

# NOTICE TO READERS

During fiscal year 1989-90, twenty-eight Canadian Trade Offices abroad identified the fish and seafood sector as a priority for export market development. Each year developed a program of activities related to the sector and provided key information on the markets served by the Trade Office. As part of the planning process, each Trade Office identified specific species and seafood products for which there are good marketing opportunities. The following detailed assessments by our Trade Offices of these export opportunities.
