These Reports, in addition to the usual information required respecting the condition of Agricultural Societies within their range, should describe the various soils of the County; modes of farming; value of land; amount of tillage and average of crops; breeds of live stock; implements and machines in use; methods of preserving and applying manures; sketch of past progress, with suggestions for further improvement. All statistical information should be condensed as much as possible, and when practicable, put into a tabulated form. The main object of each report should be to afford any intelligent stranger that might read it, a concise, but yet an *adequately truthful* view of the Agricultural condition and industrial pursuits of the County.—While all unnecessary particulars are to be avoided in the preparation of these Reports, *completeness* should, as much as possible, be constantly kept in view. The Reports must be sent in to the Secretary of the Board of Agriculture on, or before, the 1st of April 1852; and the premiums will be paid into the hands of the Treasurer of the respective County Societies, that may win the same. The Board will publish the whole.
