from 1,200 to 1,000 hhds of low grocery at 7 to to 81c for Cuba, and 8je to 8je for Barbadoes. Holders now ask higher figures and Barbadoes are held at 810 to ec, with very reduced stocks in first hands. Refined is in steady demand, and quotations have been advanced to or exushed A, and to on all other grades.

MULASSES-Ilas again been inactive but is firmly held at previous quotations.

FISH Herrings are inactive and unchanged, and the few rales made, of a retail character liuli barrels, however are still scarce and enquired for Draft and table Cod have not been wanted, but prices remain as before.

FRUIT-Layer Raisins have been quiet, and sales which have been small were at about previous rates, noiders avincing no disposition to force sales or reduce their prices. Valentias have had more enquiry, although the market is just now in the favour of buyers. Other fruits are unchanged.

Rics.-There has been a little more enquiry, but prices are nominally unaltered. A fair sample of liangeon is offering at \$4. Some round lots are reported sold at even lower, but the precise figure is not named. Arracan and first-class Rangoon, howover, are still held at full figures

SALT-Is held firmly at from 9210 to 950 for round lots, both of coarse and stoved, stocks being now comparatively light, with a steady domand.

SPICES .- Cassia, Pimento and Black Pepper, are still scarce; as are also Nutmegs, for which there has been an active enquiry during the past week, with increased firmness in price. Really good limed are held at from 450 to 600, unlimed, 4210 to 45c. Other spices unchanged.

THE HARDWARE TRADE.

Crathern & Caverhill. Evans, John Henry. Hau, any & to.

I freland, W. H.
| Morland, Watson & Co.
| Hobertson, Jan.

THE business of the past week hat been of a very limited character, both in heavy and shell goods, with few sales making, and those reported being only of small lots. Prices are nominally unchanged.

MONTREAL PRODUCE MARKET.

Akin & Kirkpatrick, rawford, James, Dawes Brothers & Co.

Hobson, Thomas, & Co. Mitchell, Robb. Baphael, Thoma, W.

HE general features of the trade are without notable change. Receipts have been light and the transactions for the most part of a purely retail character.

From - Receipts since close of navigation have been barely adequate to the supply, and though the demand is of a restricted nature, holders have been increasingly firm for the lower grades, and gradually advancing their protensions. Strong Super towards the close sold for \$6 15 to \$5.20 and for broken lots of the more favourite sponging brands \$5.25 was secured. Ordinary Canada Super together with brands from Western wheat range from \$5 to \$5.15, but meet a more restricted demand. Extras and hancies continue dull at former rates. Fancy is freely offered at \$5 10, and Extra at \$5 40 to \$5 50. No. 2 and grades below engage little attenuon and continue without i material change in vaine. Bags are steady but quiet, former rates still ruling.

"THEAL None but broken joss changing hands, and rates generally unohanged.

WHEAT-Receipts have been light and mostly direct to millers. Supplies previously in store are being gradually reduced and a growing inquiry experienced both for export and milling purposes. No sales of Red Winter have been reported and rates are nominally \$1 12 to \$1 121 Upper Canada Spring has sold within the week at rates ranging from \$1.12 to \$1.15. 2,000 bushels going at the close at out-ide rate Western No. 2 has sold at \$1 @ to \$1 In

PRASE are practically nominal at 930, to 91c per 66 he, only occasional cars coming in which are taken for local uso

COARSE GRAINS are purely number in absence of transactions.

Your -Supplies though limited have been ample for the wants of the trade and rates have declined, latest sales of Mess have been at §21 to \$21 50 Small lots of Prime are being picked up by Jobbers at \$18 60 to 414 No Primo Mes offering. Hogs. Supplies thus far have been basely adequate to consumption wants and former high rates still rule. Alere have however been indications of improving supplies towards the close and the prospect of lower rates.

LARD is dull as d sord in small lots at 12c, to 18lc., rates still tending lower

TALLOW - Since close of pavigation the demand has fallen off, and rates have partially declined closing

dull at 90 to 9 c.

BUTTER—I here is a demand for choice both for the states and local use, but the bulk of what is in stock being too interior for chiber, is for the time unsateable, though offered at some decline on the late

rates
Ashus -Pots have continued steady, clusing at \$5.60 to \$6.50 to \$4.50 for seconds. Pearls have eligibily advanced latest sales being at \$5.60 to \$5.50 for instead, and \$5.05 to \$5.10 for

Calongo — The 100 from manufacturing establish ments of Chicago employ 15,000 men, to whom is paid \$12,000,000 yearly for their labor. The capital invested is \$15,000,000 and the annual product is \$25,00,000. The establishments are imployed principally in manufacturing rair-rad supplies, and agricultural, mining, and mechanical tools. Chicago will become one of the largest manufacturing contres in the country just as rapidly as it is possible for a city to grow in any industry for which it has the most commanding advantages. With 35,000 square miles of cheap coan underlying the entire southern two-thirds of Illinois, with cheap canal transportation for it to Chicago, with cheap water frieights for the iron ores of Lake Superior and Missouri to the same point, and with the rapid growth in commerce, capital and labor, which is secured by her position as the focus where the commerce of all the Lakes meets the commerce of all the Northern Mississipp and the kar West, Chicago must become one of the great manuacturing centres, no only for from, but also for copper and weellen goods.
