movement and spring trade is expected to show a better average than for some time. No boom, however, is anticipated, but a good and profitable trade is looked for. In fact this applies to other lines besides drygoods. In boots and shoes trade for immediate requirements has improved, while in leather, hides and wool there have been no material changes. Payments seem to be on the whole satisfactory, and in some branches of trade? "How do they view the prospects for spring they are reported unusually good. This applies particularly to drygoods. In this trade the second week in March is an important one from a monetary point of view. So far the result has been most gratifying payments as a rule being much in excess of last year. SHORTER TERMS OF CREDIT.

Wholesale Drygoods Merchants Decide Upon a Line of Action to Secure Them. The wholesale drygoods merchants of the city have at last decided to take definite and united steps to shorten the terms of credit. This was done yes terms of credit. This was done yesterday afternoon at a meeting of the drygoods section of the Board of Trade, over which Mr. Stapleton Caldecott presided. The understanding arrived at was mutual and no effort will be made to enforce arbitrary rules. It was felt that affairs had arrived at a stage when shorter terms were absolutely necessary, and the carrying out of the idea will be left to the good sense of the different firms.

A communication was received from the Fire Underwriters' Association conveying the information, already made known through the columns of The World, that the section's application for lower insurance rates could

The rivalry between the city fce-dealers for public patronage premises to be unusually keen. It is bred of the civic authorities allowing bay ice to be cut for certain purposes. The dealers who handle both the bay and the pure commodity will be compelled to peddle the impure in wagons painted white with this inscription in large black letters painted on the side: "For Cooling Purposes Only," Those who touch not the unclean thing will of course have no need of such wagons, and they are determined to make the best of it by feeding the suspicions of the public as to the probability of the dual dealers surreptitiously dropping an occasional block of the bay article among those for domestic use. With this end is view the pure ice dealers are freely distributing literature bearing on the matter. OWNERS OPEN TO SELL ORlease first-class property object to
our giving out particulars to anonymous
advertisers—as it often leads to unpleasant mistakes—besides being in most instances unsatisfactory to both seller and
buyer. Owners dislike having their
homesteads inspected by people altogether unknown to themselves and unknown to their agents—under the guise
of purchasers, etc.; and to prevent this
we must first know something of the
parties to whom particulars are given.
