A Portuguese Idea of Cricket. When the English residents of Lisbon and Oporto started cricket in Portugal years ago, the new game excited great wonder among the natives, the Portuguese people, who find no pleasure in athletic sports or in muscular exercise generally, being puzzled at the idea of wealthy people engaging in such laborious work. On the occasion of the first match at Lisbon Links Links Lower between the two clubs, the Lisbon Journal

thus reported it: To-morrow there was to come off an inthe cricket clubs of Lisbon and Oporto. The object of the formation of these societies is the playing of the game of cricket-match an active, running, driving, jumping game,

What is Catarrh?

From the Mail (Canada) Dec. 15.
Catarrh is a muco-purulent discharge caused by the presence and development of the vegetable parasite amæba in the internal lining membrane of the nose. This parasite is only developed under favorable circumstances, and these are: Morbid state of the blood, as the blighted corpuscle of tubercle, the germ poison of syphilis, mercury, toxemea, from the retention of the effeted matter of the skin, suppressed perspiration, badly ventilated sleeping apartments, and other poisons that are germinated in the blood. These poisons keep the internal lining membrane of the nose in a constant state of irritation, ever ready for the deposit of the seeds of these germs, which spread up the nostrils and down the fauces or back of the throat, causing ulceration of the throat, up the eustachian tubes, causing deafness, burrowing in the vocal cords, causing hoarseness; usurping the proper structure of the bronchial tubes, ending in pulmonary consumption and death.

Many attempts have been made to discover a cure for this distressing disease by the use of inhalants and other ingenious devices, but none of these treatments can do a particle of good until the parasites are either destroyed or removed from the mucous tissue.

Some time since a well known physician of forty years' standing, after much experimenting, succeeded in discovering the necessary combination of ingredients which never fails in absolutely and permanently eradicating this horrible disease, whether standing for one year or forty years. Those who may be suffering from the above disease should, without delay, communicate with the business managers, Messrs, A. H. Dixon & Son, 305 King street west, Toronto, and get full particulars and treatise free by effelosing stamp.

THE GREAT DR. DIQ LEWIS

The very marked testimonials from College Professors, respectable Physicians, and other gentlemen of intelligence and character to the value of Warner's SAFE Cure, published in the editorial columns of our best newspapers, have greatly surprised me. Many of these gentlemen I knew, and reading their testimony I was impelled to purchase some bottles of Warner's SAFE Cure and analyze it. Besides, I took some, swallowing three times the prescribed quantity. I am satisfied the medicine is not injurious. and will frankly add that if I found myself the victim of a serious kidney trouble I should use this preparation. The truth is, the medical profession stands dazed and helpless in the presence of more than one kidney malady, while the testimony of hundreds of intelligent and very reputable gentlemen hardly leaves room to doubt that Mr. H. H. Warnet has fallen upon one of those happy discoveries which occasionally bring help to suffering humanity. His Outspoken Opinion.
