Taft so Determined to Carry Reciprocity That He Will Call a Special Session if That is Found to Be Necessary — Its Hope in Democrats.

WASHINGTON, Jan. 28 .- To carry into effect the terms of the reciprocity agreement concluded by representatives of Canada and the U. S., the first move was made to-day when McCall of Massachusetts, a member of the way and means committee of the house, presented the administration bill on the subject. The bill was referred to the committee on ways and means, which will take it up next

The introduction of the bill by the Massachusetts member instead of Mr. Payne of New York, chairman of the ways and means committee, occasion-ed some comment. It is interpreted in many quarters to indicate that Mr. Mc-Call will take a prominent part in steering the bill thru the committee and in engineering its progress on the

loor of the house. While members of the committee de-cline to discuss their prospective at-titude on the measure, it has become fairly well established that the McCall bill will pass thru committee and come out on the floor of the house within a

Imperial Conference to Discuss Differentiation of Self-Governing Dominions From Crown Colonies - The Fiscal Preference an Item on the List.

NEW YORK, Jan. 29 .- The Tribune's

London cable says: While court officials are striving to nake the colonies more conspicuous at the coronation, the ministers are seeking to pad out the program for the imperial conference, so that tariff reform and preference will not be missed. Military and naval matters were discussed exhaustively at the last conference, and imperial federation remains a baffling problem, like the squaring of the circle. The new subject is the reconstitution of the colonial office by differentiating the crown colonies from the self-governing dominions and placing the prime minister at the head of a special department dealing with the second class gether the overseas dominions, and the prime minister would be the King's right hand in protecting their inter

Another question will be the expediency of ratifying the declaration of London, and this will require prolonged discussion when Sir Edward Grey's Bowles' proposals are considered, with a reversion to the principles of tham and Pitt and the practice of Mid-shipman Easy, and with the renuncia-tion of the declaration of Paris and the doctrine that a neutral flag covers an enemy's goods which are not con-traband. The government, apart from giving the colonial premiers something to talk about, will probably preter to have them take up the declaration of London in advance of parliament.
