Opening at British Exchange

LONDON. April 27.—After an early burst of strength with a rise of from three to six points in Mexican Rails on covering due to the offers of mediation in the Mexican trouble, the stock market today became quiet. Later arrangements for the general settlement occupied most of the attention of dealers and prices eased off. British securities were affected by the Uister situation, and Paris sold freely. The market finished weak and somewhat nervous, pending the completion of the settlement.

Copper stocks were steady exceptions. American securities opened strong and from ½ to 2½ points higher. The favorable Mexican reports induced covering during the first hour, and the list continued to advance under the lead of Canadian Pacific, which gained four points. Later prices moved irregularly, but the closing was steady.

C.P.R. DEMORALIZED

MONTREAL, April 27 .- The new cus mary slump in C.P.R. in the late tradng at New York brought the local market ing at New York brought the local market to a weak and nervous close today. Higher cables from London early in the day with C.P.R. up more than three points from the close of last week had the effect of imparting a decidedly more cheerful feeling to the market. First transaction in C.P.R. here was at 1924, an advance of 2½ points from Saturday. Brazillan opened 3½ higher at 77½ and subsequently rose to 77%. Montreal Power opened 2½ up at 219, and rose to 120. Laurentide opened two higher at 174 and made a further gain of a point. Richelieu at 100 was up ½. showed substantial net gains from Saturday.

The latest break in C.P.R. came towards the end of the afternoon trading, when the price fell rapidly from around 190 to 186 in New York and 187 here, and finished only a small fraction above the lowest. As compared with the early high there was a fall of about 5½ points, and the early gain of 2½ here was converted into a net loss of 25%.

The effect was depressing on the entire list here and prices gave way in all directions. A small part of the early advance was retained by some stocks, but there was a general drop in quotations towards 3 o'clock and actual net changes on business transactions were deceptive. Thus, Laurentide, with a nominal gain of two points at 174 in the final transaction, was offered at 173 at the close, with 172 bid, against 175 asked and 172 bid at the close on Saturday.

NAVIGATION AT CORNWAL!...

CORNWALL, April 27.—The barge freight Senator Derbyshire opened navigation today by being locked thru the Cornwall Canal. She was en route from Toronto to Montreal and was closely followed by the steamer Algonquin from Port Colborne to Montreal.

An order to take effect May 1 was made by the Ontario Railway and Municipal Board yesterday for the annexation of the Glebe properties, on Danforth avenue, as passed by the city council some weeks ago. The land lies north and east from the corner of Danforth avenue and Leslie street and comprises in the neighborhood of 87 acres. Over one-half of this amount was sold by the church to a syndicate, while the balance, except a portion purchased by the board of education for a site for new high and public schools, remains in its poscession.

More Room is Also Needed in Present St. Lawrence Building.

Over 50 farmers from surrounding townships waited upon the property committee yesterday afternoon with a request that two markets be established, one in North Toronto and the other in West Toronto, and that the St. Lawrence Market be enlarged. A committee of the farmers had met in the morning and had formulated the request after debating the situation. It was estimated that the St. Lawrence Market would answer for the needs of the central and eastern portions of the city.

"In the past five years \$600,000 has been expended upon good roads leading into Toronto, and this has caused the ten times the amount of land to be taken up with truck farming." been expended upon good roads leading into Toronto, and this has caused the times the amount of land to be taken up with truck farming." Anthony Forester stated. He advocated the establishment of markets in which would be sold the early fruits and vegetables from the surrounding farms the year around.

"A Fadial system is the ideal way to get produce to the city." Walter Scott of Markham declared.

"Between 700 and 800 farmers come into Toronto every day, and they would sell produce in markets in the west, the north and at St. Lawrence Market were the proper accommodation provided." Reeve McNair of Vaughan said. "I firmly believe that the farmers can help to solve the problem of the high cost of living. A still greater problem is to keep the producers on the land, and the city can help to solve that problem by providing markets with the least amount of restrictions upon the sellers and buyers."

"Building a Chinese wall around the city is not in the interests of the consumers or the farmers," Seneca Baker of Whitchurch said. "Toronto should be opened up wide for the sale of farm produce."
