CHAPTER XV. So far as the world at large was con-cerned, this was the history of that evening, according to the dramatic critic of the Trumpet:

"Last night was produced at this house or the first time a new musical drama ntitled 'Faith's Reward,' written by entitled 'Faith's Reward,' written by Mr. —, the music being composed by M. Posper. The plot is briefly this," etc. "The music is excellent," etc. "Miss Marchmont, the debutante, however, must be pronounced a failure. She is remarkably pretty, and that is always something; but, unfortunately, in her case, that is all. It often happens that a first appearance calls for indulgence; but when the debutante, far from showing any nervousness gives by her care. ing any nervousness, gives, by her care-lessness of demeanor and apparent in-difference to what she is about, the impression that she thinks herself too good for her audience, for her fellow-actors, and for her part, while her whole style of singing and acting proves that she is very much mistaken, she deserves the reverse of indulgence. We are afraid, however that an actress as careless of however, that an actress so careless of applause will be equally careless of cen-sure; and if that is the case, it will be unnecessary for us to give ourselves the trouble of breaking a fly upon the wheel. We should say that a few years' diligent

The truth is, however, that the preoccupation of the debutante in question was very excusable indeed. She was not like Warden who could grasp at shedlike Warden, who could grasp at shadows without dropping substances; nor could she throw herself into Mr. —'s

STORY OF AFRICAN CAMPS. Washington, March 10.-Dr. Heinrich Muller, one of the European diplomatic representatives of the Orange Free State, called upon Secretary Hay at Washington on Saturday and had a half-hour's interview with him. As in the case of the other Boer representatives, Mr. Muller was received upon distinct understanding that he came in a private capacity, and not as a diplomatic representative. Unlike the preceding callers, he did not address himself to the subject of intervention or mediation, nor did he broach the question of the mule shipments to South Africa. His sole concern was with the concentration camps in South Africa. He told the secretary a pitiful tale of the sufferings of and mortality among the reconcentrados, the death rate among the children in the camps running as high as 50 per cent, according to his statement.

INTERNATIONAL TOURNEY. New York, March 10.-W. A. Gavin and G. C. Lea, of the National Sporting Club of London, arrived Saturday on the St. Paul. "We have come," said Mr. Gavin, "to try and induce American champions of boxing, fencing and wrestling to go over to England during coronation week, and there to meet the best men that Great Britain and other countries of Europe can produce. We chiefly want the champions of the army and navy, but they must get men that are at present in the country's service, and not like Tom Sharkey, who, although formerly in the United States navy, has been a professional for many years. We will also try to get Harvard and Yale to send their best boxers to England and compete against those of Oxford and Cambridge. That old copybook maxim finds its most forceful application in the waste of vitality, which is called "burning the candle at both ends." A woman is often tempted beyond her strength by domestic or social demands. Some day she awakens from this waste of strength to the woeful want of it. She has become weak, nervous and miserable.

For weak, nervous, run-down women there is no better tonic and nervine than Dr. Pierce's Favorite Prescription. It restores the appetite, quiets the nerves and gives refreshing sleep. It cures local diseases peculiarly womanly which undermine the general health. It makes weak women strong, sick women well.

"No doubt you have forgotten me, but after "No doubt you have forgotten me, but after you read my letter you will remember me," writes Mrs. Annie E. Moring, of 238 7th Avenue, S. W., Roanoke, Va. "In the year 1897, I wrote to you for advice, which you gave me free of charge. When I wrote to you I was a wreck; I could not walk straight for pains in my abdomen; could not sit down, lie down, or get any ease at all. I had what was called the best doctor here, but did not get any better until I went through a course of your medicine. I took eight bottles each of 'Favorite Prescription' and 'Golden Medical Discovery,' and ten bottles of the 'Pleasant Pellets,' I tell you the medicine made a cure of me."

Weak and sick women are invited to consult Dr. Pierce, by letter, free. All correspondence is held as strictly private. Address Dr. R. V. Pierce, Buffalo, N. Y. Dr. Pierce's Pellets cure biliousness.

HOCKEY. STRATFORD-U. C. C. GAME. Toronto, March 10 .- The Stratford hockey club has not yet decided whether they will protest their game against Upper Canada College or not. They feel that they are technically right, and are inclined to push the matter. The contention is that the Q. H. It is likely, hovever, that cooler judgment will prevail, and that Stratford will take their setback a better spirit than the first thoughts suggested. The protest would doubtless be thrown out by the executive in any case. The receipts of the Peterboro-Galt

Speaking of the proposed project, Representative Alexander said that the building of such a dam would compel the construction of a channel for deep draft vessels around the rapids and shoals at the head of Niagara River regardless of cost. Mr. Alexander also expressed the opinion that the dam would raise the water from two to three feet above the low water level of the lakes. The section leaves it to the commission to fix the location of the dam.

washington, March 10.—Several days ago Representatives Alexander brought to the attention of the rivers and harbors committee the report of the deep waterways commission, which provides for a dam at the headwaters of the Niagara River. Coupled with the report he presented statistics to show that during the last four years there has been a gradual lowering of the lake level, which led to the appointment of a sub-committee consisting of Chairman Burton and Representative Alexander to draw up a proposition for the construction of a dam.

They completed their report Saturday and it will be made a part of the river and harbor bill that will be reported to the house today. The section provides for the formation of an international commission, composed of three members from the United States and three from Great Britain, to represent Canada, whose duty it will be to report upon the advisability of leating a dam across the Niagara River at the outlet of Lake Erie, with a view of determining whether such a dam will benefit navigation, and if deemed advisable the commissioners shall make such recommendations to their governments tooking toward an agree-
