomy Future

Made Bright, and Health and Vigour Restored by the Use of Dr. Chase's Nerve Food.

Headache, backache, sleeplessness, despondency, and irregularities are the result of an exhausted condition of the body and nervous system. No treatment was ever so efficacious in restoring health, strength, vigour, and vitality as Dr. Chase's Nerve Food, the great blood builder.

"Foreigners' opinion here," says a despatch from Shanghai to The Daily Express, dated yesterday, "inclines to believe that the worst has happened to the legations at Pekin, and to Admiral Seymour as well. Even the legations were safe on June 19, this is no guarantee that they are safe now. The situation, in fact, grows more and more gloomy. The entire absence of reliable news from the capital seems to justify the worst construction which can be put upon it."

"Bad news come" from Nanking, where the unrest, is said to be growing hourly. Viceroy Liu Kin Yih has telegraphed the British authorities that he has ordered the five Chinese cruisers which have been lying off the harbor here to proceed to Nanking."

A careful estimate of the number and armament of the Chinese troops around Pekin puts the total at 360,000, and it is calculated that these troops possess 250 7-10 Creusot guns, 18 Krupp and 15 Maxim's. Their supply of ammunition is practically inexhaustible. It has been mainly supplied by a German firm at Carlowitz. Fully three-fourths of the Chinese forces are badly drilled, wholly undisciplined and quite unfamiliar with modern weapons.

Extensive preparations by the allies are going forward. The first regiment of British India, 1,000 men, embarked at Calcutta yesterday, and 835 more marines received orders to go out for English ports. The Amur army corps, ordered out by Russia, numbers 52,100 men, with 84 guns. Japan proposes to land 15,000 men on Chinese territory within a fortnight.

In Command at Hong Kong.—Ottawa, June 26.—Recent events in China bring to mind the fact that General Gascoigne, a former Canadian G.O.C., is in command of the British troops in Hong Kong.

Court Cassini Has Best Chances.—London, June 26.—The Paris correspondent of The Daily Express says: "Four Russian Ambassadors are here, by accident or design—Count Cassini, Ambassador to the United States; Count Kropotkin, Ambassador to Italy; Count Kapnist, Ambassador to Austria-Hungary; and Prince Ourousoff, Ambassador to France. It is said that Count Muraviev's successor at the Russian Foreign Office, will be one of these, and I am informed that Count Cassini stands the best chance."

ONTARIO'S CROPS.—Reports From All Sections Show That This Province Has No Reason for Despondency.—Toronto, June 26.—The Great Northwestern Telegraph Company has secured crop reports from all sections of Ontario, and the result may be summed up, on the whole, favorably. In Eastern Ontario, the prospect is for a good wheat crop and a light hay crop. In Hastings County rain is needed, but fall wheat is looking well; apples will be short, but other fruits promise well. In the Niagara Peninsula, the strawberry crop has been damaged by dry weather, but a full crop of peaches, plums and other large fruit is promised. Wheat promises well also, but the spring grains and hay will be light. In York County, the prospect is good, excepting hay; fruits abundant, except plums.

In Western Ontario, Lambton County reports crops generally good. Wheat has been winter killed in parts of Kent and Essex counties, but the hay crop is thriving, and some fruits—peaches, pears and plums—will yield heavily. Other crops will be an average.

In Wellington County the outlook is good on the whole, and Oxford County is the same. In Perth County there will be a good yield of wheat, other crops, favorable. Bruce County expects all cereal crops above the average, and fruits mostly good.

In Northern Ontario the outlook is favorable, but rain is needed.

In the extreme eastern section of Ontario the lack of rain has caused hay to come down to two-thirds of an average crop, and other products are injuriously affected.

In Elgin County wheat will yield about 75 per cent. of an average, while all spring crops are looking well.

Summing up, the outlook for the Province of Ontario is thoroughly satisfactory.
