

ATTACHMENT 4/2

Conversion in the reactor (fragmentation)

Estimation of filling level

Operating conditions (see ATTACHMENT 5)

General observations (see ATTACHMENT 8)

Work-up in the reactor (fragmentation: washing, filtration, extraction)

not to be considered in the present case

Work-up in the mixing vessel (washing)

Operating conditions (see ATTACHMENT 5)

General observations (see ATTACHMENT 8)

Work-up in the reactor (evaporation)

Operating conditions (see ATTACHMENT 5)

General observations (see ATTACHMENT 8)

Transfer to mobile receiver

Weight determination G3 of reaction solution

Sample taking P4 (see SOP point 4.14)

Drying by batches

Weight determination G4, comparison with G1 and G3

Sample taking P5 (see SOP point 5.28)
