### PROVIDE EMPLOYMENT.

While there are a number of residents of Campbellton who need assistance at this particular time, we are glad to say that in this respect we are more fortunate than other towns, and with a little planning all can be looked after.

What most of those needing assistance require is not charity but a means of earning something to keep the home fires burning. They do not want charity or to be placed on the town's poor list.

Is there no possibility of organizing some undertaking which will provide work for a number of men. Could the town finance the getting out of stone and gravel for next season's work and

then employ only those who are in absolute need.

Perhaps if pressure was brought to bear the C. N. R. might be induced to begin the construction of the Central Street subway, or do some other necessary work to provide employment at this particular time.

If at all possible some means of employment should be provided so that those who are actually in need could earn enough to help them through the winter.

### GET BUSY.

Less than three weeks to nomination day and as yet no plans have been made for representation about the council board. It is time something was being done.

So far as some of the councillors are concerned they are evidently determined to offer again, no matter how much opposition there may be to them. In fact they have been preparing the way for their election. It rests with the electors to say whether or not they are willing to have them at the board for another year. We would like to see a deep interest taken in the election. By all means let us have two full tickets in the field so that the electors may have an opportunity of casting a ballot and voting for the best men.

### THE GIFT OF GIFTS.

Christmas the universal gift day is past. Most of us are back on the same undertaking which will provide work for a number of men. Could the town finance the getting out of stone and gravel for next season's work and

some gift which meant much.

Although Christmas is past there are some gifts and their givers we will not forget. The most expensive gift in our collection is not always the one most treasured. The one we will cherish most will be the one we received from the person who meant most and meant best by its presentation.

Also the degree of utility to which that gift may be adopted, may carry much weight in the concentration of our esteem. Ma's old sugar bowl or teapot, though hacked by long service, may be the medium between today and some yesterday of other years, spanning the gulf of time through reminiscence, thereby renewing fond memories of some tender, loving relationship which brings tears of gratitude to her eyes and a momentary glow of that old happiness to her heart.

The gift of the Ladies' Aid and other women's societies of Campbellton and the ladies organizations of the surrounding districts to the Soldiers' Memorial Hospital and indirectly to the country at large, is a gift well-worthily of a place in the highest class of gifts.

The Ladies' Aid of our town have created with their own strength and presented to the S. M. H. a gift of nearly \$30,000.00, an accomplishment unprecedented in the history of a town of our size. The ladies organizations of many country districts have done praiseworthy work in raising funds for the new hospital.

If we consider retrospectively, the number of entertainments, suppers, etc., and the work and worry involved to make each undertaking a success and thus realize the splendid amount of money that has been raised, we will readily appreciate the outcome of their long and untiring campaign as a gift expressive of highest motive and worthy of our deepest gratitude.

The S. M. Hospital, when it is completed will be not only a memorial to those who so richly deserve commemoration but will also stand as a monument to the unselfish industry and unflinching diligence of the women of Campbellton and vicinity who actively participated in its erection.

A London correspondent of the Toronto Mail and Empire mentions the names of Colonel Grant Morden and Lord Beaverbrook for the High Commissionship. The correspondent writes: "Lord Beaverbrook's name was mentioned some time ago, but it is doubtful whether he now desires the appointment. He told the correspondent recently that he had given up finance, having made enough money, and that he had renounced politics as too dull. However, of the Canadians in Great Britain who had not forgotten their nationality, he is probably the best and most distinguished. The feeling here is that the next High Commissioner should be a prominent business man, with an energetic faith in the Dominion's possibilities."

### EDITOR'S MAIL

Campbellton, Dec. 26, 1921.

## SCHOONER WRECKED IN MIRAMICHI

Caught By Drifting Ice And  
Is Forced On the  
Beach.

Chatham, N. B., Dec. 22.—The Norwegian schooner Alka, which sailed out of this port on Dec. 6 and so had put back into the river on account of a leak, was badly damaged by the ice at Burnt Church last week. She was caught by the drifting flow and swung around on the beach. Her cargo was removed on Dec. 7 when she put back on account of the leak. At present she is full of water and has a bad hole on the port side and the plates are badly wrecked. Port Warden M. Goggin, Harbor Master Walls and G. McEachern with the insurance company's inspector, looked over the vessel today and from their report it is probable that the vessel will be a total loss.

Time is taken up with his lengthy illegal and useless motions, filling pages with them which are a disgrace and have had to be rescinded. All chairmen of committees as well as town officials have been assailed. Charges of dishonesty, etc., many times he has been forced to retract. I hope when the wards select their representatives they will see that the men at the Council Board will be gentlemen, and have due regard for all laws.

In town we all quite understand their long and untiring campaign as a gift expressive of highest motive and worthy of our deepest gratitude.

The S. M. Hospital, when it is completed will be not only a memorial to those who so richly deserve commemoration but will also stand as a monument to the unselfish industry and unflinching diligence of the women of Campbellton and vicinity who actively participated in its erection.
