TALESMAN DROPS OUT

Answer Given to Julge's Question in McNamara Case Disqualifies E. T. Nelson

LOS ANGELES, Oct. 16 .- When seem ingly caught on its first big snag, the McNamara murder trial in an instant today twisted itself out of a situation which has worried opposing cousel since last Wednesday, and for the remainder of the day at least, went ahead joy-

fully. "Could you set aside your opinions sufficiently to enable you to give a fair and impartial verdict?" was the question put to Talesman Z. T. Nelson by Judge Bordwell, supplementing the earlier examination by Clarence Darrow, Nelson had been asked many hundreds

answered all of them without clearing "I don't just know," he replied to this one, and in an instant District Attorney John D. Fredericks for the state

of questions to elicit his views, and had

withdrew opposition to a challenge previously made by the defense on account of bias. "There was not anything else to after that question and answer," said Mr. Fredericks later. "The talesman disqualified himself. There was no use

putting it up to the court." In the course of Nelson's lengthy examination he had said he believed the Times building was blown up by dynamite, and that he had an opinion of the guilt or innocence of McNamara. As the defense contends both that the Times was blown up by gas and that McNamara has an alibi, these opinions

were extremely distasteful to it. The state rested the case on the ground that under the California criminal code Nelson could not show such views without being disqualified. Judge Bordwell himself took a hand in the discussion preparatory to rendering an

When court closed today Nelson was on his way home, and two other talesmen had been examined by the defence. One of them, John W. Roberts, a real estate dealer, was found satisfactory and Robert F. Bain, a carpenter, also was examined without raising any contest. Nevertheless it was the fairly general opinion tonight that the Nelson case would be duplicated before a jury

> KAMLOOPS, B. C., October 16 .- As an KAMLOOPS, B. C., October 16.—As an indication of the great mineral wealth which may be disclosed by the construction of the C. N. R. through the Thompson and North Thompson valleys, a fine seam of coal was uncovered today rear Battle Bluff tunnel by the grading crew. The point where the seam was uncovered is approximately that indicated in Dr. Dawson's report covering the seam which was opened up south of Kamloops by Maj. Vauhan some twenty years, and has been was opened up south of Kamloops by Maj. Vauhan some twenty years, and has been traced northward to Kamloops lake. This is a very much more important find, as the deposit is evidently of commercial proportions and of superior quality. Should further investigation prove the apparent values to be real there is no doubt that a first-class field will be opened an without delay, as the quantity of coal needed for the driving of the big tuned would varrant an immediate opening of the field.

ALEUTS SUFFERING

U S. Revenue Cutter Tahoma Brings Dismal Report on Condition of

The Aleutians in this particular part of the islands are gradually dying off and there remained on the entire Attu island only 36 half-starved thinly clad men and women, half-starved thinly clad men and women, nearly all of whom are afflicted with dis-ease of some kind. Explosive Placed by Unknown Man on Piers of Bridge Over Which President's Train was to Pass

SANTA BARBARA, Cal., Oct. 16 .-What is pronounced by Sheriff Nat W. F. Wines of San Francisco, special agent for the Southern Pacific railto dynamite an 800-foot bridge 25 miles north of here, over which Presiden Taft's special train passed early today was frustrated by the vigilance of a Mexican bridge watchman at 1:30 clock this morning.

urned from the scene tonight and reported that the evidence of the plot was complete. Although the suspect has completely disappeared, the officers say they have certain clues, and already have several

Sheriff Stewart and Mr. Wines re-

men on the case. Secret service men have been summoned from San Francisco and were placed on the hunt. It is certain that the man has not yet left the mountains, and a close watch

is being kept on all passes. The bridge, which it was planned to reck, is a fine structure 800 feet long. About midnight the Mexican watchman was passing over the bridge on his regular rounds. When about, half way across he noticed the dim outline of a man in the gully beneath the bridge. He called to the man, who immediately started to run. The Mexican drew his revolver and fired several shots, but all went wild. He then made an investigation, and finding a package of lynamite, at once notified the sheriff's ffice here by telephone. The sheriff notified the railroad offices, and Wines, who was on the president's special, was ordered to get off at Santa Barbara and make an investigation.

When the officers arrived at Capitan they were taken immediately to the spot by the watchman. Inside a boxlike section of the steel pier 21 sticks of dynamite were found. The explosive was hidden from view except that a fuse ten feet long hung out.

In a similar position at the next pier 18 sticks of dynamite were found with fuse attached. Both of these piers were about the middle of the bridge. Further inspection disclosed two sticks of dynamite lying to one side of the bridge, evidently at the spot where the man had been arranging the dyna mite and attaching the fuses.

The officers said the dynamite would test 40 per cent, enough, they declared, to blow the bridge to atoms. They believed the watchman came along just about the time the suspect was placing the dynamite in the second pier, as this is about the spot where the watchman says he first saw the man. From a position taken directly above the dynamite, on top of the bridge, the man could have commanded a distant view of any train approaching. With the ten feet of fuse lighted he could easily have had time in which to place himself beyond any danger of harm by the explosion, and if an experienced man with dynamite, he could have so timed his fuses as to destroy any train he wished.

The Mexican watchman told the of ficers that he saw a strange man two days ago at Gaviota, but he paid no particular attention to him. Just what clues, if any, the officers have, they refused tonight to divulge but they expressed the hope that there

would be developments soon. E. E. Calvin, vice president and ger eral manager of the Southern Pacific. tonight wired Sheriff Stewart that he had offered \$5,000 reward for informa tion that would lead to the arrest of the alleged dynamiter.

Among Insurgents.

This action arises out of the sale of assets of the Kootenay Fruitlands Company last April for \$80,000. Pight for Control DENVER, Cole, Oct. 16-Whatever opposition the Gould family had to an increase of two members in the board of directors of the Denver and Rio Grande Railroad company disappeared today when the stockholders voted with practical unanimity in favor of the plan which had been proposed by the Standard Oil interests. Virtually all the stock voting was by proxies held by J F. Vaile, general counsel for the road. Mr. LaPollette Endorsed

CHICAGO, Oct. 16 .- Two hundred progressive Republicans in their first national conference, endorsed the candidacy of Senator Robert M. La Follette of Wisconsin for president and declared for a direct primary as a means for the expression of a presidential choice. The endorsement came in the shape of a resolution framed in part by former Secretary of Interior James R. Garfield, who, it was held by the delegates, appeared as expressing the views of Theodore Roosevelt and who it was feared would not consent to a declaration in favor of any individual. The reso lutions followed a day of La Folette enthusiasm, in which his name was cheered repeatedly as it was mention ed by a dozen speakers.

TORONTO, Oct. 16.—By a rising vote ingly repudiated the principle of the "Ne Temere Decree" recording its senti ment and voice in the following resolu

"Resolved: That this Ecumenical Methodist conference repudiate he principle that any church decree should have the power to override the civil law and that any marriage consummat ed, by any lawfully authorized person whatever the religious beliefs of contracting parties shall be valid an

inviolable." The remarkable feature of the passing of the resolution was the total absence of any vituperation. Rev. Simpson John son simply presented the resolution from the platform. Not a voice spoke to the resolution. Rev. Dr. Humphreys, chairman, called for a rising vote and the matter was accomplished.

Four other Important resolutions were animously adopted; one on divorce, one of temperance, one on opium and one on desecration of the Lord's Day. All were of the nature of protests and of recommendations and petitions to governments and congresses.

London's Paupers.

LONDON, Oct. 16 .- The statement of persons in receipt of relief in London just published shows that there are 102,485 paupers, of whom 73,231 are in the workhouses and 29,254 (including 658 children boarded out beyond the unions and 11,717 other children under 16 years of age) are on the outdoor lists. The total is lower by 13,468 than that for the corresponding period of 1910, and this is chiefly due to the re moval of the pauper disqualification under the Old Age Pensions Act. . The number of paupers represents a rate of 22.7 per 1,000 of the population,

Employers Organize. SAN SEBASTIAN, Spain, Oct. 16 .-Employers of all classes are endeavoring to form some kind of an organiza tion which will enable them to combat the revolutionary aims of the General Confederation of Labor. The new organization will probably be known as the General Confederation of Manufacturers and Merchants, and the members of it hope in time to be able to fight the labor confederation on equal terms. Some Bilbao firms have already taken steps to form the new organization. The Anarchist and Socialist press is violently attacking the Premier, Senor Canalejas, and threatening him with terrible reprisals." The prime minister, however, says that no menaces of this nature can prevent him from doing his duty.

Kitchener Anecdotes.

LONDON, Oct. 16.—There are some interesting stories of Lord Kitchener told in Nash's Magazine by Mr. Sydney Brooks. "Sunstroke? What the devil does he mean by having sunstroke?" is given as the classic stance of Kitchener's attitude toward the weaker vessels. A favorite captain of his was once entrusted with an important commission. There was a delay in executing it through his horse casting a shoe. "Very sorry," was Kitchener's comment, "but I can not rest my plan of campaign on a horse's shoe or an officer's carelessness." He has a grim, laconic humor. "Keep the gun," he is said to have wired to the War Office authorities who were pressing a certain weapon upon him; "I can throw stones myself." To an officer who kept on reporting that as a result of his various brushes wth the enemy "several Boers were seen to fall from their saddles" Lord Kitchener sent the polite inquiry, "I hope when they fell they did not hurt themselves." "What is your taste in hairpins?" is said to have been the query with which he annihilated a dandifled officer. He goes instantly to the essentials. "Sorry to report loss of five men through explosion of dynamite" was the gist of a telegram from the front put into his hands one day. "Do you want any more dynamite?" was his immediate answer. Men do the impossible at a word from him. Twelve hours in which to carry this dispatch? You must do in six"and the officer who had asked for the twelve hours did it in five.

Still another hunting fatality is reported from Kamloops, the victim being one Ernest Heywood. The deceased was hunting with a younger brother, when the gun of one or the other was let fall, being discharged, and the contents striking Heywood in the chest with fatal effect.
