A MIDLAND MIRACLE.

NARRATIVE OF FACTS CONNECTED WITH THE CASE OF MRS. F. A. CHASE.

A Sufferer for Over Ten Years-Treated by the Best Doctors in the Place, Only to Grow Worse-The Particulars of Her Recovery as Investigated by a Reporter of the "News-Letter."

Laff of the nineteenth century has wit-Men still young have witnessed hods it human life, are taken almost as a matter of course. New and wonderful discoveries are made almost daily; we quickly adapt ourselves to the changed endition, and even wonder that the inventive genius of man had not long ago pencimited the secrets of nature, almost daily being brought to our aid. While studes been greater, than in the science medical treatment. disciplance. Od methods have entirely disciplanced, the days of big nauseous days cripping and bleeding, have passed away, and diseases formerly held to be away, and diseases formerly held to be medical seases formerly held to be medicale now speedily yield to the treatine at early dance medical science. For more than a year past there have appear of mittee columns of the "News-Letter," from time to time, the particulars of cares that have been the wonder of all who were acquainted with the persons ristered. Perhaps the case of Mr. John Murshalt, of Humilton, was more firmly safened in the public mind, for the reason that he had been paid a total disability claim of \$1,000, only after having been pronounced incurable by a score or more of men, who are leaders in the addical profession. As publisher of the "Canadian Workman" the writer has a knowledge of the proceedings under which a disability claim, is paid and wire it is understood that all such claims have to pass the scrutiny of an investigating committee, the Local Medical Examiner, the Grand Medical Examiner, the Finance Committee and the Grand Ledge Offic rs, it will be seen that in the first of an investions.

MINERAL MANURE FOR FRUIT.

Is not one reason for increasing uncertainty of the fruit crop the lack of available mineral plant food anythat this has more tortilities. For interesting uncertainty of the fruit of pask there are sufficient mineral plant food locks itself up, and gets out of the reach of crops. It no doubt does the same to tree roofs as well. Trees need most farm crops do to make their growth. Hence it often happens that grain agrains can be grown on land when it planted to fruit the crop is nearly always a failure.

Before a disability claim, is paid and who it is understood that all such claims a knowledge of the proceedings under which a disability claim, is paid and who it is understood that all such claims have to pass the scrutiny of an investigating committee, the Local Medical Examiner, the Grand Medical Examiner, the Grand Medical Examiner, the Finance Committee and the Grand Ledge Offic rs, it will be seen that in gating committee, the Local Medical Examiner, the Grand Medical Examiner, the Finance Committee and the Grand Laige Offic rs, it will be seen that in Examiner, the Grand Medical Examiner the France Committee and the Grand Leige Officers, it will be seen that in home but a genuine case of disability could a caim be paid. That the claim was paid Mr. Marshall under this string ent senttiny was unimpeachable evidence of his total disability; that he was afterwards made a well man was die entirely to a treatment of Dr. Wilsons equally remarkable, due to the Same grand agercy, each of which has been verified by the most trustworthy is-timony. The "News-Letter" in common was given in behalf of Dr. Wilsons Extra the most grand agercy, each of which has been verified by the most trustworthy is-timony. From many of our exchanges we have noticed with interest the reports of the great benefit derived from the use of Dr. Williams' Pink Pills, and the case of Mrs. Chase goes to confirm the claim that they are a wonderful discovery in the interests of immunity, restoring vitality to the broken down system. Considering that Mrs. Chase has suffered ten years, and last October was looked upon as being at the point of death, there must be some thing of an above wingenens within in thing of an almost miraculous virtue in the remedy which has raised her to her present condition of health, after she had spent hundred of dollars in doctoring, and for other so called remedies, of various kinds. In fact Dr. Williams' Pink Pills are recognized as one of the greatest modern medicines — a perfect blood

PREFERENTIAL TRADE.

Preferential trade properly consists in giving the preference to Burdock Blood Butters when seeking for a cure for constipation, dyspopsia, headache, billousness, jaundice, serofulz, poi-sonous humors, bad blood, rhetimatism or Kid-ney complaints. It is the true cure, and has cured cases which had resisted all other treat-ment.
