

Maritime Farmer.

FREDERICTON, N. B., November 12, 1884.

An Exhibition of Cowardice.

After all the arrangements had been made for the removal of the Stock Farm to York after the hay, roots, etc., on the 10th, the Stock Farm had been advertised for sale, after the Messrs. Murray had disposed of their stock, and preparations for the reception of the Provincial stock on their property had been almost completed. Mr. Blair suddenly arrives at the conclusion that removal shall be deferred, perhaps, for all time.

Has there ever been a greater exhibition of political cowardice, than this? It may be said that the sudden closing of the river is the cause of the postponement of the removal. That excuse will not do. The stock could have as well been shipped by train. Only the other day over four hundred head of cattle were sent from Sussex to Regina, in the North West, by train, and they arrived there safely too, so the closing of the navigation will not avail Mr. Blair. It cannot be that Mr. Blair, at this late hour, postpones the removal because he desires to get the sanction of the Legislature. In the article from his subsidiary organ, which we publish elsewhere, Mr. Blair says that "if the Telegraph" does not see the difference between a "government pledging the public funds" to a new enterprise which the Legislature had not been asked to sanction, and an administrative act done in reference to an existing institution, "it must have suddenly become deficient in common sense."

Mr. Blair, who has the constitutional right to remove the Stock Farm without seeking the permission of the Legislature, then, why does he not now act up to that belief. But that story will not go down with the people.

We are told that Mr. Blair screens himself behind the alleged fact that the Murrays have refused to sign the lease of their property, but that story will not be swallowed by the people either. The simple truth of the matter is, Mr. Blair has been backed down by the *Telegraph*, and other opponents of the removal. He fears that his position will be jeopardized, if he runs contrary to the wishes of these people, and he has "squaked," to use a forcible but not very elegant term, just at the moment when his constituents expected him to show firmness and decision. Does anybody presume to believe that Mr. Blair would have all arrangements for the removal of the Farm made, before he knew whether the Murrays would consent to the terms the Government offered?

Mr. Blair's cowardice on this occasion will not be forgotten by the people of York. How marked a contrast there is between his course on the Stock Farm question and that of Mr. Fraser when the Seat of Government was likely to be wrested from this city. There was no cowardice in Mr. Fraser. He would have chosen rather to have sacrificed his position than that those who sought to remove the capital should succeed, but Mr. Blair is composed of different material. He will look out for Mr. Blair first, last, and all the time, and his constituency may go to the dogs, if Mr. Blair is not preserved.

This is Mr. Blair's explanation in full, as published by his organ last night. "An unexpected difficulty has arisen in connection with the Stock Farm through the refusal of one of the parties to sign the lease of the Murray Farm, and as this will occasion some delay, the Government may be compelled to abandon their arrangements for removing the stock from the City farm for this fall. The lateness of the season and the probability that the navigation of the river may close at any time render it unwise to take any chances which depend upon the weather."

Bah! What a sickly excuse. Mr. Blair, you could bring the stock to Fredericton by train, no matter about the weather, but you are afraid to face the *Telegraph*. It has terrified you, and in yielding to its threats you have proved unworthy of the constituency you represent, and made an exhibition of cowardice never before seen in provincial politics.

But if the Murrays would not sign the lease, why blame the weather. The river is open now. The weather then is not guilty. It must be those wicked Murrays!! There is just one other paragraph that appears in Mr. Blair's organ which we reproduce for future reference, and in doing so, we apologize to our readers for quoting so extensively from such a source. It is this:—

"We do not imagine that the hostile criticisms of the *Telegraph* will lead him (Blair) to ask his colleagues to reconsider the matter in order that he may vote against his own constituency; neither do we imagine that the other members of the Government are prepared because it suits the *Telegraph* to make a strong plea for Kings, to reconsider their decision as to the Murray Farm, made after the advice of the Board of Agriculture had been received, and after the views of the *Telegraph* in the premises had been expressed."

Which meant at the time, that Mr. Blair would not back down, which read now with the knowledge that Mr. Blair has backed down, is excellent evidence of Mr. Blair's political dishonesty and cowardice.

Ruffian Journalism.

The contemptible attack of Mr. Blair's subsidiary organ, on the memory of the late Dr. Elder, which we reproduce elsewhere, is a good example of the dirty work his hiring press is doing for him. We were prepared for almost anything from the Attorney General, but scarcely expected he would set his press up to defame Dr. Elder, who was known and respected from one end of the province to the other. Mr. Blair has no gratitude. He attained power by Dr. Elder's assistance; that gentleman is scarcely dead in his grave before Mr. Blair sets his bloodhounds on, to laurate the memory of his departed colleague. In all the annals of political and personal persecution in New Brunswick, there is no instance parallel in atrocity, to the article which we refer to, and which was published by parties who confessedly acted directly in Mr. Blair's employ, and under his control.

He hath Spoken.

At last, Hon. James Mitchell has heard discussing a public question. At the meeting of the St. Croix Agricultural Society the other day, Mr. Mitchell said that the expenditure of the \$16,000 annually granted for the purpose of holding the parish fairs throughout the Province, was hardly justifiable in the present condition of affairs. So Mr. Mitchell would wipe out the grant for Agricultural fairs! Please Mr. Mitchell, what do you mean by the "present condition of affairs." Is it the Egyptian question, the Scott Act agitation, the Presidential election, the hemlock bark regulation, or the "condition" of the Local Government because many of its best friends have gone back on it. Does Mr. Mitchell propose reforming the Agricultural Department, or what excuse does he offer for actually opening his mouth before the public. Does he propose no longer remaining a second edition of Mr. Fred. Thompson, as the political tail of the Attorney General, and intend striking out on a line of policy for himself before he is indignantly snuffed out by the innumerable electors of Charlotte? If Mr. Mitchell intends pursuing this latter course, the people may regard him as something more than a genial, good natured clown, with few enemies, and less capacity for a public position.

Mr. William Crockett, besides making every effort to complete the destruction of the School system, is adding new burdens to the people, by sweeping changes in the text books to be used in the public schools. Within one month he has prescribed three new text books—one on Geometry, one on Geography, and one on Canadian History. The old books must be cast aside, and parents, many of whom can ill afford to purchase all the necessary books for their children, will be compelled to provide them with three new text books.

In the Presidential election, Cleveland carried the South, and of the Northern States, New York, Connecticut, Indiana and New Jersey. The most remarkable figuring gives him two hundred and nineteen votes of the electoral college against Blair's one hundred and eighty-two. The whole election hinged on New York, which Cleveland carried by a majority of only one thousand, in an electorate containing a million and a quarter of votes.

The extracts from the *Telegraph* and Mr. Blair's Fredericton organ, which we place side by side elsewhere, are rather interesting reading. This little family quarrel has not been without amusement to the public, who may perhaps, recognize in it, the old story of the judges, that "when rogues fall out, honest men get their due."

This is the first occasion on which York has lowered its colors before St. John. It was Mr. Blair that did it.

Mr. Blair's Gerrymandering Bill.

Mr. William Crockett, the temporary Superintendent of Schools, has promulgated for the *Royal Gazette*, Mr. Blair's measure for gerrymandering the electoral districts of New Brunswick as follows:—

The Board of Education has been pleased to make the following Order:—

Ordered, That by virtue of the power vested in the Board of Education under the provisions of the Act of the 12th of June, 1874, in relation to the County of Kings, the number of Inspectors of Schools in the County of Kings be fixed at six, and the Inspectors of Schools be named and enlarged, and shall be composed of six persons, to-wit:—

DISTRICT NO. 1.—The Counties of Restigouche, Gloucester, Northumberland, and the Parishes of St. John's, St. Mary's, and St. George's.

DISTRICT NO. 2.—The County of Kent, the Parishes of St. John's, St. Mary's, and St. George's, and the County of Westmorland.

DISTRICT NO. 3.—The County of Westmorland, the Parishes of St. John's, St. Mary's, and St. George's, and the County of Kent.

DISTRICT NO. 4.—The Parishes of Springdale, Kentville, and the County of Kings, and the County of Westmorland.

DISTRICT NO. 5.—The County of Kings, the Parishes of St. John's, St. Mary's, and St. George's, and the County of Westmorland.

DISTRICT NO. 6.—The County of Kings, the Parishes of St. John's, St. Mary's, and St. George's, and the County of Westmorland.

DISTRICT NO. 7.—The County of Kings, the Parishes of St. John's, St. Mary's, and St. George's, and the County of Westmorland.

DISTRICT NO. 8.—The County of Kings, the Parishes of St. John's, St. Mary's, and St. George's, and the County of Westmorland.

DISTRICT NO. 9.—The County of Kings, the Parishes of St. John's, St. Mary's, and St. George's, and the County of Westmorland.

DISTRICT NO. 10.—The County of Kings, the Parishes of St. John's, St. Mary's, and St. George's, and the County of Westmorland.

DISTRICT NO. 11.—The County of Kings, the Parishes of St. John's, St. Mary's, and St. George's, and the County of Westmorland.

DISTRICT NO. 12.—The County of Kings, the Parishes of St. John's, St. Mary's, and St. George's, and the County of Westmorland.

DISTRICT NO. 13.—The County of Kings, the Parishes of St. John's, St. Mary's, and St. George's, and the County of Westmorland.

DISTRICT NO. 14.—The County of Kings, the Parishes of St. John's, St. Mary's, and St. George's, and the County of Westmorland.

DISTRICT NO. 15.—The County of Kings, the Parishes of St. John's, St. Mary's, and St. George's, and the County of Westmorland.

DISTRICT NO. 16.—The County of Kings, the Parishes of St. John's, St. Mary's, and St. George's, and the County of Westmorland.

DISTRICT NO. 17.—The County of Kings, the Parishes of St. John's, St. Mary's, and St. George's, and the County of Westmorland.

DISTRICT NO. 18.—The County of Kings, the Parishes of St. John's, St. Mary's, and St. George's, and the County of Westmorland.

A BUDGET OF NEWS.

Culled, Clipped and Collected from Everywhere.

The Cunard and Guion Steamship Companies have decided to amalgamate.

The floods in Eastern Spain are causing great damage to the crops and villages.

The Marquis of Londonderry, and Postmaster General, have been elected to the House of Commons.

The statue of the late Hon. George Brown is to be erected this year at Toronto.

Use the safe, pleasant, and efficient worm killer, Mother's Worm Expeller, nothing equals it. Procure a bottle and take it home.

A detachment of 400 men of the Royal Scots regiment embarked from Woolwich on Friday for the Cape, to assist in keeping the boers in order.

On Monday, Timothy Hicks and A. W. Fawcett of Sackville, and George Forster of Amherst, arrived in the city with a small party of cattle to Halifax for shipment to England.

Two twenty-four pounder guns have been supplied by the Imperial Government for the use of the Canadian Militia.

BAIRD'S FRENCH OINTMENT cures itching of the scalp, or any eruptions thereon, soothes the growth of the hair, a small quantity applied to the head of children keeps them in a clean and healthy condition.

The Canadian voyageurs complain that the boats furnished them are flimsy affairs and at all adapted for the service for which they are constructed. The boats are built of light materials, and the crews are inexperienced.

Charles Cushing, aged 94 years, and his wife, aged 88, and their son Samuel Cushing and family, and Charles Cushing (son of the late Charles Cushing) are in the city.

NO LADY WHO DELIGHTS IN FLOWERS, and those who love to do so, will be interested in the new catalogue of the *Flora*, published by the *Flora* Society.

It is stated that the Archbishop of Quebec has been elected to the See of Montreal.

The treaty that was made by Admiral H. W. H. on behalf of England, with King John of Abyssinia, is now threatened with collapse.

THE DIAMOND DYES always do more than they claim to do. Color over that old dress. It will look like new. They are warranted. 10c.

An experimental shipment to England of Canadian manufactured cotton goods was made by the *Canadian* on the 10th inst.

The result has fully realized the expectations of the shippers, the goods having been sold for an average of 20 per cent, in advance on the selling price in this country.

John C. Haliburton, for many years clerk of the legislative council of Nova Scotia, is dead, aged 78 years. He was the eldest son of the late Sir John Haliburton, chief justice of that province.

There is a rumor among us that the Duke of Wellington was once in great danger of being drowned at sea. It was when he was in the *Albion*, bound for India.

At a parliamentary election in South Wales, Mr. Lloyd, a Conservative, was elected by a majority of 1178, to succeed Sir Herbert Edwardes, who had been elected by a majority of 1178.

Advice from Assam states that there has been a breakdown in the transport service in the Nila, which threatens to retard the advance of the expedition from Wady Halfa to the end of the Nile.

Robert Bonner, writing of the groom who takes care of Maud S., says:—"He sleeps on a cot in her stall, and one night recently, when the groom was worn out, he turned out, he purposed to go to bed with very little clothing on him, knowing that if he turned out during the night he would be cold, and would wake up, when he could put additional clothing on the mare."

The British Government has decided to limit the increased expenditure on the new railway from London to Birmingham, to £2,000,000, opposing the proposal to divert the sinking fund to defray the cost of new ships.

Mr. Duffies Fowry of Providence, B. I., visited the city on the 10th inst. He is a well-known figure in the city.

A violent attack was made on Wednesday night in Montreal on a hall in which Mr. Chénier intended to deliver a lecture.

Col. Landall Pratt of Hyde Park, Quebec County, N. B., though 73 years old, was elected to the House of Commons.

Mr. Chénier, who was elected to the House of Commons, is a well-known figure in the city.

POINTED PARAGRAPHS.

News Notes and Notions of Everything.

The Car smokes four packages of cigarettes daily.

Horse flesh is now sold in London as well as in Paris.

There are forty-four religious denominations in the United States.

There are 500 pictures in the \$15,000 china set used at the White House.

Another Hubbard may have been a good old lady, but she must have been rather well off.

German proverb says:—"Keep your eyes wide open before marriage and half shut afterward."

According to the latest results of the finest instrumental tests an electric signal travels at the rate of 18,000 miles per second.

The sacred flag, blessed by the Mahdi and presented to Queen Victoria, was so dirty and so badly that she had it removed to the attic.

The Chinese are excluded from the public schools of San Francisco, and Halifax, by the act of the Legislature.

The tallest bird known to scientists was found by Professor Huxley in the lower crevice deposits near Paris. It was over twelve feet in height.

The Chinese soldiers receive large rewards for the heads of Frenchmen slain in capture. The motto of the Celestial warrior is: "Tails win—heads you lose."

Fifteen different machines are used in the manufacture of instant shoes, but all the machinery in the world can not make a shoe that a healthy boy won't kick out in a week.

Admiral Courbet, the French commander-in-chief, has been promoted to the rank of a soldier, but changed to a military rank in the navy after reading one of Capt. Murray's novels.

The origin of All-Fools' Day (April 1), it is said, may be traced to the mischievous pranks of the boys of the city.

Most of the society reporting for the New York fair press is done by amateurs. A nephew of Mrs. William B. Astor is one of these amateurs, and the majority of them are amateurs.

One of the most remarkable telegraphic feats on record was the recent delivery of a message from Melbourne, Australia, to London in two hours and ten minutes.

It is said that the Astors alone own 3,000 houses in New York, all of stone and iron. The lowest rental they get is \$1,500 per annum, and the highest is \$10,000, which some of their enormous town buildings bring.

HANINGTON'S QUININE WINE AND IRON, a tonic, is said to be the best of its kind, and gives strength to the whole system. See that it is "Hanington's," the original and genuine.

There is romance even in fashionable life, for in Philadelphia recently the officiating clergyman at a wedding had at one time been engaged to the bride, but she had changed her mind.

There is a curious way of deciding law in the State of New York. The judge, put under water, and the one starting longest wins the suit. In the country, both parties get into hot water and then kept there as long as possible.

The Duke of Wellington was once in great danger of being drowned at sea. It was when he was in the *Albion*, bound for India.

It was bedtime when the captain of the vessel "The Duke" was in the harbor, and he was over with us. "Very well," answered the Duke, "then I shall not take off my boots."

In the Russian town of Sveran there is now living a man whose age is 127, a fact which is not likely to be disputed.

A grand wedding in India is remarkable for many things, but no feature of it is more extraordinary than the universal hospitality which is shown to the guests.

When the first of the great earthquakes in the city of San Francisco occurred, the earthquake was so violent that it was feared that the city would be destroyed.

Every one who has tried "Scientific" will be convinced that it is the best of its kind, and gives strength to the whole system. See that it is "Scientific," the original and genuine.

One of the most popular exhibits at the London Exhibition was the dairy. The cows were kept in a dairy, and the milk was sold for the purpose of the exhibition.

An Italian Advertiser has invented a simple method for the 100-ton gun; that is, by throwing forward seventy-five smaller projectiles, which in turn burst, shattering the target.

A remarkable example of the facility with which the human mind can be deceived, was given by a young lady of 17, who was entirely deaf. Her teacher told her to say "the word" and she said "the word."

It is reported in Italy that the Pope has been elected to the papacy, and that he is a well-known figure in the city.

A German engineer claims to have discovered a means of condensing or expanding the gas in a balloon by the use of carbonic acid.

By this discovery not only could the enormous weight of the balloon be reduced, but it could be made to rise or fall at will.

Mr. H. McCaw, Ontario House, writes:—"My wife was troubled with Dropsy and Rheumatism for a long time; she was very much distressed, but did not get any relief until she used my medicine."

A new species of wild horse, found in Central Asia, has been brought to St. Petersburg.

It is said that the Duke of Wellington was once in great danger of being drowned at sea. It was when he was in the *Albion*, bound for India.

Col. Landall Pratt of Hyde Park, Quebec County, N. B., though 73 years old, was elected to the House of Commons.

Mr. Chénier, who was elected to the House of Commons, is a well-known figure in the city.

"See How these Christians Love each other."

The "Telegraph's" Compliments to Blair and McLellan, and Blair's Compliments to the "Telegraph."

Look on this Picture. And then on This.

We venture a few more words as to the position of affairs and the attitude of the principal actors in the little scheme for the aggrandizement of York. By the three principal actors, we mean the Attorney General, the Provincial Secretary and the Secretary for Agriculture. What is the record of the Attorney General in this matter?

He was opposed to having a Stock Farm at all at the outset. It is true he is reported as saying in the last session of the Assembly that he would support the removal of the Stock Farm to York. We have to regret that his memory by some citations from a speech delivered by him in the Assembly on 10th March, 1882, the report of which appears in the *Daily Telegraph* of the 15th of the same month. Mr. Blair then said:—

"But can be done by private enterprise and effort can be done more successfully and economically than by an executive, and holding this in view, the stock farm cannot be removed to York, but the Government will support the removal of the stock farm to York, if it can be done by private enterprise and effort can be done more successfully and economically than by an executive, and holding this in view, the stock farm cannot be removed to York, but the Government will support the removal of the stock farm to York, if it can be done by private enterprise and effort can be done more successfully and economically than by an executive, and holding this in view, the stock farm cannot be removed to York, but the Government will support the removal of the stock farm to York, if it can be done by private enterprise and effort can be done more successfully and economically than by an executive, and holding this in view, the stock farm cannot be removed to York, but the Government will support the removal of the stock farm to York, if it can be done by private enterprise and effort can be done more successfully and economically than by an executive, and holding this in view, the stock farm cannot be removed to York, but the Government will support the removal of the stock farm to York, if it can be done by private enterprise and effort can be done more successfully and economically than by an executive, and holding this in view, the stock farm cannot be removed to York, but the Government will support the removal of the stock farm to York, if it can be done by private enterprise and effort can be done more successfully and economically than by an executive, and holding this in view, the stock farm cannot be removed to York, but the Government will support the removal of the stock farm to York, if it can be done by private enterprise and effort can be done more successfully and economically than by an executive, and holding this in view, the stock farm cannot be removed to York, but the Government will support the removal of the stock farm to York, if it can be done by private enterprise and effort can be done more successfully and economically than by an executive, and holding this in view, the stock farm cannot be removed to York, but the Government will support the removal of the stock farm to York, if it can be done by private enterprise and effort can be done more successfully and economically than by an executive, and holding this in view, the stock farm cannot be removed to York, but the Government will support the removal of the stock farm to York, if it can be done by private enterprise and effort can be done more successfully and economically than by an executive, and holding this in view, the stock farm cannot be removed to York, but the Government will support the removal of the stock farm to York, if it can be done by private enterprise and effort can be done more successfully and economically than by an executive, and holding this in view, the stock farm cannot be removed to York, but the Government will support the removal of the stock farm to York, if it can be done by private enterprise and effort can be done more successfully and economically than by an executive, and holding this in view, the stock farm cannot be removed to York, but the Government will support the removal of the stock farm to York, if it can be done by private enterprise and effort can be done more successfully and economically than by an executive, and holding this in view, the stock farm cannot be removed to York, but the Government will support the removal of the stock farm to York, if it can be done by private enterprise and effort can be done more successfully and economically than by an executive, and holding this in view, the stock farm cannot be removed to York, but the Government will support the removal of the stock farm to York, if it can be done by private enterprise and effort can be done more successfully and economically than by an executive, and holding this in view, the stock farm cannot be removed to York, but the Government will support the removal of the stock farm to York, if it can be done by private enterprise and effort can be done more successfully and economically than by an executive, and holding this in view, the stock farm cannot be removed to York, but the Government will support the removal of the stock farm to York, if it can be done by private enterprise and effort can be done more successfully and economically than by an executive, and holding this in view, the stock farm cannot be removed to York, but the Government will support the removal of the stock farm to York, if it can be done by private enterprise and effort can be done more successfully and economically than by an executive, and holding this in view, the stock farm cannot be removed to York, but the Government will support the removal of the stock farm to York, if it can be done by private enterprise and effort can be done more successfully and economically than by an executive, and holding this in view, the stock farm cannot be removed to York, but the Government will support the removal of the stock farm to York, if it can be done by private enterprise and effort can be done more successfully and economically than by an executive, and holding this in view, the stock farm cannot be removed to York, but the Government will support the removal of the stock farm to York, if it can be done by private enterprise and effort can be done more successfully and economically than by an executive, and holding this in view, the stock farm cannot be removed to York, but the Government will support the removal of the stock farm to York, if it can be done by private enterprise and effort can be done more successfully and economically than by an executive, and holding this in view, the stock farm cannot be removed to York, but the Government will support the removal of the stock farm to York, if it can be done by private enterprise and effort can be done more successfully and economically than by an executive, and holding this in view, the stock farm cannot be removed to York, but the Government will support the removal of the stock farm to York, if it can be done by private enterprise and effort can be done more successfully and economically than by an executive, and holding this in view, the stock farm cannot be removed to York, but the Government will support the removal of the stock farm to York, if it can be done by private enterprise and effort can be done more successfully and economically than by an executive, and holding this in view, the stock farm cannot be removed to York, but the Government will support the removal of the stock farm to York, if it can be done by private enterprise and effort can be done more successfully and economically than by an executive, and holding this in view, the stock farm cannot be removed to York, but the Government will support the removal of the stock farm to York, if it can be done by private enterprise and effort can be done more successfully and economically than by an executive, and holding this in view, the stock farm cannot be removed to York, but the Government will support the removal of the stock farm to York, if it can be done by private enterprise and effort can be done more successfully and economically than by an executive, and holding this in view, the stock farm cannot be removed to York, but the Government will support the removal of the stock farm to York, if it can be done by private enterprise and effort can be done more successfully and economically than by an executive, and holding this in view, the stock farm cannot be removed to York, but the Government will support the removal of the stock farm to York, if it can be done by private enterprise and effort can be done more successfully and economically than by an executive, and holding this in view, the stock farm cannot be removed to York, but the Government will support the removal of the stock farm to York, if it can be done by private enterprise and effort can be done more successfully and economically than by an executive, and holding this in view, the stock farm cannot be removed to York, but the Government will support the removal of the stock farm to York, if it can be done by private enterprise and effort can be done more successfully and economically than by an executive, and holding this in view, the stock farm cannot be removed to York, but the Government will support the removal of the stock farm to York, if it can be done by private enterprise and effort can be done more successfully and economically than by an executive, and holding this in view, the stock farm cannot be removed to York, but the Government will support the removal of the stock farm to York, if it can be done by private enterprise and effort can be done more successfully and economically than by an executive, and holding this in view, the stock farm cannot be removed to York, but the Government will support the removal of the stock farm to York, if it can be done by private enterprise and effort can be done more successfully and economically than by an executive, and holding this in view, the stock farm cannot be removed to York, but the Government will support the removal of the stock farm to York, if it can be done by private enterprise and effort can be done more successfully and economically than by an executive, and holding this in view, the stock farm cannot be removed to York, but the Government will support the removal of the stock farm to York, if it can be done by private enterprise and effort can be done more successfully and economically than by an executive, and holding this in view, the stock farm cannot be removed to York, but the Government will support the removal of the stock farm to York, if it can be done by private enterprise and effort can be done
