

**JAPAN IN DAYS OF YORE**, VOLS I, II, III, IV, BY WALTER DENING. These tales are designed to portray the life and manners of the Japanese as they were two centuries ago. Each volume is illustrated and neatly got up.

---

**THE LIFE OF TOYOTOMI HIDEYOSHI**, BY THE SAME AUTHOR. Hideyoshi's originality, fertility of resource, knowledge of human nature, generosity, courage, and versatility constitute him the most remarkable man that Japan has produced.

---

**A COLLECTION OF CHILDRENS' SPORTS**, BY SENSAI EITAKU. These pictures are vivid representations of the principal games played by Japanese children. They give a better idea of the dress and general appearance of children of various ages and both sexes than could be derived from any oral description whatever.

---

**THE FORTY EIGHT TAKA**, The taste and delicacy with which these paintings are executed, the beautiful blending of colours, and the postures which the various birds are made to assume are something quite exceptional.

---

**FLOWERS AND BIRDS**, BY TAKI KWATEI. These pictures are printed from very superior woodcuts. The subjects are tastefully chosen and the finish and execution of the drawings very superior.
