Perience.
The Subscribers beg to return their sincere thanks for the very flattering encouragement they have received since commen-cing business, and to assure their customers. they will spare no endeavors to deserve a son, of Cape Breton, Nova Scotia, dated Farm, situated on Murphy's Ridge, Parish they will spare no endeavors to deserve a continuance of those favors so liberally bestowed.: May 23 1865.

FOR ALL THE PURPOSES OF A

FAMILY PHYSIC.

There has long existed a public demand for an effective purpative pill which could be relied on as sure and perfectly safe in its operation. This has been prepared to meet that demand, and an extensive trial of its virtues has conclusively shown with what success it accomplishes the purpose designed. It is easy to make a physical pill, but not easy to make the best of all pills—one writer should have mone of the objections, but all the advantages, of every other. This has been attempted here, and with what success we would respectfully submit to the public decision. It has been unfortunate for the patient hitherto that almost every purgative medicine is acrimonious and irritating to the bowels. This is not. Many of them preduce so much griping pain and revulsion in the system as to more than counterbalance the good to be derived from them. These pills produce no irritation or pain, unless it arise from a previously existing obstruction or derangement in the bowels. Being purely vegetable, no harm can arise from their use in any quantity; but it is better that any medicine should be taken judiciously. Minute directions for their are in the several diseases to which they are applicable are given on the box. Among the complaints which have been specifilly cured by them, we may mention Liver Complaint, in its various forms of Janadice, Indigestion, Languor and Loss of Appetite, Hatlessness, Irritability, Bilious Headacke, Billous Eever, Pever and Ague, Pain in the Side and Loins; for, in truth, all these are but the consequence of diseased action in the liver. As an eperfent, they afford prompt and sure relief in Costiveness, Piles, Colic. Dysentery, Humora, Scrotula and Scurry, Colds with soreness of the body, Oheers and impurity of the blood; in short, and and every case where a purgative is required.

They have also produced some singularly successful cures in Rheumantism, Gont, Dropsy, Gravel, Eryspelas, Palpitation of the Heart, Pains in the Back, Stomach, and Side. They should be freely taken in the spring of taken in the spring of the year, to purify the blood and prepare the system for the change of scasons. An occasional dose stimulates the stomach and bowels into healthy action, and restores the appetite and vigor. They purify the blood, and, by their stimulant action on the circulatory system, removate the strength of the body, and restore the wasted or diseased energies of the whole organism. Hence as occasional dose is advantageous, even though no serious derangement exists, but unccessary dosing should never be carried too far, as every purgative medicine reduces the strength, as every purgative medicine reduces the strength when taken to excess. The thousand oses is which a physic is required cannot be enumerated here, but they suggest themselyes, to the reason of every body; and it is confidently believed this jill will asswer a better purpose than any thing which has hitherto been available to mankind. When their trues are once known, the public will no longer deabt what remedy to employ when in need of a cathartic medicine.

AYER'S PILLS.

body prevhile, besides it on generates serious and often fatal diseases, whoch might have been avoided by the timely and publicieus use of a good purgative. This is alike true of Colds, Feverish symptoms, and Bilous derangements. They all time to become or produce the deep seated and formidable distempers which load the hearses all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pilifans been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors, and Patients, has shown results surpassing anything hitherto known of any medicine. Cures have been effected beyond belief, were they not substantiated by persons of such exalled position and character are to forbid the suspicion of untruth. Among the civinent gentlemen to whom we are allowed to refer for these facts, are

Among the chinnent gentlemen to whom we are allowed to refer for these facts, are Phop. VALENTINE MOTT, the distinguished Sur-goon of New York City. Doer: A. A. HAYSS, Practical Chemist of the IRA L. MOORE, M. D., on eminent Surgeon and hysician, of the City of Lowell, who has long used

schuactes.

In a L. Moorre, M. D., en eminent Surgeon and Physician, of the City of Lowell, who has long used them in his extensive practice.

Il. C. SOLTINIVEK, Esq., one of the first merchants in New York City.

C. A. DAVIS, M. D., Sup't and Surgeon of the United States Marine Hospital, at Chelsea, Mass. Did space permit, we could give many hundred such names, from all parts where the Phils have been used, but evidence even more convincing than the certificates of these even more convincing than the certificates of these even more convincing than the certificates of these eminent public men is shown in their effects upon trial.

These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of the drugs themselves, but of the medicinal virtues only of Vegetable remedies, extracted by chemical process, in a state of purity and combined together in such a manner as to insure the best results. This system of composition for medicines has been found in the Cherry Pectoral and Fills both, to produce a more efficient remedy than had bitherto been obtained by any process. The reason is perfectly obvious. While by the old mode of composition, every medicine is burdened with more or less of acrimonious and injurious qualities; by this, each individual virtue only that is desired for the curative effect is possent. All the inert and obnoxious qualities of each autostance employed are left behind, the curative virtues only being retained. Hence it is self-evident the effect should prove as they have proved more purely remedial, and the Fills a surer, more powerful antiside to disease than any other medicine hencewn to the world.

As it is frequently expedient that my medicine should be them of the world.

As it is frequently expedient that my medicine should be them of the feet of the curative field behind the proven to the world.

As it is frequently expedient that my medicine and the proven

Their life consists is their mystery. I have no mysteries.

The composition of my preparations is laid open to all men, and all who are competent to judge on the subject, freely acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men to be a wonderful medicine before its effects were known. Many emment Physicians have declared the same thing of my Pills, and even more confidently, and are will-leg to certify that their anticipations were more than realized by their effects upon trial.

They operate by their powerful influence on the internal viscers to purify the blood and stimulate it much healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to leadth, and by correcting wherever they exist such derangements as are the first origin of disease.

Being sugar wrapped they are pleasant to take, and being purely vogetable, no harm can arise from their use in any quantity.

For minute directions, see the wrapper on the Box.
