It would be good business for everybody, money for the transportation companies, and mental and physical benefit for the tourist. Even should the war end within the next few weeks, Europe, as a playground, would be impossible this year. In the States they are already recognizing this fact and preparing to get some of the business that rushes off to Europe every summer. And Canada has just as many, if not more, attractions than our American cousins can muster. Canadians need not leave their own country in search of the beautiful or the invigorating. Unlike Mr. Irvin Cobb, of the Saturday Evening Post, who was personally escorted by the Germans to all points of advantage (to the Germans), Mr. Palmer did not use his newspaper credentials to get close to German officialdom. Instead, he travelled as an American tourist, and when the little American flag in his lapel was covered by his overcoat, he was frequently mistaken for a Britisher. It was then that the Prussian teeth were bared. A ship ceased so suddenly. woman, suspecting him of being British, would not sell him a sandwich. He was given many "Down with the English" glances. taurant, but in Germany to try critieism was to be "encircled with eyes blazing censure." As an American, too, he was the victim of free insults, being told that "only the dollar talked in America" and that therefore the United States was not in the war. For shame that Uncle Sam should not help downtrodden, oppressed Germany!

By imperial edict, the sentiment that nothing is changed by the war, is inforced in Germany. Business as usual! Germany must win! The man who circulated news of defeat was subject to a year's imprisonment. The people laugh by law, though secret tears stain their faces, and are cheerful to the point of being hysterical. It all struck Mr. Palmer as a false courage. Germany's grief is forbidden by the Kaiser, yet she is eternally asking "How long do the British say the war will last?" And she shudders before she can force a sneer, when the answer comes "Three vears."

It all struck Mr. Palmer as terribly pitiful. The egotistic boastfulness of the Germans is belied even by their excessive optimism. Britain figures the possibility of disaster; Germany has only the delusion of divine intervention

TO WILLIAM, ON HIS TRIUMPH.

[BY ERIC ROSS GOULDING.]

Now comes the fifth month since your Prussian horde Plunged thro' the Belgian land and on to France, Hacking your path of culture with the sword In order to enhance

The glory of your throne and prove by might The Prussian claim to bask within the sun But have you yet attained the dazzling height Where your ambitious run?

You have accomplished this: you show the beast Is rampant in the hearts of those who pray To Harnack's god and in the hearts, at least; Of those who sought "The Day."

Your god is proven false, and still "The Day" Is distant and remote as ever now. How shall you alter this? What can you say? Twere wise to cry "Enow!"

The prestige of your armies is as nought;

Your fleet still cowers in its base at Kiel. All, all you've done is this: you vainly sought To make brave women kneel. In piteous supplication lest you throw

Your bursting missiles from the upper air To kill them and their babes and thusly show Your strength, you vile Corsair! Art, Faith and Charity-oh, what are these

When each is shattered by your vengeful strength?
A day of reck'ning comes; exacting fees Are yours to pay at length. Here are your total triumphs wrought by force: Your people ruined and a world laid waste; Insulted beauty mixing your remorse

In cups of bitter taste! It were a greater triumph if you trod Your homeward way and, upright in defeat, You prayed in tears forgiveness of your God. Yea, 'twere your noblest reat.

But as things stand your pinnacle of fame
Is still unscaled; your throne of vast estate Is empty, too; hence try to feel your shame Before it is too late!
