

THREE MEN KILLED IN INTERCOLONIAL WRECK

Fifteen Freight Cars Roll Down a Seventy-Five-Foot Embankment.

Truro, N. S., March 1.—James Davidson, an intercolonial brakeman, Engineer McLeod, and Fireman McIsaac were killed as the result of the wreck of a special train at Hill's Sliding, near Truro, early yesterday morning. The train left here at 2 o'clock, made up of 25 cars, bound for the north. Fifteen of the cars rolled down an embankment about 75 feet high. The lifeless bodies of Davidson and McIsaac were found in the wreckage. Special trains were dispatched from Truro, Springfield, and Moncton to repair the badly-torn track and remove the wreckage. McLeod was a native of Salmon River, Colchester County, and leaves a wife and five children. McIsaac is 22 years old. He belonged to Truro, and is unmarried. Davidson is also of Truro. He leaves a widow and seven children.

ENGLISH TEACHERS TO VISIT CANADA

Toronto, March 1.—Fifty teachers from England are to make a tour of Canada next summer. Thomas Gault, secretary of the London Teachers' Association, which has 19,000 members, has notified Chief Inspector Hughes that he will personally conduct the party and they will be in Toronto from Aug. 7 to 10.

THE FIRST LAYMAN TO TAKE MISSION OFFICE

Mr. W. C. Senior Will Devote the Whole of His Time to the Baptist Organization.

Toronto, March 1.—The executive of the Baptist Laymen's Missionary Movement have appointed an assistant to Dr. W. F. Stachhouse, as assistant field secretary. The appointee is Mr. W. C. Senior, for many years a businessman of this city. The appointment marks a new era in the history of the movement in Canada, for Mr. Senior is the first layman who has engaged in active commerce to give up his business and accept an office such as this one. Hitherto, although the movement has for its name "laymen," the executive officers have all been clergymen.

The work is not new to Mr. Senior, as for the past year or more he has given a great deal of time and labor in trips to different parts of the Province, and even as far as Brandon, Manitoba, to address churches upon this world-wide movement and its work. He is the first layman of the Toronto Baptist community.

PERILS OF THE FRESHET

Towns in New York State Threatened by Disastrous Floods.

New York, March 1.—Ice broke up in the Hudson River opposite Albany yesterday afternoon, and indications favor a heavy freshet of probably greater duration than in some years, owing to the great mass of snow covering the ground throughout the Mohawk Valley and in the Adirondacks. The water is over the wharves, and unless the weather turns speedily colder it is expected to rise higher.

Warning was given to merchants in time to get their goods to upper stories of buildings along the waterfront, and unless the flood attains a greatly increased height no considerable damage is likely to be done. All small streams tributary to the Hudson River are swollen and overflowing their banks.

At Utica, Herkimer and Poughkeepsie and other towns along the Mohawk Valley the situation is regarded as serious and many plants have been forced to close down because of high water. Patrols are being maintained in all towns to give warning.

TREMOR AT ST. KITTS. St. Catharines, Feb. 28.—Many people have now claimed to have noticed a slight earth tremor Friday night about the same time the supposed earthquake shock was felt in Hamilton. The tremor was very slight and no damage or injury of any kind was done.

THE SUPPLEMENTARIES. Toronto, Feb. 28.—A second set of supplementary estimates will be presented in the Legislature this afternoon by Hon. Mr. Mather. This is made necessary by the recent change in the financial year, so that the present year's estimates will be for the period of the year ending on the 31st of March.

INSTITUTIONAL CHURCHES. Toronto, March 1.—Rev. Peter Bryce gave an excellent paper yesterday before the Methodist ministers of the Institutional Church. His duty, he said, was to save men and women of the man. Its work must be religious, social and educational. "The institutional church," declared the speaker, "would solve the problem of non-church-going."

GREAT FIRE AT BOMBAY. Bombay, British India, Feb. 28.—The grain and oil warehouses were burned today. The fire loss is estimated at \$600,000.

MISERY FROM A DISORDERED STOMACH

INDIGESTION OR GAS SIMPLY VANISHES

Your Out-of-Order Stomach Feels Fine Five Minutes After Taking a Little Diapiesin.

Take your sour, out-of-order stomach—maybe you call it indigestion, dyspepsia, gastric or catarrh of the stomach; it doesn't matter—take your stomach trouble right with you to your Pharmacist and ask him to open a 50-cent case of Diapiesin and let you eat one Diapiesin Triangle and see if within five minutes there is left any trace of your former misery.

The correct name for your trouble is Food Fermentation—food souring. The digestive organs become weak, there is lack of gastric juice; your food is only half digested, and you

SCATHING ARRAIGNMENT OF THE RACE TRACKS

Counsel for Supporters of Anti-Gambling Bill Makes Strong Argument for Measure.

Ottawa, March 1.—The committee on the racetrack gambling bill was called for yesterday to receive the written arguments of counsel in the case. None of the members, however, showed up, and it was known a quorum was not in the city.

Mr. W. E. Raney, counsel in support of the bill, has filed his argument in the case. Had the committee met yesterday an application would have been made by counsel opposed to the bill for an extension of a week to put in their argument. This is based on the ground that the pleading cannot be finished till all the evidence is printed. The latter part of it has not come from the printer. Chairman Miller stated that he would call the committee at a time convenient to the members during the week. It is understood that he is opposed to an adjournment of more than two or three days to allow the defence to file their argument.

Mr. Raney, in his argument, sums up the case of the supporters of the bill for a condemnation of the association of gambling with the noble sport of horse racing, and a plea for the preserving of the young manhood of Canada from the gambling evil.

Race Track Evils. The heart of the evil, he said, was on the racetrack, and the bookmakers controlled the situation. There would be no poolrooms, handbooks, tipsters or touts but for the bookmakers. The supporters of the bill, Mr. Raney declared, were the best interests of the country. The people opposed to the bill included five opulent jockey clubs, three of which were operated and controlled by prominent Canadian gentlemen, and two, those at Port Erie and Windsor, by professional sportsmen hailing from the other side of the line. "In what garments of respectability do you expect the motley crew of gamblers to be licensed?" said Mr. Raney, referring to the bookmakers who infest the racetracks. "Shall we make them fit company for the sons and daughters of the nation? Shall we allow them to extort from them large enough to compensate for the injury they will do to the unborn characters of the rising generation? I leave the jockey clubs to answer that."

Huge Sums Wagered. Mr. Raney figured that the total amount of the bets on six Canadian tracks in 1909 reached the enormous sum of \$22,500,000, and the public was fleeced of the greater part of this money. "The bookmaker is a man who makes his money by betting on the race," he said, "and he is not essential to racing and breeding. Mr. Raney argued. Racing flourished, he said, when there was no bookmaking and as a financial support to the racetracks it was not heard of until 30 years ago, when it began to get control of the American tracks. Racehorse gambling was made an occupation for bookmakers, and the result of the jockey clubs first in the United States. The net results of the cultivation of the thoroughbred for bookmaking purposes, he said, was the lowering of the record by a few seconds, and the degradation of the noblest animal that God had given to men, to be on the one hand an attenuated racing machine, and on the other hand the dam of mules.

Mr. Raney ridiculed Mr. O. B. Sheppard's statements about the trotting horse. He said the total number of trotting associations in Ontario did not number 20, and that the total revenue did not reach \$1,000 a year, outside of fair associations.

Regarding the arguments that without bookmaking the breed of horses would deteriorate, Mr. Raney asked whether better development of the horse was likely to be greatest and to the most purposeful, the direction of scientific and practical experts, such as at the Ontario Agricultural College, or under the direction of the foreigners who owned and ran the racetracks. He pointed out that the business methods of the jockey clubs to put horse racing on as high a social plane as a defense of the morality and legality of their conduct. He pointed out, too, to offset this, the general following of disreputable and undesirable people, and the admitted evil attending the present system. The Governor-General might not have had complete knowledge of the methods employed when he extended his patronage to Ontario race meets. The bookmaker was an "unscrupulous knave."

MANITOBA WON'T COME. [G. M. Service.] It is more than probable that the trip of the Manitoba University hockey team to the east in quest of the Allan cup will be called off. The tie in the intercollegiate League in the East owing to Toronto's defeat the other night, has made it impossible for the game to be played for at least two weeks. This will be too long for the team, as it is too near their examination to take leave of absence. It was hoped that the trustees would rule that the Queen's College, the present holders, would defend the trophy, so as to have the games played this week.

PROSPECTING FOR COAL. Toronto, Feb. 28.—Word was received at the department of lands, forests and mines, this morning that two prospecting parties had started out for the great clay belt of Northern Ontario to prospect for coal. It is said coal somewhat resembling that of Saskatchewan has been found. Rumors regarding the finding of coal in Northern Ontario have been circulated so often and so often proved to be just rumors that no great reliance was placed on the report this time until information regarding the prospecting parties was received with particulars made public, of their personnel, and the grounds on which their expectations are based.

QUEBEC CONSERVATIVES ARE HOT AFTER BORDEN

Big Delegation Going to Ottawa to Have Heart-to-Heart Talk With Leader.

The Toronto World (Conservative) has the following today: Montreal, Feb. 28.—Sir Alexander Lacoste and Hon. Thomas Chase Casgrain at the head of the strongest delegation that can be secured from this city, will leave here this evening for Ottawa, in order to have a heart-to-heart talk with the Conservative leaders at the capital re certain matters of mutual concern. As one man put it, "We are in their pockets, and they are in our pockets. We must talk to them now, for tomorrow it will be too late."

Of course, these Conservative gentlemen who go to Ottawa with a protest deal as to their real intentions, but it is a fact that they will put some serious questions to the leader of the party, R. L. Borden, one of which is, "Do you want to run the Conservative party without Quebec?" If so, we want to know it here and now."

As a matter of fact, the Quebec Conservative claim that no great deal can be indulged in without some leading Ontario Conservative using insulting language towards this province, all of which is so much argument in the hands of the Liberal stump orators and newspaper writers in Quebec and Montreal.

LICKED UP THE LIQUOR

Boy Drinks Quart of Whiskey and Lives To Tell of It.

Toronto, Feb. 28.—One quart of whiskey to himself. That was what 11-year-old Herbert Dawson, 82 George street, had Sunday afternoon.

With several other boys he was playing in a lot next door and discovered the bottle. It had apparently been left by some men who were digging a cellar there.

Young Dawson didn't know how bad the stuff was. Boylike, he sampled it. After downing the fiery liquid he began to feel queer. "There was an awful noise upstairs," said the father, "and that was the first I knew that anything was wrong. Herbert was trying to lick his chums, and he turned on me. We took him to St. Michael's Hospital, and at first thought he was going to die."

At the hospital, however, the doctors got to work with the stomach pump and soon had him cleaned out. This morning he is not much the worse for his experience and was able to talk to his father. The doctors think it was a wonder he was not dead after drinking that amount.

THE BANKING ACT

Amendments Will Probably Go Over Until Next Session.

Ottawa, March 1.—Hon. W. S. Fielding made an announcement in the House yesterday afternoon which practically means that the bill to amend the banking act will not be introduced this session.

Mr. Fielding said it had been proposed to introduce a bill making a comprehensive revision of the banking act. In view of the desire of members on both sides of the House to curtail the length of the session, it would be desirable for him to ascertain further the opinion of the House before making a definite statement. If an early adjournment were desired by members the revision of the banking act could go over till the beginning of next session, as bank charters do not expire until July 1, 1911.

Have you on some part of your body a sore, or eruption, or ulcer, or eczemaous patch which, hidden from the gaze of others, yet causes you hours and hours of pain and inconvenience? Have you tried this, and that, and the other remedy in vain, and are you feeling disheartened and discouraged? If so read the following instances of Zam-Buk's healing power, and apply it to your case:

"I had an ulcerated leg for several years. The ulcers spread all round the limb, which was swollen to nearly twice its normal size. Several doctors treated me. One suggested amputation. None did me any good. Zam-Buk healed the sores!" So says Mrs. Gilmour, of Princess St., Kingston. Or, read this:—"My mother tried many things for abscesses and eruptions, but in vain. In Zam-Buk she found a complete cure." So says Miss A. Coggill, of Wapella (Sask.). Sufferers from these "Hidden Skin Troubles" of any nature should profit by such experiences as this. Zam-Buk is seen at its best when applied to cases which have defied ordinary treatment. Write for trial box, and test it at our expense.

ZAM-BUK AND A MIRACLE OF HEALING

Over and over again Zam-Buk has performed a miracle of healing when applied to sores and skin injuries which have refused to heal under any other form of treatment. Why not let it heal your trouble? Immediately Zam-Buk is applied to a sore or wound or diseased portion of flesh it commences its work in two directions. It accents the exterior, and its antiseptic properties prevent any germs and bacilli from creating trouble. Then the herbal essences and juices so finely purified and concentrated, penetrate the subjacent layers and stimulate the weakened or diseased cells to active, healthy operation. These cells then put forth their "Building" products and replace the diseased outer layer with fresh and healthy tissue. By degrees the whole diseased surface is thus replaced by new healthy skin.

In this way Zam-Buk cures cuts, burns, bruises, ulcers, abscesses, itch, eczema, eruptions, pustules, scurvy, salt rheum, blood poison, and other forms of skin trouble. Zam-Buk also cures piles, varicose ulcers, etc. All druggists and stores sell at 50c per box, or from Zam-Buk Co., Toronto, for price. 6 boxes \$2.50.
