

*Proceedings on Adjournment Motion*

has assured me and the President of the Treasury Board has assured me that this report is currently receiving the most urgent consideration.

● (10:20 p.m.)

I suggest, Mr. Speaker, that it would be far more beneficial to those who will benefit to have a sensible proposal put forward to the house by way of legislation than to do something under extreme pressure that in the long run may not be as helpful to those people we

all want to help. When this consideration that I ask my hon. friend to accept has been finalized by the government, I can assure the hon. member for Winnipeg North Centre that legislation will be introduced in respect of this matter.

**Mr. Knowles:** I hope the pensioners concerned will live to see it.

Motion agreed to and the house adjourned at 10.23 p.m.
