investigation - following

Health Study / Province of Quebec

### Health survey

necessity always realized but time not opportune,  
we " to increase public and political interest

Health Commission.

- a) sponsor and consider findings.
- b) ~~ask us to~~ appoint ~~committee~~ technical sub-committee.  
to direct survey, prepare and present report.
- c) Call in as consultants. — Committee on  
Administrative Practice of American  
Public Health Association.

Contribution of Health League  
Indicate survey,  
work " "  
Finance "

Why not do it  
Why use A.P.H.A.  
experience,  
prepare report

It seems that time has arrived to  
place before Montreal its true  
stand in health work and to  
present definite plan for  
future development?
