

Welland Canal Enlargement.

Notice to Contractors.

SEALED Tenders, addressed to the undersigned, and endorsed "Tender for the Welland Canal," will be received at this office until the arrival of the Eastern and Western Mails on FRIDAY, the 1st DAY OF SEPTEMBER next, for the deepening and completion of that part of the Welland Canal, between Ramez's Bend and Port Colborne, known as Section No. 31, embracing the greater part of what is called the "Rock Cut."

Plans showing the position of the work, and specifications for what remains to be done, can be seen at this office, and at the Resident Engineer's Office, Welland, on and after FRIDAY, the 18th DAY OF AUGUST next, where printed forms of tender can be obtained.

Contractors are requested to bear in mind that tenders will not be considered unless made strictly in accordance with the printed forms, and, in the case of firms, except those are attached the actual signatures, the nature of the occupation and place of residence of each member of the same; and further, an accepted bank cheque for the sum of four thousand dollars must accompany the respective tenders, which sum shall be forfeited if the party tendering declines entering into contract for the work, at the rates stated in the offer submitted.

The cheque or money thus sent, in will be returned to the respective contractors whose tenders are not accepted.

This Department does not, however, bind itself to accept the lowest or any tender.

By order,

A. P. BRADLEY,

Secretary.

Clark's Hay Elevator, and Carrier.

WHAT OUR CARRIER HAS DONE.

Nineteen loads of hay weighing over a ton each have been unloaded in three hours each load being pitched off at four forks full in from two to four minutes. We have testimonials from reliable farmers stating that they have unloaded 2,500 pounds of hay in less than two minutes. Hay can be pitched into the barn from the gable end as well as from the barn door, and can be pitched from the bar as well as into it.

FOR STACKING we guarantee that our Carrier has no equal. In the far West it has been used quite extensively with the best possible results.

ANY FORK can be used with the Carrier, and as most every farming section has its favorite fork, we do not presume to say which is best.

THE CARRIER adjusts itself to any position on the tracks so that it makes no difference whether the load stand under the track or twenty feet away. This is an advantage possessed by few Carriers, and is a very essential one if you wish to fill the barn floor with hay or grain.

Our Offer.

Upon written application we will send one of our Hay Carriers on trial, to any responsible farmer in the United States or Canada, with the understanding that if it performs its work fully up to the warranty, he shall pay us our advertised price for it. If it does not perform according to contract, it may be returned to us, we paying the return freight charges.

Price of Hay Carrier, Complete, \$15.00.

THE CHARTER.

The following are some of the powers conferred by the Charter under the Great Seal of the Dominion of Canada:

- Acquiring a tract or tracts of land in the North West Territories of Canada, with a view of colonizing and settling the same.
- With power of contract with the purchasers and settlers of the lands that intoxicating liquors or alcoholic beverages shall not be manufactured or sold in the settlement.
- To purchase, take, lease, or otherwise acquire any real and personal property and any rights or privileges necessary or convenient for the Company in any part of Canada.
- To develop the resources of the lands acquired by building, planting, clearing, cultivating or otherwise dealing with the same.
- To aid, encourage and promote immigration into the property of the Company, and to colonize the same, and for the purpose aforesaid to lend and grant any money.
- To aid by way of bonus or otherwise in the construction and maintenance of a line or lines of steamboats or barges from and through the lands of the Company to some point or place on or near and in connection with an existing or established line of railway, and to make, provide and carry on, use and work tramways, telegraph lines, canals, reservoirs, aqueducts, roads, streets, and other works which may be deemed expedient in promoting the objects of the Company.
- To buy, manufacture and sell all kinds of goods, chattels and effects required for the Company, or by any person who may settle on the property of the Company.
- And for such purposes to have all necessary powers for borrowing and investing monies, selling and disposing of real and personal property, and such other powers as may be necessary and incident thereto throughout the Dominion of Canada.

Every boiler tested to 100 pounds, cold water pressure.

OVER 600 SOLD

In 5 seasons. The favorite engine.

The sectional safety boiler is manufactured expressly for the "North West" trade. This boiler is so arranged that it is readily taken apart in sections enabling purchasers to clean thoroughly every part of it and prevent burning out. We know from experience this is absolutely necessary with the alkaline waters of the great Western prairies. Largely used by the Pacific Railway Company and all the large Colonization and Rancho Companies.
