

LISTERINE

The word Listerine assures to the Medical Profession a non-poisonous antiseptic of well-proven efficacy; uniform and definite in preparation, and having a wide field of usefulness.

On account of its absolute safety, Listerine is well adapted to internal use and to the treatment of Catarrhal Conditions of the mucous surfaces.

For Using

**LISTERINE in the Treatment of Diseases
of the Respiratory System**
will be mailed to your address upon application.

LAMBERT'S LITHIATED HYDRANGEA!

RENAL ALTERATIVE—ANTILITHIC.

The ascertained value of Hydrangea in Calculous Complaints and Abnormal Conditions of the Kidneys, through the earlier reports of Drs. Atlee, Horsley, Monkur, Butler and others, and the well-known utility of Lithia in diseases of the uric acid diathesis, at once justified the therapeutic claims of LAMBERT'S LITHIATED HYDRANGEA when first announced to the medical profession, whilst subsequent use and close clinical observation has caused it to be regarded by physicians generally as a very valuable Kidney Alterative and Antilithic agent in the treatment of

Urinary Calculus, Gout, Rheumatism, Cystitis,
Diabetes, Hematuria, Bright's Disease,
Albuminuria, and Vesical Irritations Generally.

LAMBERT PHARMACAL CO., St. Louis.

SCOTT'S EMULSION

IN

CONVALESCENCE

Doctor-

at once,

If you have never used Scott's Emulsion in convalescence let us send you samples
